

## UTAH BASEBALL LEAGUE FORMED.

Salt Lake, Ogden, Lagoon and Logan Compromise Organization.

## ARTICLES OF AGREEMENT.

Are Practically the Same as Those Signed Last Year—Casey Cannot Play in Salt Lake.

[Special to the "News"]

Ogden, March 15.—At a meeting held here last night and until nearly 2 o'clock this morning in the Weber club rooms by Utah baseball magnates, the much talked of Utah State Baseball league was formed by the following representatives from the cities named: Harry Josephs, Salt Lake; J. F. Glimlin, Ogden; C. H. Kelly, Lagoon; and W. A. Wheeler, Logan.

The meeting was called to order at 8 o'clock and the details of the organization were gone over most thoroughly and every point was discussed to the satisfaction of all. The following officials were unanimously chosen: J. S. Critchlow, president; H. Champ of Lagoon, vice president; F. N. Hess of Salt Lake, secretary, and the First National Bank of Ogden, treasurer.

The articles of agreement adopted by the representatives were the same as those of last year, and the season opens on April 26 and closes Sept. 24. On or before April 15, each club will place a forfeit of \$250 with the treasurer. The president was given full power to select the ball to be used, and to employ umpires at not more than \$100 per month.

The question of signing players was the one over which the most difficulty arose, but that was finally settled with all calling in either the police or fire department.

"Father" Glimlin held out for all previous contracts to stand. Josephs and Critchlow took the opposite stand. The object Glimlin had in view was to either secure Casey for Ogden or prevent him from attaching his name to a Salt Lake contract. "Father" Glimlin said Casey could go where he pleased so long as he did not play against the Ogden club. Logan and Lagoon agreed with Glimlin and Casey will not play in Salt Lake. Logan agreed to erect a new grand stand and the team will not be required to play ball on Sunday.

A. G. Horn and Chief Horcher compose the schedule committee and they will get down to work in the near future.

There is a great deal of satisfaction over the organization of the league and those who are pushing the project are elated over the prospects for the coming season and freely predict that it will be the best the Utah fans have enjoyed for many years.

## ROWAN FOULS ROLLEY.

Bout Ended in the Fourth Round of the Contest.

Park City, March 15.—What was scheduled to be a twenty-round boxing contest between "Dumphy" Rowan and Kid Rolley, came to an abrupt stop in the fourth round last night, and Rolley is now suffering from the effects of a foul blow delivered by the mite.

Rowan had landed a left hook on the jaw that all but put the local man out, and followed it with a hard blow which landed below the belt, and sending Rolley down in a heap. The crowd yelled foul and many jumped over the ropes into the ring in a mad effort to see Rolley. Rolley was on his feet in thirty seconds and demanded the contest on claim of a foul. The referee would not allow it, however, and the bout was continued.

The local lad continued the fight and landed some good ones on the mite. It was in the second round that the foul was struck, and even after the foul was ruled, Rolley continued to fight and was pulled away. In the fourth and last round, Rolley was too tired to make a good showing, and after a little over a minute fighting went to the floor from a series of lefts and rights which landed fairly. He kept the floor for the count, but the major part of the spectators claimed he should have had the contest for the unfair blow struck by Rowan. After the contest Rowan challenged Jim Flynn.

## JEFF'S OPINION OF FITZ.

Recently He Said Gus Ruhlman Could Beat Red Robert.

Champion James J. Jeffries holds Bob Fitzsimmons pretty cheap. In a recent statement made in Chicago, Jeffries said it was his honest opinion that Gus Ruhlman, the despised "quitter" of the heavyweight class, who is accused of having beaten his way into the ring by having been anywhere near out, could whip Robert the Red in another chance were given him.

The champion gave his opinion up with the following remarks: "Ruhlman had Fitz going badly when they met. He was strong up to the very time he was put out. But Fitz did some occasional jabbing that hurt. Fitz is big around the shoulders and above the waist, and when he gets that shift in it all off with whoever gets in the way of it. That's the reason why I framed hard. But as a jabber Fitz is not in it."

"Let me tell you something about Fitz's punch," said the champion. "Like every big man, Fitz must have a hard punch. Don't you suppose I have a hard punch? No, Fitz is big around the shoulders and above the waist, and when he gets that shift in it all off with whoever gets in the way of it. That's the reason why I framed hard. But as a jabber Fitz is not in it."

"He can't hurt with a jab. He didn't hurt me when I was with him. When I fought Corbett he landed about 15 times on Corbett's jaw, and still did not hit him out. What kind of a jab was going on so long as that Corbett was so quick for Fitz to land his swing from that shift. Corbett was away every time. It finally got me, and then it was all off with Mr. Corbett."

## Bout at University.

A little impromptu bout with the gloves at the University yesterday afternoon between George Brown and Samuel Leaver resulted in a badly damaged nose for the former. It is said the nasal organ was broken by an accidental blow delivered by Leaver.

The principals invited a few friends to accompany them to the gymnasium to witness a friendly bout. Several interesting rounds were gone through safely when some mysterious man named Brown got his nose in the way of

## OUTSIDE EVENTS.

### PITCHER AUSTIN SIGNED.

He Will Play with the Beaneaters of American League.

Milwaukee, Wis., March 15.—Pitcher Pete Hustling who played with the Milwaukee team last season has signed a contract to play this season with the Boston team of the American league. It is stated that Hustling will draw \$2,700 for the season. He was on the reserve list of the St. Louis club, but when Mr. McAleer declined to pay him the salary asked—which was \$2,700—Hustling announced that he would remain at Fox Den and practice law.

