

Washington's birthday by having in this State a grand revival of the farwell address, and to that end an effort will be made to have representatives from every State in the Union. A correspondence with that end in view is already begun. The meeting will be in New York, Albany, or Utica, as the future may determine. The ex-Governor's Review article is said to have been written to prepare the way for this demonstration.

The President to-day nominated Roger S. Green of Washington Territory to be Chief Justice of Washington Territory; Joseph Wason of California to be United States Consul to San Blas, Mexico.

The House building committee authorize the expenditure of \$12,000 to buy the house in which Lincoln died.

The committee of the Senate considering the postoffice appropriation bill expect to offer an amendment for the reduction of the drop-letter postage in letter-carrier offices. Senator Sawyer said that in Chicago and other cities private parties are delivering letters for one cent, and find it profitable. He thinks the Government should be benefited by the drop-letter postage, and believes it can afford to carry letters for one cent, if private individuals can make money by it.

The National Board of Trade adopted resolutions favoring the passage of the Lowell bankruptcy bill as it now stands in the Senate; in favor of a National railroad commission to supervise all interstate railroad traffic, and allowing matters of ships to bring their vessels into port without incurring charge for pilotage, upon their passing the usual examination. Commissioners were appointed to consider the question of postal telegraph and Department of Commerce, as a branch of the National Administration. Frederick Fraley was chosen president.

TRENTON, N. J., 17.—Rev. J. De Witt Miller, opening the proceedings of the House to-day, prayed that no member might be forced to explain to an inquisitive constituency when he returned home, how having come to Trenton poor he went back rich on a salary of \$500 for the legislative session. It is understood a powerful combination is formed against Senator McPherson.

Harrisburg, 17.—A bill is introduced in the Legislature making it a misdemeanor for the Governor, Lieut. Governor and members of the Legislature to accept passes from railroad companies.

NEW YORK, 17.—Chas. Crocker being asked concerning the New Orleans extension of the Southern Pacific, said he expected an excellent business over that route; he had already applications for transportation of negro laborers from the south to California. They are needed in the vineyards and in the cotton fields that are being opened in the southern part of the State. Since the exclusion of Chinese immigration, the demand for cheap labor in California has become serious. It looks to me as if there would be a call there that the Chinese must come. We are also pushing our Atlantic & Pacific branch to meet the western extension of the Atlantic & Pacific railway, and the two ends will probably be connected in April or May next. That will open another through route to compete for the Pacific Coast business. I fear the country is to suffer from too many railroads. There is not enough business for all the lines that will be opened to California. Some of them will have to develop a local business if they expect to prosper.

Clinton, Ia., 17.—A broken rail caused a serious accident on the Midland branch of the Chicago & Northwestern railroad, twelve miles north of this city, last evening. A long train of live stock passed safely over the break, but the last car loaded with merchandise and the way car went down a twenty-foot embankment, killing the rear brakeman, E. I. Clark, injuring Conductor D. W. Richardson and 19 passengers, including eight men en route to Chicago with live stock, all more or less bruised, none seriously. There were three ladies in the car. The wounded were brought to Lyons and Clinton. The body of the brakeman will be taken to Anamosa for burial; he had been married six months.

St. Louis, 17.—By ditching of the Ohio & Mississippi train, due here this morning, at Lebanon, Ill., three passenger coaches ran off the track. The first upset, and the others were derailed. Charles Hoff-

mann, passenger, is killed; eight were injured, none dangerously. The rails spread and caused the wreck.

Wilmington, 17.—A very large meeting of colored men inaugurated the first railroad enterprise ever started exclusively by men of that race. The prospective road will run from here to the eastern counties of North Carolina.

Topeka, 17.—A concurrent resolution was introduced in the House to-day instructing the Attorney General to institute proceedings in quo warranto against the Union Pacific and Kansas Pacific Railroad companies to compel them to show by what authority they have consolidated and thereby withdrawn from the jurisdiction of the courts of Kansas.

SAN FRANCISCO, 17.—St. Helena, Cal., dispatch: J. O'Rourke shot four times and fatally wounded his wife this morning; recovery deemed impossible. Cause of tragedy fear on the part of O'Rourke that his wife would expose his former intimacy with a woman by whom he had four children.

Chicago, 17.—R. S. Monroe, who has just completed a term in the Wisconsin penitentiary for swindling the Appleton Bank on a bogus check, was brought here for trial on a charge of defrauding the First National Bank of this city out of \$8,800 on a forged acceptance by Beckett & Co., of Leeds, England. Monroe is one of the most noted confidence operators in the country, with as many aliases as days in the year. He has operated in all parts of the country, including California, but chiefly in New York, where he is known as Boivies, and many other names, under which he carried on a fraudulent brokerage, commission, jewelry, and other lines of business.

Washington, 17.—The citizens' committee have a statement from a lady robbed some time ago, giving her experience with detectives and officials at police headquarters and showing the connection which some high District officials seemed to have with thieves and receivers of stolen property.

