SUMMER SCHOOL Beginning July 5th and continuing

Beginning July 5th and continuing five weeks the fourth annual session of the Manti college summer school will be held here. Courses are offered in algebra, geometry, trignometry, phy-sics, psychology, pedagogy, botany, English literature, civil government, drawing, methods in primary work; physiology, United States history, ge-ography and arithmetic. The teachers are Profs. J. H. Paul, J. H. Hickman, A. C. Nelson, Enoch Jorgensen, Ezra Christiansen and Allor Merril Horne. Christiansen and Alice Merril Horne, The school this year is under the management of Superintendent Jacob Mag-leby of Sevier and Superintendent Nelson of this county, and it promises to

be a success in every particular. Farmers, though in the midst of haying, are praying for rain, as the ground is very dry, and water from the mountains is growing more scarce every day. The crops around Manti are not suffering as they are in some parts of the valley, but we need rain, and it can't come any too soon to suit the ma-jority of the land owners.
