

hours. It appears that the whole diabolical scheme was concocted before the parties made their appearance at the scene. Monahan was a man highly respected and not disposed to quarrel. He was buried on Wednesday afternoon. The affair has cast a gloom over the entire place.

Two armed men, it is supposed with evil intent, were prowling about the premises of Mr. Holand, one of the proprietors of the *Ely Record* on the evening of the 4th, but their moves being closely watched foiled them.

Thos. Nagle, engineer of the Raymond and Ely mill, at Bullionville, while adjusting the driving belt, his hand was caught in the belt, which threw him into the fly wheel, which took him round twice, crushing his body before he was thrown off on the floor. The fly wheel was going at the rate of two hundred revolutions per minute. The back of his head was crushed in, his brain oozing out; the right shoulder and all the ribs on the right side were broken; there was a deep cut on the hips, his leg was broken at the knee and one foot partially carried away. The deceased was a native of Iowa, and aged about thirty-five years. He has a father in Minnesota, and a brother who is a master mechanic on one of the principal railways east.

It appears from a statement of a passenger who came on the stage from Pioche, that while the stage was at Meadow Valley, an officer and posse from Pioche attempted to arrest a passenger on the stage by the name of S. Cocking, who drew a knife on the officer, stating that he would not be arrested. When the stage arrived three miles west of Summit Springs, on the Pioche road, shots were fired into the stage, killing Cocking; he was shot in the foot and head. His body was brought to Deseret Spring's Station, where it was buried by the officer and posse. Two or three others on the stage were arrested, and taken back to Pioche.

#### ALTA CITY, 10.

A miners' meeting was held at the office of the Emma on Saturday afternoon; it was called for the purpose of revising the laws of the district, but on account of the informality of the call it was postponed until the 18th inst. After the meeting was adjourned the parties present proceeded to erect a flagstaff and hoist a beautiful flag on the far-famed Emma, which was successfully accomplished; and when the glorious stars and stripes were run up, the canyon reverberated the cheers given by the lusty miners present, after which Col. Jocelyn delivered one of his flowery speeches, which was afterwards wafted down by two barrels of good beer, brewed by Donnell & Morrison in this canyon.

A meeting was held at Shaw, Masters & Co's. business house, on Saturday evening, for the purpose of electing delegates to the Territorial Convention, Col. Easton in the chair, A. McGroff, secretary; when the following parties were elected to represent this district, viz: W. H. Harlow, R. E. Thompson, George W. Chase and J. F. Fuller.

We have had a case of small pox in Central City, that has proved fatal. We have buried the corpse and burned the cabin in which he died. Dr. Chamblin says that in his opinion no further contagion need be apprehended.

#### LOCAL AND OTHER MATTERS.

##### FROM FRIDAY'S DAILY

HOME AGAIN.—Elder Horace S. Eldredge and wife, and Elder Lorin Farr, reached home last night, from their missions in Great Britain. They are all in excellent health, and have had a pleasant time from the Mersey to Salt Lake. They left New York last Saturday evening. Bro. W. H. Cluff would have come along with them, but was detained by press of business. It was expected that he and Elder John Jaques would leave Liverpool on the 28th ult.

HORSE STEALING.—On the night of the 3rd inst, a span of large horses, the property of John Preece, of the Fourth Ward, were stolen out of a pasture just south of his residence. On examination, the next morning it appeared that the thieves had taken down the fence and led them out, and carefully put it up again, so that the other animals in the pasture could not get out. As yet no trace of the thieves or horses has been discovered; but the animals are well marked and widely known, and without they have been taken to some distant part it is likely they will be found.

WASHINGTON COUNTY.—C. A. Connelley, writing from Leeds, under date of June 29th, says:

"The grasshoppers have literally stripped everything we had here this spring, but our fruit trees are again making a start to grow. The vines are beginning to look well. We have planted all of our wheat land to corn, which is looking well, so our prospect for a good crop of corn and cane is very good. None of us feel discouraged, for we know that Dixie will soon be the pride of Utah. We have no sickness; plenty of water and an abiding trust in the Lord."