Pittsfield, Mass., 17.—Jos. Butler, of North Adams, married, and 27 years old, pleaded guilty to the charge of raping his niece, aged 11, and intent to rape two others, aged 7 and 8; sentenced to the State prison for life.

New York, 17.—John A. Moore, ferry master in the employ of the New York Ferry Company, is arrested on a charge of embezzling about \$40,000 from the company.

Chattanooga, Tenn., 17.—James McCabe, a wealthy merchant at Town Creek, Ala., was killed by Tom Mather. McCabe ejected Mather from his store several days ago.

D. B. Christolm, Secretary of the Albion, and a number of other mining companies, has absconded. The directors to-day received a letter from him, stating that he was a defaulter to the amount of \$78,000, and stated he had covered his crime. An examination of the books confirmed his statement, false footings of the labor account and cash book having been made. He had been operating in the stock of the company, which dropped, and he took the money to cover margins. It is supposed he took yesterday's Australian steamer.

Milwaukee, 17.—Schiller, arrested yesterday on a charge of setting fire to the Newhall House, has been secretly removed from jail for fear he would be lynched. It is supposed he has been taken to Waukesha.

The number of workmen at the ruins was reduced to-day, and the work is expected to be completed Saturday. Five bodies were recovered to-day, making the total 43, all beyond recognition; 23 identified, and supposed from 15 to 20 still missing. The chief of police states to-night that he learned one of the clerks ran out of the burning hotel with the register, but stumbled down stairs and lost the book. The transfer book is not yet heard from.

NEW YORK, 17.—Public says the decrease in exchanges the second week in January compared with last year is one and two-tenths per cent. outside of New York, and 20 and 4-10ths within.

GAINS.

The following cities have gained over the same period last year: Philadelphia 3, New Orleans 13 4-10, Baltimore 12-10, San Francisco 7 7-10, Pittsburgh 24 8-10, Providence 14 2-10, Kansas City 15 2-10, Indianapolis 11 2-10, Hartford 11 3-10, Memphis 52 3-10, Peoria 4 5-10, Columbus 21-10, Portland 23 4-10, Lowell 13 5-10.

LOSSES.

The following cities have lost: New York 13 4-10, Boston 9-10, Chicago 13, Cincinnati 8 7-10, St. Louis 11 1-10, Louisville 9-10, Milwaukee 8, Cleveland 13, New Haven 7 1-10, Worcester 4-10, Springfield 9 2-10, Syracuse 3 4-10.

At New York the exchanges inclusive of the amount arising from stock dealings have been \$109,257,569 for the first half of January, against \$182,280,727 last year and \$153,991,510 in 1891. Of one thing there is evidence, the transactions arising from speculations have been altogether smaller this year than last, not only at New York but at other cities.

CHICAGO, 17.—Letter has sued Field, (both gentlemen were members of the firm of Field & Leiter), for a receiver for the old building owned jointly. They were unable to agree upon the management. It is stated and believed the firm of Marshall, Field & Co. will soon take in another name. This is the heaviest dry goods firm west of New York.

SAN FRANCISCO, 18.—A Seattle dispatch says: The explosion of the steamer occurred while the passengers were at dinner. The crown sheet went straight up through the forward cabin and pilot house, carrying Johnson, the man at the wheel, high into the air and causing his instant death. Capt. Paley was on the main deck and was lost; neither he nor the purser, Turner, were seen after the explosion. The steward and his helper, David Sparks, were instantly killed while waiting at table. Navage, the fireman, was not seen afterwards and was undoubtedly killed. A. E. Cannon, commercial traveller, representing Bates, Reed & Cooley, of New York, was killed. Samuel Babbitt, a stranger, was also killed.

Those injured were Denis Lawler, Esq., badly bruised about the head; Miss Estelle Bradish, of Tacoma, thigh broken; Hannah Price, of Skag-d, an elderly lady; had her ankle jammed, and was otherwise hurt; H. G. Kelly, of Skag-d, a leg broken, and one or two others slightly hurt. Sixteen persons on board escaped uninjured. The boat broke in two parts, one sinking and the other floating. Indians and loggers near by rescued the survivors.

WASHINGTON, 18.—The sub-committees of the House and Senate are at loggerheads over the Indian appropriation bill. Senator Dawes believes in a humanitarian policy, and favors the appropriation of \$500,000 for the support of Indian schools. The House committee allowed \$300,000, and had much difficulty in getting other members to agree even to that. The chairman, Hisecock, stoutly opposes giving another dollar toward the support or education of Indians. He claims that money spent that way is thrown away. The Indian cannot be made a useful member of society. The policy Hisecock would adopt would be the policy of extermination. Caswell said to-day that until he had been assigned to prepare the Indian appropriation bill, he did not know there were so many Indians in the country. We find, said he, there are 180 different bands and 63 agencies, with upwards of 100,000 Indians in the United States, and we appropriate a little over \$500,000 to them annually. The Sioux, of which there are about 30,000, are the worst lot. We have given them \$500,000 every year to keep them quiet.

