PARIS, IDAHO.

FIELDING ACADEMY

Closes Prosperous Year—Funeral of Charles Oakley.

Special Correspondence.

Paris, Bear Lake Co., Idaho, May 29.—The funeral services of Elder Charles Oakley were conducted at the second ward meetinghouse yesterday. There was a very large attendance. The speakers bore tribute to the worth of the deceased, as an honorable, upright man, who had an abiding testimony of the truth of the Gospel.

A peace meeting was held on Monday and a very entertaining and instructive program rendered.

FIELDING ACADEMY NOTES.

Preparations are now rapidly making for the exercises of commencement week, to occur on June 3, 4, and 5. The program for commencement day will be rendered in the large school tabernacle on Thursday, June 4, and Friday will be spent as field day on the lakeshore near Fish Haven. About 20 students will be graduated from the preparatory to the academy department, and approximately the same number will complete the work of the first year normal and high school courses. The total enrollment for the present year is 295, and the prospects of a large attendance next season are in every way encouraging. In a recent meeting of the academy board, all the members of the present faculty, except Instructor G. A. Cole, who will teach in the University of Utah, were re-elected for the ensuing school year; and several of the teachers will, during the vacation, attend the summer session of the University of California in Berkeley. The most active interest is manifested in favor of the academy, and it doubtless has the brightest kind of future before it.

BARN STRUCK BY LIGHTNING.

Paris, Idaho, May 22.—A heavy storm passed over Paris yesterday. The thunder was very startling and the lightning vivid. U. U. Stuck's large barn was struck and a valuable horse killed. The barn was set on fire but was quickly extinguished. Some people were knocked off their feet by the concussion.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the Stomach sweet. Sold by all druggists.

LEIGH, IDAHO.

Foot of Snow—Hard on Livestock—Death of a Child.

Special Correspondence.

Leigh, Fremont Co., Ida., May 19.—There is a foot of snow on the ground this morning. The clouds have raised, the air is cold and cattle and sheep must suffer to some extent. Cattle were going to and fro yesterday bellowing with cold and hunger. People that have old straw or anything in the shape of feed are in luck. What will become of the 100,000 sheep between here and Rexburg remains to be seen.

The little daughter and only child of Mr. and Mrs. James Steward died last Friday morning after a lingering illness. The funeral services were held at the residence, Patriarch John Letham and others were the speakers.

OAKLEY, IDAHO.

PEACE MEETING.

Smallpox at Marion Under Control—Heavy Frost.

Special Correspondence.

Oakley, Cassia Co., Ida., May 19.—The three Oakley wards joined in a union peace demonstration last night; the meeting was held in the Oakley house and was presided over by Mrs. LeVina Bates. The attendance was large and appreciative, and the program consisted of three principal addresses; the first by Rev. and Senator Hon. John L. Smith, who spoke on the

"Do you seek Alcides' equal? None is, except himself."

Those who seek the equal of

Gorham Silver

find it only in productions of the Gorham Co. Though costing as much none other possesses the same distinguished qualities.

All responsible jewelers keep it

subject of "Peace in the Home," in an earnest and instructive manner; second by Mrs. Precilla Worthington, "Peace in the Community," and the closing talk was by Hon. S. P. Worthington, who had for his subject "Universal Peace." This was handled in a masterly style. Appropriate songs and recitations were interspersed through the program.

A COLD WAVE.

We are having an extremely cold wave in this part of the state just now. Ice was formed on standing water last night nearly a quarter of an inch in thickness. It is feared that the fruit crop will suffer under such a low temperature.

EMALPOX SITUATION MARION.

Word from Marion is to the effect that the first announcement of the presence of smallpox in this vicinity is by persons afflicted with the malady, they are all confined to one house, and there appears to be good reason to believe that it is completely under control. This is largely due to the prompt action and vigilance of Health Commissioner Adam G. Smith of Marion. As far as known none of the old residents of that locality have taken the disease, as the 10 cases are confined to recent arrivals from the southern states.

DRIGGS, IDAHO.

TELEPHONE IN THE TETONS.

Fine Crop Prospects—Two Days' Snowing—Will Dig for Oil.

Special Correspondence. Driggs, Fremont Co., May 18.—The Teton Telephone company has connected us with Victor, the first talking was done Saturday night. The company intends having the line completed to St. Anthony in about two weeks. All the business houses and private ranchers will have "phones along the line which will make it more pleasant to do business.

It has been snowing here for two days but melts as fast as it comes. Those who are through cropping feel to rejoice. Prospects are good for crops and the Teton valley is forging to the front very fast as an agricultural region.

