Lewison, who has just come down mine pay. from Little Cottonwood mining district. strike was made at the depth of forty feet from the surface. The bot-tom of the shaft is said to be all in ore of similar grade to that shown today, which looked as if it might carry 25 per cent in the red metal. The ore was taken from the old Copper King claim near Alta now known as the Bolivar No. 1. It is being worked by Mr. Lewison and two other parties who have followed a nice grade of ore from the surface, but the present discovery

is exceptionally fine and inspires the belief that with depth the property will prove to be a paying mine.

### Ajax is Improving.

Manager Weir, of the Ajax, reported a material improvement in the north drift on the 1,900 level of the Ajax, of Tintic. The ore body-if small patches of good ore mixed with low grade stuff be an ore body-is fully three feet wide. While it is yet below pay on an average, the character of the ore inspires the belief that something much better is not far distant. The drift is low about 400 feet from the Mammoth. It has cut a very strong flesure about four feet wide, on which Mr. Weir ex-pects to drift as soon as better air circulation can be secured. The outlook

Bought by Bamberger.

The property of the Fortune Mining and Milling company has been sold under foreclosure on a judgment to Bamberger for \$34,363, the amount of a mortgage and interest in his fayor along with a \$1,150 judgment for the Salt Lake Hardware company. Some \$4,000 in labor claims are said to be standing against the property, and the sheriff will hold out sufficient of the purchase price to satisfy these claims should they be considered legal.

### Exhibits for Mining Congress.

The Utah exhibit for the Internationd Congress to be held at Bolse, Idaho, on the 23rd, 24th and 25th inst. will be hipped tonight. Mr. Herman Bamberger said today that while he could not state how large it really is as all the boxes were not at the depot at noon to-day, he believes it will make up a full car. Meantime great preparations are being made on the other end for the display. The Bolse Statesman says a arge number of workmen are constant-y engaged preparing the rooms of the enate and representatives for the re-eption of the ores to be exhibited durng the coming session of the Interna onal Mining Congress. The work now forwarding is getting stands, tables, etc., in readiness. It will be completed in a few days, and by Saturday, it is anticipated by those having the matter in charge, the entire display will be about placed. A meeting of the Utah delegates was

to be held in John Dern's office this afterneoon, for the purpose of organizing.

### Rich Strike Near Silver City.

Rudolph Alff has returned from the Caribou company's claims on Mineral Flat in American Fork canyon with samples of ore showing 90 ounces sliver, 60 per cent lead and \$9.60 in gold per About three feet of fine ore is said to be in sight.

Six lost stock certificates have been reported to the Exchange. Three Ajax certificates numbered 2204, 2230, and 1912, are for 100 shares, number 1080 for-400 shares. A May Day certificate for 100 shares, numbered 2286, is also mis-sing with No. 344 of the Martha Washington Mining company for 1,000 shares.

In the federal court this morning, the efendants in the case of Gates Works, a corporation, vs Overland Gold Mining company, entered their voluntary appearance, without the service of summons. The case is for the prohibi tion of the use of an invention of improvements on gyratory crushers laimed to be the patent of the plaintiff.

Pocatello Advance; E. C. Hedrick says that everybody in Custer county is jubilant over the advent of the railroad, and predicts great activity in mining circles next year. O. J. Salis-bury, of Salt Lake, owns several claims near Challis, and he informed in the south drift is said to be un-Mr, Hedrick some time ago that he would put a force of over 100 men to work on them next spring. Mr. Hedrick has several claims which he will work extensively, and in fact he says the mountains in that section will be fairly alive with miners and prospectors next summer