The Tribune says: The message of Gov. Stoneman, of California, contains a pointed rebuke on the outgoing State railroad commission for its neglect to carry out the express will of the people in the matter of regulating and lowering the fares and freights, and the prevention of discrimination. What his policy will be is very clearly indicated.

CHICAGO, 18.—The Times says: A sparring exhibition at San Francisco between Mace and his New Zealand protege and several local brutes, took place at the Metropolitan Temple, which in fact is a church where services are held every Sunday, and frequently during the week. Prize fighters in search of a safe battle ground would probably find San Francisco a desirable place.

A Cleveland special says: Herr Most was discovered in a saloon yesterday and threatened to break the newspaper man's neck if he misrepresented him. He denied that he had ordered the slaughter of bank officials and the division of their wealth, but confessed that he wanted arms and blood, as peaceful measures were impossible. When the uprising came, as it must soon, they

should kill, plunder and spare none.

The sugar men are shrieking over the prospect of Mexican sugar coming in free, and they are legally responsible for all the talk about the treaty being a scheme in the interest of Jay Gould's syndicate of southwestern railroads, they are wild in their fight against the proposed treaty, particularly since Secretary Folger reported adversely upon their proposition to abolish the Hawaiian treaty.

A Denver special says: L. B. Parker, manager of the Robinson mine has been detected in the wholesale appropriation of ore. He was appointed by the New York managers four months ago. Since then it is estimated that the mine has produced \$150,000, not a cent of which has been accounted for. The stealing was cleverly done. Parker securing a lease of the Wheel of Fortune mine adjoining ran a cross cut into its workings from the Robinson and hoisted the ore from the latter through the Wheel of Fortune shaft. The company suspecting their manager sent James Davis out to succeed him. The disclosure of Parker's rascality was made through his refusal to give up possession of the mine. He declares that he has the requisite nine law points in possession, and will not let the New York directors down him. He does not deny the charge of ore-stealing. It has created a big sensation here.

CINCINNATI, 18.—Ten thousand dollars are subscribed for the relief of the flood sufferers in Germany. One or two balls and benefit performances at theatres will be given to swell the fund.

BOSTON, 18.—In the balloting for United States Senate at the first ballot Hoar received 148 votes, Long 35, Bowerman 88, Cropper 4, scattering 22. Hoar was declared elected.

NEW YORK, 18.—The Wall Street papers say: The news from France is a good deal discussed, and the apprehension expressed that serious troubles are ahead; causes of which are not political, but financial. It is remembered that the anticipated excesses of taxes in France have steadily declined each month and that the deficiency for the financial year has been estimated at from 60,000,000 to 150,000,000 francs.

Secy. Folger's recent letter on the Hawaiian treaty calls out curious criticism from some quarters. A writer in the Times says the Secretary's reasoning of the price on sugar in the Islands being made by adding a sum equal to the duty at our ports, beats Captain Bunaby's logic. Some of his statements may pass for gospel for average Congressmen, but they are absurd to business men.

FOREIGN.

Geneva, 14.—A serious railway accident, in which several persons were killed, occurred near Camerlata, Italy.

St. Petersburg, 18.—According to official reports 265 persons, including many foreign travelers, lost their lives by the burning of the circus in Bereditchi-f. The circus had inner and outer walls and the spaces between were filled with straw.

The Governor of Kiev has arrived at Berdetschiff. The managers of the circus are arrested for having had two side doors nailed up. There being no rooms large enough to hold the bodies of the dead, they have been placed in a field. When the nailed up doors were opened, fifty corpses fell to the ground in a mass.

GALWAY, 17.—Thomas Higgins and Michael Flynn were hanged this morning for complicity in the murder of the Huddy's. The public executioner, Marwood, officiated. They both walked firmly to the scaffold and died without a struggle. Neither made a statement, but during confinement they expressed penitence. But small interest was taken in the execution, and few persons were present.

Madrid, 18.—Eleven shocks of earthquake to-day in the town of Archera, causing the greatest consternation. Masses were said in the fields, it being considered dangerous to occupy the church.

London, 17.—Gladstone and his wife and daughter and Rev. Stephen Gladstone, his son, started for Cannes to-day.

BERLIN, 17.—At the fifth representation of Hamlet, Booth was repeatedly called before the curtain. The Crown Prince Frederick William was present accompanied by Herr Warden, the well-known exponent of Shakespeare.

It is thought possible that Field Marshal Von Manteuffel will be re-

called from the Governorship of Alsace-Lorraine. His recent speech at the banquet in Strasbourg is considered to show the failure of the policy of conciliation in Alsace-Lorraine.

Madrid, 17.—Twenty-two shocks of earthquake in Murcia yesterday; several houses destroyed.