A few new settlers are coming in. The Fremont Coal, Oil & Gas company will commence digging for oil June 1.

A Little Early Riser now and then at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by all druggists.

IDAHO FALLS, IDAHO.

HEAVY LOSSES TO SHEEPMEN As Result of Severe Storm—Bee Outlook—Choir Outing.

Special Correspondence.

Idaho Falls, Bingham County, Ida., May 21.—The heavy storm of last week brought great joy to the farmers and especially was it considered a God-send by those connected with the sugar beet industry. In this and adjoining counties. Reports from the camps of the sheepmen, however, is very disheartening.

ing, as their losses are very severe. To add to the heavy losses sustained by reason of the cold weather, the disease known as the "big head" is taking off a large number of the sheep. As is has stormed again during last night and nearly all of today, the outlook is gloomy for the owner of sheep.

Our ward choir which has attained a high standard of excellence under the leadership of Joe Morley, leaves on a special, this evening, for Rexburg, where they will repeat the successful musical which it gave here four weeks ago. The merry party will return to Idaho Falls immediately after the concert.

Our numbers were augmented yesterday by the arrival of the families of Heber Austin, James C. Gough and Charles Edwards, all of whom will take up their abode in dwelling houses which have been erected near the site of the Idaho sugar company. The company now reports upwards of 5,000 acres sown in sugar beets, and with the rest of the people of this country, are anxiously awaiting the advent of warmer weather.

WESTON, IDAHO.

Grain and Alfalfa Winterkilled—Work on New Tabernacle.

Special Correspondence.

Weston, Oneida Co., Ida., May 22.—The country is smiling after a splendid rain, which has been falling for the last three days. Crop prospects are below the average as considerable damage has been caused from winter killing both to grain and alfalfa.

Although there was an abundance of snowfall during the winter the reservoir could not be filled as the thirsty ground drank up the water nearly as fast as it thawed. The tabernacle is being pushed in its construction. The stonework was contracted by Messrs. Joseph A. Geddes and F. Neuffer of Preston, Ida., and they have an able gang of masons at work, and it will soon be ready for the brick.

Several other buildings are going up and others contemplated, denoting thrift and industry among a portion of our community.

Quite a large crew of sheep shearers depart for active service as soon as the weather clears up.

OAKLEY, IDAHO.

CASSIA STAKE ACADEMY.

Commencement Exercises of Successful Year—Prof. Peterson Honored.

Special Correspondence.

Oakley, Cassia Co., Ida., May 22.—The Cassia Stake academy held its commencement exercises in the Oakley tabernacle today, after a very successful year's course. The records of the institution show an attendance as follows:

Missionary department, 21; high school, 40; preparatory, including sixth, seventh and eighth grades, 91. Over 20 certificates of promotions were issued to students by Wm. T. Jack, president of the board of education. Appropriate programs were rendered by the students commencing at 10 a. m. and 2 p. m., after which members of the stake board of education briefly addressed the assembly on themes appropriate to the occasion. The report of Prof. Joseph Peterson, principal of the school, was highly complimentary to the institution over which he has ably presided for two years, and in which he has been duly assisted by Miss Lou Lewis and Mrs. A. C. Pierce.

Sixteen of the missionary students of last year are now doing yeoman service in the proclamation of the Gospel as follows: Three in Nebraska, three in the Society Islands, four in Sweden, two in the Eastern States, one in the Southern States and two in British Columbia.

Monday morning the school will go to the Shoshone Falls and Blue Lakes, on Snake river for pleasure, and immediately after their return Prof. Peterson will start to California where he will enter the Leland Stanford university for the summer, preparatory to taking up his work here next fall.

IN HONOR OF PROF. PETERSON.

A very pretty accolade was given at the commodious residence of Bishop Hector C. Haigh last night in honor of Prof. Joseph Peterson, who has been leader of the First ward choir during the year. About 40 guests were present, including members of the choir and the stake presidency.

Elders Wm. T. Jack and John L. Smith of the stake presidency and others will start to Grouse Creek, 45 miles south of here, to hold ward conference Sunday next.

The Wastes of the Body.

Every seven days the blood muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down. Health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia, all stomach troubles. It has an ideal spring tonic. Sold by all druggists.

GROVONT, WYOMING.

Spring Work Interrupted by Blizzard—Prospecting for Coal.

Special Correspondence.

