GOOD BREAD .- Brother Dan. Grenig has sent us a specimen of bread manufactured by him from flour made by D. R. Allen at President B. Young's mill, at Big Cotton-wood. We have no doubt that a "puff" is desired for this bread, but we cannot see the leas necessity for it, its appearance is so ex-cellent that it recommends itself, and needs no "putting." It is almost as white as a snow flake, and as "light" as a sunbeam. Its taste is also unexceptionable.

LIGHT-FINGERED GENTRY. - A very respectable lady, residing in this city, assures us that yesterday afternoon while walking to, or when in the fair, she had her pocket picked of several dollars in currency. We think it more likely that she lost it, but she is positive that she placed the money carefully in her pocket before leaving home, and that when she wanted it she found herself minus and is onits on the lace, beaded purses, pin-eachions, she found herself minus, and is quite sure she was robbed of it. This is the first instance of the kind we remember here, and, while we do not for a moment question the veracity of the lady, we incline to the opinion that the money was lost. Still, it is just possible that some of the light fingered fraternity may have made a visit to Utah, and if so it will be well for the public and police to keep a sharp look out for
