The incorporators, stockholders and officers are D. C. Adams, Fred J. Kiesel, Wm. W. Galbraud, Theodore Schausenpach and Wm. Schausepbach.

Ruined.-This morning a gentleman who resides just south of the city, came to the City Hall and asked for one of the girls who was arrested in a house of ill repute on Saturday night. He appeared greatly excited, and when the girl appeared, it was developed that she was his niece, whom he had supposed was living out as a hired girl yn the city. Her parents are dead the law of man and the law of God, b and the uncle had taken charge of the girl, who is but sixteen years of age. Her story is to the effect that when she left home about six weeks ago, the house to which she went as a servant girl was kept by one Mrs. May Turner. The latter, by threats and persuasion induced her to adopt a life" of shame. The scene between uncle and niece was most painful, the latter and to show it expressing herself as willing to do any thing to escape from her present disgraceful career.

a short lecture on obedience to the Obsequies.-Brother and Sister Edlaws. The sentence imposed was three ward King desire to return their sincere thanks to those who in any way \$300. assisted them during the sickness and after the death of their beloved son, Jag. E. King, who departed this life Thursday, May 27.

The funeral services were held in the Sixtcenth Ward meeting house, Sunday | Ward, and served a warrant of arrest last, at 12 o'clock. The speakers on upon him. they said, they were unable to obtain water from the pipes for sprinkling or other purposes. Referred to the Superintendent of Waterworks. Gentlemen - Your committee on water works to whom was referred the report of the Mayor and Superintendent of Water Works, together with estimate of the cost of improvements G. B. McDonald, agent for Selis Brothers circus, asked permission to exhibit three days in this city, stating which would (1) supply the wants of certain citizens and (2) increase the pressure and consequent availability of the present system, beg leave to that he had paid the usual charge of \$50

WATER FOR THE BENCH.

THE THIRSTY CITIZENS.

per day. Granted.

I. Barnett, secretary of the Utah Lime & Cement Company, submitted a proposition to perchase of the city a certain piece of land above the Warm present the following:
In the very outset of our deliberations on this important question we were compelled to recognize the absolute necessity for the improvement Springs. Referred to the committee on suggested for both the purposes unexpired liquor license of enumerated. Frank May was transferred to C. R.

First-A large proportion of the in habitants of the city, said to number one-sixth of our total population, live on what is known as the Dry Bench, where wells so far have proved an im-A. O. Arnold asked permission to sell goods on the sidewalk one month; he was an invalid, a stranger, and had possibility, and where water, even for the commonest domestic uses, is only no other means of getting away from town. Referred to the Mayor with o be obtained by hauling from lower and more favored localities-this, toc, in a city whose water supply could, we mended that the bill of Col. H. Page, believe, with proper economy and under no very stringent regulations, be made to answer the legitimate needs of a population four times the number

mended that the assessor and collector be credited the sum of \$107.15 taxes unsary element are running to waste collectable, as per his petition. They recommended that five assessments, every day. Second-It has been found by expetence, and is now generally conceded that owing to certain causes which are apparent to every thinking person, our water works system, which, from its natural location and advantages, the ld be one of the best in the counry, i., sadly deficient when considered collection of such taxes being now o connection with fire purposes. It is true that a certain pressure should, according to the fixed rules of hydraulics, exist at a given point; but it is no less Mrs. Emily Clawson, asking that the hydrant in front of her residence be removed. Adopted. true that because of the wide area over which our system extends, and the impossibility, except with the loss of con-The committee on waterworks, in reference to the petition of Joseph R. Warker and others, asking for the use siderable time, of shutting all the various arteries and turning the full head upon the point desired, this pressure cannot be obtained. Tests have oc-Street, between Third and Fifth South Streets, and that of W. H. Bancroft, re-ceiver, making the same request with relation to Second South from West Temple to the D. &. R. G. depot, stated curred recently which show that the nydrants for use in case of dre in cerain portions of the city cannot be depended upon, and the statement has been made with considerable truth, hat in case of a conflagration on East lumple Street the whole business cener of the town, so far as much help from the present water works is con-

cerned, would be at the mercy of the flames. Your committee in thus giving ing other etreets and taking the water from the canal instead of from the Mains. In response to inquiries, Suojce to a general feeling, have no wish to sound a vain alarm; but are firmly of the opinion that such a state perintendent Ottoger stated that it was impossible, with the size and pressure or things demands the prompt and earnest attention of your honorable oody and the speedy endertaking of Three propositions were presented to and considered by the committee. The first was the utilizing of the preseastern part of the city. It was finally decided that the committee's report be adopted, with ent ditch leading from City Creek to an elevation 110 feet above the floor of the new brick building in the canyon and conveying water in it by means of a 12 ach wooden pipe 2,000 feet long, into by tapping the canal, was referred to a 30 iuch iron stand or pressure pipe 108 feet high at the building. From the foot of this pipe 4,000 feet will the mayor, watermaster, chief en-gineer, and superintendent of water The committee on waterworks submitted a report (which appears in full

estimates for this system are: If the 4,000 feet be 6 inch from pipe marked that there is no estimate for harding the pipe from the cars to the but on the other hand, it is possible that the irou pipe could be laid down here a ittle cheaper than has been es-timated. The second proposition was the removal of the present waterworks entire, up to the new brick building, constructing two large reservoirs, to cost \$65,000, tapping them first with 168

teet of 30-inch pipe, costing \$1,837 then with 2,304 feet of 24-inch, costing To Taylor, Romney & Armstrong, for 13,000, to connect with the present mains: trenching, plumbing etc., would cost \$10,000 more, making a total of 30,857. By thus moving the To Mrs. M. A. Burt, for boarding of head farther up the caffon, it was sugon to a good portion of the Dry Bench not so much, however, as by the inde pendent system, and it was urged that his one complete system would answer both requirements in the report referred to. Your committee, however lained of in the present system would be met within this proposed extension that automatic valves would be costly and uncertain, that the pressure, who water was drawn off at so many different levels could not be depended on and that so great an increase of pres-sure as this would bring about on some of the pipes, they would be unable to withstand. We, therefore, listened with much favor to the third proposi-Third District Court, made yesterday,

tion, which is simply the adoption of both of the others, and making for Salt Lake City, what we believe it must have, a double system of water worksone for a high level and one for a low level. The rough estimate which we have had before us contemplates the carrying of a main from Prospect Hill to the Cemetery, and according to this the total cost for both systems would be \$50.643, which might be reduced some \$5,500 if wooden pipes were used for the independent system. In con-clusion, your committee would ask for this report as early and careful a consideration as possible, and would re-spectfully suggest that the matter of

applying water for culinary purposes to the residents of the Dry Bench, since it is of the utmost importance should be undertaken at once. Respectfully, THOMAS G. WEBBER, JOHN W. TAYLOR, JOHN Q. CANNON, CHARLES BROWN,

Committee on Waterworks