Grovont, Uinta Co., Wyo., May 19.—Cropping is all done except the planting of potatoes. This has been a beautiful spring for putting in crops, though a change of weather set in on the 15th inst. A snow storm came with heavy wind from the south and it is still snowing and freezing, a veritable blizzard, which is uncommon for this season of the year.

We have five schools in this valley, with a promise of the sixth, with an able core of teachers. Some of the children have as much as eight miles to go to school.

Considerable prospecting is likely to be done here this summer. Already one railroad representative has been in here, coming over the Tagotote pass on snowshoes looking for coal. He is quite pleased with the prospect, and gave out the impression that a railroad would soon be built into this section to tap the enormous coal deposits that abound in this locality.

On account of the long winters, some four or five families are going to leave this valley.

RAYMOND, CANADA.

TERRIFIC BLIZZARD.

Worst Storm Ever Witnessed by White Men in Alberta.

Special Correspondence.

Raymond, Alberta, Canada, May 19.—The blizzard that started at 4 p. m. on Saturday, the 16th, still holds the country in its grasp. The snow has fallen to great depths and has been driven by the wind into the faces of men, cattle and horses are dying and if the storm does not abate soon it will be hard to estimate the loss. Word comes from spring Coulee that the snow is drifted over the snow fence until it covers up a freight car. The road is blocked with snow between Spring Coulee and Cardston. Stock owners are out in the snow as far as they dare go rounding up their stock. No such storm has ever before been known in this part of Alberta since it has been settled by white men. Just a year ago the country was

DYSPEPSIA OF WOMEN.

Mrs. E. B. Bradshaw, of Guthrie, Okla., cured of a severe case by Lydia E. Pinkham's Vegetable Compound.

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary medical treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by derangement of the female organism, and which, while it causes disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomachic, but has peculiar uterine tonic effects as well.

Thousands of testimonial letters prove beyond question that nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound. It always works in harmony with the female system.

Mrs. Bradshaw writes: "I was a sick woman free. Address Lynn, Mass."

visited by a terrific rain that brought on a flood. This year it has come in the shape of a snow blizzard. The storm has been such as to stop all work and prevent people from leaving their homes as there is danger of being lost. One cannot see but a short distance and it is out on the prairie one cannot tell well his way into a place of shelter. Those who have good haystacks and barns are in luck, but they are few.

Raymond, May 22.—The great storm stopped at about midnight on the 19th. The snow covers the ground in great drifts. Men were out on horseback in every direction struggling through the snow looking for their stock on Wednesday. The greatest loss in stock reported is in the poor doxies from eastern Canada; these animals have been raised in barns and around farms and are tender and lay right down and die. The losses in Utah cattle are not so great as they are used to making. Though the sun has been warm the snow is disappearing very slowly, and all under the snow is water. The roads are as yet impassable and it is hard to get out any distance.

The storm will, it is thought, insure the crops of the farmers, the loss will be in stock and sheep. As yet no reports have reached here from the sheep camps. One man reports finding 15 head of cattle lying dead. In this immediately neighborhood scattering losses are reported.

The storm has stopped all work on the sugar factory but work will be resumed as soon as the snow clears off.

DESERET NEWS AGENT.

The Deseret News is well patronized. L. D. King is the local agent for Raymond.

From a Cat Scratch.

on the arm, to the worst sort of a burn, sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve, be particular to get DeWitt's—the salve that heals without leaving a scar. A specific for blind, bleeding, itching and protruding piles. Sold by all druggists.

LUND, NEVADA.

Peace Meeting—Much New Land Broken—Favorable Crop Outlook.

Special Correspondence.

Lund, Nevada, May 19.—A very successful peace meeting was held here on the evening of May 19 under the auspices of the Relief Society and Y. L. M. I. A., and a very interesting program was rendered, consisting of appropriate speeches, songs, reading, recitations and instrumental music.

Spring has opened favorably for farmers and stockmen. Most of the crops are in. Considerable new land

has been broken up and fenced this spring.

The two departments of the district school closed last week, after a run of twenty-eight weeks.

Bishop Thomas Judd from St. George is with us again, on business pertaining to land matters.

RAWLINS, WYO. ING.

A 4,000,000 POUND WOOL CLIP.

Prices Range from 13 to 14 Cents—Storm Hard on Sheep.

Special Correspondence.

Rawlins, Wyo., May 21.—Wool sales in this county are about over with for this season, a clip of over 4,000,000 pounds having been disposed of. Prices ranged from 13 cents, the lowest, to 14 cents, the highest. Some few clips will be held for further advance.

