Pisciculture.--It will be remem bered that Mr. A. P. Rockwood went from Utah about a year ago as delegate from Utah to the conference of the American Fish Association, at New York. At that time he, by request, gave a detailed description, in writing, of the different kinds of fish indigenous to the Territory. A few days ago he received a pamphlet which among other things contains his descrip-

Mr. Bockwood's attendance at the sitting of the Association named was the means of securing for Utah a large amount of the salmon and other eggs or spawn new in this Territory.

Mr. David Osborn arrived this morning from Montpelier, Bear Lake Valley. He came by way of Soda Springs in a sleigh, and reports good sleighing all the way to within a little distance of Ogden. There is only about six inches of snow in the Valley and scarcely as much at Soda. But in Cache Valley it is much deeper, and in the northern part about eighteen inches on the level.

A few days ago we mentioned that a consignment of silk worms named was the means of securing for Utah a large amount of the sal-mon and other eggs or spawn new in this Territory.