THE ATLANTIC AND PACIFIC CIRCUS.—An opportunity is now presented, at the Atlantic and Pacific Circus, whose exhibitions are given on Groesbeck's lot, East

Temple St., to witness some of the very finest feats of horsemanship, jugglery, gymnastics, etc. The lady and gentlemen performers of this company are first class artists all, and would be considered "stars" in their respective departments in any city in the world. The performances of the Romelli Family, Miss Polly Lee, the female juggler, Miss Rosaline, the female somersault rider, and in fact of all, are extraordinary, and, without a particle of puffing or clap-trap it may be said that the combination of talent in Lee's Great Atlantic and Pacific Circus is extraordinary, and we are of the opinion that it is superior to any company of the kind that has ever visited this city. Much of their performance is original, as well as surpassingly clever, and feats which in most companies are done by "crack" adult performers, are done here by juveniles. One visit will satisfy all that there is not a word of exaggeration in this notice. Remember the performances are given on Groesbeck's lot, East Temple St., below Second South St.

AT NEW YORK.—Elder Wm. C. Staines, writing from New York on the 29th ult., says that Brother and Sister Eldredge, and Bro. Farr arrived in that city two days previous; that Bro. Eldredge's health has improved ever since he left Liverpool, and at that time he was looking as well as he had ever seen him look. He would stay in New York a week when he would leave for home. Mr. John W. Young and wife, and Mr. Joseph A. Young expected to leave New York for Utah in a few days.

Bro. Staines says that he, Mr. John W. Young and wife, also Elders John Taylor, Groesbeck, Dusenbury and others, on the previous Sunday afternoon, sailed up the Hudson to West Point, where they had a very agreeable visit with Mr. Willard Young, whom they found well, and getting along very comfortably. He says he is kindly treated by all, and thinks he will like the Institution much as he gets better acquainted.

##### FROM SATURDAY'S DAILY.

NAVIGATION ON GREAT SALT LAKE.—The following was received among our W. U. T. dispatches this morning:

WASHINGTON, 7.—The acting secretary of the Treasury decides that vessels navigating the Great Salt Lake are not required to be documented, the lake having no outlet to any navigable waters.

REPORTED RAILROAD PROJECT.—The following dispatch was received to-day:

CARSON, Nev.—It is reported that the California Pacific R. R. Co., have under consideration, in San Francisco, a project for crossing the Sierra Nevada by the Placerville or Big Tree route, touching Carson Valley in passing, and thence East through the central portion of Nevada to Utah, and forming a junction with the projected Chicago and Northwestern Pacific R. R., at a point near Ogden.

MR. SETH GREEN, of Rochester, New York, whose fame as a cultivator of fish, and whose successful efforts at restocking eastern rivers with the finny tribes, are so widely known, arrived in this city, accompanied by his friend, Mr. Kellogg, yesterday morning. Mr. Green is returning from California, whither he has been for the purpose of introducing shad to the waters of the Sacramento River, where he thinks they will be a success.

Mr. Green called at this city on his return journey by invitation of the members of the Association in this city for the culture of fish; and yesterday, in company of the Vice President, Superintendent, Secretary and Treasurer of said Association, he visited their ponds at Forest Farm, and made many excellent suggestions in relation to the proper method of managing the fish, constructing ponds, arranging for breeding purposes &c. He pronounced the water excellent, and the supply of food on hand for fish, all that could be desired; and expressed the opinion that there was all the convenience necessary to raise ten millions of fish annually.

On the return of the party an incident occurred which well illustrated the enthusiasm of Mr. Green in all that pertains to fish. While crossing Emigration Canyon creek, he stopped to taste the water, and noticing some small fish in the water expressed the opinion that they were shad; but some present thought they were trout. To convince himself, Mr. Green partially undressed, entered the creek, and succeeded in making a catch, when it was found that they were what he supposed, shad, and not trout.

THE FOURTH IN THE SETTLEMENTS.—Owing to lack of space and on account of the following reports not being received earlier, we are compelled to publish them in an abridged form.

LOGAN.—At day break the national flag was hoisted, amid the firing of cannon and musketry. At 10 a.m., a large concourse of people assembled in the bowery, when W. B. Preston, Esq., orator of the day, delivered a patriotic oration. There were also speeches, toasts, sentiments, &c., reading of the Declaration of Independence by Hon. M. Thatcher; music, singing, &c. In the evening there were horse-racing and a fine display of fireworks; the en-

fire proceedings concluded with a grand ball.

GRANTSVILLE.—At dawn of day; unfurling of flags, and cannon and musketry firing. At 9 a.m. a procession was formed and paraded. The forenoon was occupied at the Social Hall, where an oration and speeches were delivered; also music by Major Ratliff's band, singing by the choir, &c. In the afternoon theatrical performances.