Sheepmen are considerably worried for the safety of the lamb crop in this section. Six inches of snow fell during the recent storm and the temperature was below the freezing point for three nights. No serious losses have been reported as yet.

MERCHANT'S PRINTING.

Turned out on short notice at the Deseret News. A big shipment of new types and supplies sent in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., are unequalled by any establishment in the West.

THEIR DEED OF MERCY.

The intelligence of dogs was never better displayed than in a case which came to light in Greenville, N. H.

A little more than six weeks ago Louis Cameron lost a valuable hound. When last seen the dog was in company with Charles Rodier's dog Sport and a little fox terrier, and all three were making for the woods on a run. Mr. Cameron tried to find some traces of his hound but finally decided that he had been shot or poisoned and gave up all hopes of recovering him.

Immediately after the disappearance of the hound Sport began to leave his master's house regularly every morning, returning each evening. Mr. Rodier tried to follow the dog, being curious to know what took him into the woods so much with the fox terrier. He supposed that the two dogs went hunting together, but failed to find any evidence of their having done so.

Last Sunday, as Charles Newton was walking down the Wilton road, he saw Sport and the fox terrier sitting beside the road looking into the bushes. To his great surprise both dogs growled savagely at him, although he had always petted them.

Walking past the pair slowly, Mr. Newton spied the lost hound crouching in the bushes. The hound was a pitiable sight. One of his hind legs was gone and all the toes were missing from one fore foot. The tail had been cut off short and a long, freshly-healed scar showed where his head had been torn open. One eye was also gone. The wounds were fairly well healed, and Mr. Newton concluded that Cameron's hound was bound for home, being assisted by Sport and the fox terrier.

Apparatus indicated that the hound had been run over by a train, and the regular disappearance of Sport and the terrier proved beyond a doubt that they carried him food and cared for him during the six weeks that he lay wounded in the woods.—New York Sun.

IN SALT LAKE CITY.

Every Claim is Backed by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Salt Lake City, what can it be?

Oswald Knight, retired, of 524 West Fourth South, says: "I am 77 years of age and hardly expect any medicine to have the same effect upon me as if the tissues of my body responded to it as they would have responded when I was a younger man, so that I do not want my many friends and acquaintances in Salt Lake City to think that Doan's Kidney Pills, procured at the F. L. Hill Drug Co.'s store, have radically dispensed with my kidney trouble. I have suffered excruciatingly, but I want to thoroughly impress upon the reader that they have brought me undoubted relief, and relief to anyone afflicted with the above mentioned ailment is decidedly welcome. I need not go in to the particulars of the symptoms of gravel and kidney complaint. They are only too evident to the sufferer. What is of much more importance is, if not to stop them absolutely, how to at least lessen their floods until suffering is scarcely noticeable. Let me say that Doan's Kidney Pills can be taken with every confidence that they will act exactly as represented."

For sale by all dealers. Price 50 cents. Foster-McIlhenn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Constipation Makes Bad Blood.

MULL'S GRAPE TONIC CURES CONSTIPATION

Constipation is the rotting and decaying of undigested food in the alimentary canal. Disease germs arise from this festering mass, which find their way into the blood. The blood becomes impure and shortly the entire system gives way to the unhealthy condition.

You cannot cure a case like this by taking pills or other common cathartics. A laxative will not do. A blood medicine is ineffective. Mull's Grape Tonic is a gentle and mild laxative in addition to being a blood-making and strengthening tonic which immediately builds up the wasted body and makes rich, red blood that carries its health-giving strength to every tissue at every heart beat.

Mull's Grape Tonic is made of pure crushed fruit juices and is sold under a positive guarantee.

Doctors prescribe it. All druggists sell it at 50 cents a bottle. Send 10c to Lightning Medicine Co., Rock, Island, Ill., to cover postage on large sample bottle.

For Sale in Salt Lake City by Neiden-Judson Drug Co.

BIGELOW CARPETS.

The Carpets made by this Company have received the highest award wherever exhibited, including Gold Medals at the Paris Exposition, 1875, and at the Centennial, 1876.

Their deserved reputation for excellence of fabric, richness and durability of color, novelty and beauty of design, has led to frequent infringements, and inferior goods have often been palmed off in their stead. For the protection of the public the Company has adopted as a trade-mark the word "BIGELOW," which will be woven (at every repeat of the pattern) in white capitals into the back of the fabric. Customers will therefore have merely to examine the back of a carpet to be certain that they are getting the genuine Bigelow Carpets.

These Goods can be obtained from all first-class dealers. BIGELOW CARPET COMPANY. NEW YORK.