### RADICAL CHANGES IN GOLF.

All Medal Plays in Championship Shall be 18 Holes.

New York, March 15.—Radical changes have been made by the executive committee of the United States Golf association in the by-laws governing the playing on the American amateur and women's championships.

Hereafter the medal play rounds in championships for men and women shall be 18 holes and the first 64 will qualify instead of the first 32 as formerly. This will reduce the first day's play to sorting of the best 64 who will meet in match play.

In the pairings for the preliminary rounds at match play, player No. 1 will be paired with No. 33, player No. 2 with No. 34 and so on. It will be impossible to tell under this arrangement where the player outside of the first four will land.

So far as the women are concerned the benefits can readily be seen. At Philadelphia in 1900, where 78 finished, there were only three strokes between the sixteenth and thirty-second to finish and at Baltusrol last year there were only five strokes between the sixteenth and thirty-second.

### CHICAGO BENCH SHOW.

Exhibition Closed With a Parade of Prize Winning Dogs.

Chicago, March 15.—The annual bench show of the Chicago Kennel club, practically closed with a parade of prize winning dogs and their owners. The show has been one of the most successful ever held in Chicago, about 1,500 dogs having been on exhibition. Many of the exhibitors were women of the fashionable world.

All records for sales have been broken at this year's show, more than \$100,000 having changed hands. Many of the finest dogs from the east have been purchased on local accounts and will hereafter be owned by Chicagoans.

It is stated that because of the Interstate Field Trial association changing its name to the American Championship Field Trial association and made the qualifications for competing in the annual championship event such that only winners of state trials can take part, there is likelihood of a rupture of the organization. State organizations, it is said, threaten to withdraw. The association is composed of eleven organizations, Missouri, Michigan, Ohio, Indiana, Kentucky, South Dakota, International of Canada, Western of Kansas City, Illinois, Iowa and Alabama.

### DONLIN EXPELLED.

Kansas City, March 14.—Tommy Ryan of this city tonight knocked out "Mysterious Billy" Smith of Portland, Ore., in the fourth round of what was scheduled as a 10-round bout. Ryan, who is said to be a right hander, defeated Smith in a minute and thirty-five seconds of furious fighting in the last round Ryan landed a terrific left in the stomach which was followed by a right which landed on Smith's jaw that it was difficult to tell which blow was the more effective.

# Humors

## The Digestive Organs

Some humors are inherited; others are acquired, commonly through derangements of the digestive organs. Whether inherited or acquired, they are radically and permanently removed by one and the same medicine, and that is **Hood's Sarsaparilla**,—it cleanses the blood, perfects digestion, cures dyspepsia, stops all eruptions, clears the complexion, builds up the whole system.

For various reasons humors are most quickly removed in the Spring. Take Hood's this Spring.

"We have been using Hood's Sarsaparilla for several years past and it has always given me the greatest satisfaction, especially as a Spring medicine. It builds up the general system and gives new life. I heartily recommend it to the public." DWIGHT C. PARK, Whitehead, Ind.

## SUPPRESSING THE CIGARETTE

Some of the Evils of Smoking Paper Coffin Tacks.

DR. MAYO TALKS TO PARENTS

He Sets Forth Food for Thought and Then Discusses Means of Checking Pernicious Habit.

The cigarette and the measure of its injury to those who use it, and the most effective means of suppressing its influence among small boys, was the theme on which Dr. H. N. Mayo endeavored to enlighten the Parents' club at the university training school last evening. The members were already impressed with the prevalence of the cigarette habit in this city, but after the doctor had finished dissecting that insidious object, they looked upon the growth of the habit as appalling.

From a medical standpoint, Dr. Mayo told the ladies just the effect the cigarette has on the mind and body of a boy. He stated that the tobacco of which the cigarette is made is drugged, which has a most depressing effect upon the mind of the victim; that it irritates the mucous membrane of the mouth, nose and throat and respiratory passages. Nicotine, he declared, is a crystalline salt that diffuses itself in the blood very quickly and is as intense in its action as prussic acid. He cited many cases that are on record where death has occurred within three minutes from a toxic dose.

As poisonous as the tobacco is, Dr. Mayo affirmed that the paper that is used in wrapping it is much more so. A poison is used in the making of the paper that tends to paralyze the mind and deprave the taste so that in most cases the boy who is addicted to the use of the cigarette generally drifts into more baneful habits.

After thus showing up the terrible ban that the cigarette places upon the intellect, the heart and body, Dr. Mayo entered into a discussion of the means by which the habit may be checked. One of his ideas was that the license to sell cigarettes should be placed so high that only the big dealers could handle them, and thus, he thought the trade would pass into the hands of men of sufficient respectability as to refuse to sell cigarettes to minors. This was the way in which the city of Chicago had dealt with the question and he declared that that municipality had come out with it more successfully than any other in the United States. But he also stated that the habit was on the wane in this country, as the great evil of the law is more generally and perfectly understood.

Among other plans that were suggested was the organizing of a fight on the evil.

In conclusion Dr. Mayo said the smoking of cigarettes leads not only to bodily decay, but to death. Within the past year several patients have been sent to the asylum, whose dementia was traceable directly to cigarettes. This was the case with Earl Smith, a young man who killed himself at the asylum not long ago by jumping into the furnace.

Mrs. Johnson addressed the parents at the Whittier school on the same subject, in the afternoon. The reading of her paper was followed by an interesting discussion.