WELLSVILLE celebrated by the firing of arms, music, oration, speeches, a variety of out-door sports, theatricals and other exercises, too numerous to mention.

FOUNTAIN GREEN had musketry firing, a procession, the usual number of patriotic speeches, music, singing, &c.

LEVAN.—The day was one of general rejoicing, from early dawn till night being spent in musketry firing, marching in procession, music, speeches, dancing, &c.

WELLSVILLE.—Thomas Bradshaw writes as follows from that place, under date of July 5th:

"The grasshoppers have done much damage, but they are now gone; may they never come back. There is considerable grain left yet, and plenty of vegetables. If all goes well we will be able to supply the market with hundreds of tons of cabbage, onions, &c. We shall be ready to make contracts in a few weeks for the above, and thus prevent the necessity of our green grocers sending to California for supplies. We have raised these vegetables in compliance with the advice of the DESERET NEWS."

We are pleased to learn from Brother Bradshaw that matters are so well with the good people of Wellsville as he says, for we had some reports from there which were rather gloomy, but they were received at a time when the "hoppers" were devouring the crops, and when it appeared as if they would make a clean sweep of the grain fields.

We congratulate the people of that settlement on their taking the initiative in the wholesale raising of garden products, and trust that other places will not be slow in following their example. We have always considered the necessity of sending to California for vegetables &c, as discreditable to the people of this Territory, for, with our facilities for raising them, it is not in reality a necessity at all.

At Moroni the Fourth was celebrated in fine style, there being the usual amount of musketry firing. There were a procession, a big gathering of the people, speeches, music, toasts, sentiments &c.

MOUNT PLEASANT.—There were musketry firing, a grand procession, Oration, speeches, reading of the Declaration of Independence &c.

ROCKPORT.—Flags floated to the breeze, guns were fired, a procession marched, there were an oration, speeches and music, the whole winding off with a ball in the evening.

EMIGRANTS ON THE WAY.—We are enabled to publish the following dispatch:

OMAHA, 8.

President B. Young.—A company of emigrants left here this evening at seven, R. F. Neslen in charge.

W. N. DUSENBURY.

A STOLEN CHILD.—Messrs. Chas. and Heber Oakley, from Paris, Rich Co., called to see us yesterday. They report that, as they came by Swan Creek they saw a few Indian wickiups, and in front of one of them, a white child, dressed Indian fashion, playing with some papooses. It appeared to be a girl of about three or four years old, with light complexion and hair almost red. A grey mare and a little black colt were near by. They think the Indians were Bannacks. Inquiries ought to be made, as these Indians were in Paris last Sunday and had no such child with them then.—Ogden Junction, July 8.

CHIPPENDALE, a London actor, is 80; Charles Matthews is nearly 70 years of age; Benjamin Webster and Buckstone are 60; so are E. L. Davenport and the two Wallacks; Forrest is 64; Wm. R. Creswick and Barney Williams are 48; W. J. Florence is 38; J. S. Clarke is 37, so are Maggie Mitchell and Caroline Richings; Mrs. Florence is 50; Mrs. Barney Williams, 47; Kate Reynolds, 46; Lotta, 26; Blanche Chapman, 18, and Ella Chapman, 16.

FOR Coughs, Bronchitis and Consumption in its early stages, nothing equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It is also a great blood purifier and strength restorer or tonic, and for "Liver Complaint" and Costive conditions of the Bowels it has no equal. Sold by druggists.

TIME IS MONEY.—This old-timed axiom is aptly illustrated in the use of DOOLEY'S YEAST POWDER. It is well known that the common process of raising dough is a slow one, and often attended with unfavorable results, from the use of poor baker's yeast, and improper heat. With DOOLEY'S YEAST POWDER the best of rolls, biscuits, corn-cakes, etc., can be made in the short space of ten minutes, and uniform success will certainly attend its use. This is owing to its purity, strength, and the care with which it is manufactured. DOOLEY & BROTHER, 69 New St., New York, Proprietors. For Sale by all Grocers.

#### BEEES! BEEES! BEEES!

A FEW STANDS OF ITALIAN BEES FOR sale at \$20 a Stand, in Patent Hives, by Robert L. Campbell, Historian's Office, Salt Lake City. s44w22ly

#### STRAYED!

FROM North Ogden, a dark roan mare 12 years old, branded W H on left shoulder. Also one flea bitten gray, 8 years old, branded J W on left shoulder, paces. Any person giving information that will lead to their recovery will be rewarded by

W. HILL, North Ogden, Weber Co.
