DISEASED HOGS ON MEAT MARKET

Horrible Conditions Unearthed By State and City Officials in Ogden.

MENACE TO PUBLIC HEALTH

Producers and Dealers Amenable to State and National Law-Prosecutions May Follow.

OGDEN, July 14.-The health officers of the state after an investigation conducted in Ogden during the past few days have found that hogs afflicted with cholera have been killed and the flesh offered for sale to the public of Ogden. A visit was paid to a number of the local butchershops Monday and yesterday by Willard Hanson, the

yesterday by Willard Hanson, the state food commissioner and George Shorten, the sanitary inspector of Ogden, and they found hogs for sale that were unit for food and dangerous to the health of the community.

Several days ago Inspector Shorten was advised that a pig pen just outside of the city limits was believed to contain hogs that had cholera. The state veterinary surgeon was advised and came to Ogden with other state officers and the diseased hogs were found to be on the market. The meat was immediately condemined and will be held for the government inspectors for expert examination.

As retailers of food as well as those who sell to them are liable for offering

As retailers of food as well as those who sell to them are liable for offering for sale unfit food and are punishable by city, state and government laws, it is very probable that a number of prosecutions will follow the discovery that diseased hogs have been offered to the Ogden public. NO CLUE TO ROBBERS.

OGDEN, July 14 .- Sheriff Wilson and his deputies accompanied by members of the sheriff's office of Boxelder coun-ty spent considerable time at the Utah tiot Springs yesterday in investigat-ing the robbery of that resort which occurred Monday night by three mask-ed men. Thus far the officers, other

ed men. Thus far the officers, other than having a fairly good description of the three young robbers, have no information that would lead to any immediate arrests. In the opinion of the officers the robbers were amateurs and were the same as held up the Sait Lake & Ogden depot in this city on July 5 and secured \$700 from Agent P.

Richard Barnett, the manager of the
Hot Springs hotel, who was so cowardly shot through the shoulder while he
was standing with his hands in the air
is reported as getting along nicely. At
the present time it can not be learned
whether he will lose the arm or not.
It is stated that the bone was not as
badly shattered as was at first supposed, and that the bullet being a steel

Nelson describes the rob-bers as being young men clean shaven and fairly well dressed. He says that when a north-bound freight train pass-ed at about 9 o'clock one of the three asked the conductor as to the time the next train would pass.

The fact that the robbers took post-

age stamps and money from the post-office drawer and overlooked about \$600 office drawer and overlooked about soos in money belonging to guests of the house which were in envelopes in the safe and thrown upon the floor and trampled upon in their excitement and that they kept up a continual firing is taken by those working upon the case that the robbers were amateurs and

TO BUILD AN AIRSHIP.

OGDEN, July 14.—James Frederick Scott of Chicago, the inventor of an airship called the multi-plane, and who was awarded a contract by the government several months ago to build a flying machine heavier-than-air, was an Ogden visitor vested by the stated Ogden visitor yesterday. He stated that he was looking for a suitable place that he was looking for a suitable place to build one of the aeroplanes and try it, in this altitude, and if successful here it would fly in almost any attitude. He spent some time in looking over the situation and said that he had about made up his mind to build the ship in Ogden, as the advantages here were better than those offered elsewhere in the inter-mountain region.

IN JUSTICE'S COURT.

OGDEN, July 14.—Charles Adams, who was arrested July 3 upon the charge of grand larceny in stealing a horse, was sentenced yesterday by Judge Murphy to 90 days in Jall. When arrested Adams was drunk and since being confined in pail, has suffered from delirium tremens and for this rea-son the county attorney agreed to have the charge reduced from grand to petit larceny.

the charge reduced from grand to petit larceny.

V. Lobello, charged with selling or giving away liquor on Sunday, was tried before a jury, who could not agree upon a verdict and were discharged. The evidence showed that Captain Brown and Officer Rackham went to the home of Lobello, which is back of a grocery store on Twenty-fifth street and found him drinking beer with four men. Lobello told the officers that one of the men had paid a bill and the other had helped move a refrigerator and that he was "settin'em-up." The explanation did not suit the police, and Lobello was arrested and a bottle of beer was brought into court as evidence. The case against the man was dismissed.

JESSE KNIGHT ON FRANCHISE QUESTION

Scheme to Give Away City Property To Wealthy Railroads for Paltry Consideration.

(Special Correspondence.) PROVO, July 14 .- On July 27 a special election will be held here for the citizens to decide by ballot whether the city shall give away to the two railroads passing through Provo, a part of the streets of the city with a franchise for depot purposes. The city council some months ago granted a franchise, but was enjoined by Jesse Knight from transferring the city property to the allroad people without consideration. Mr. Knight held, and his contention

was later sustained by the supreme court, that the city council could not give away city property without first submitting the matter to the taxpayers. The council then called a special election for July 27 to decide the question. Mr. Knight has just issued a statement given by the wines in the properties of the council that the council the council that the coun ing his views on the proposition, which he deems an infruitous measure to rob the people. His statement is of spe-

the people. His statement is of special interest to the people of Provo on the eve of the election. He says:

The Provo city council is about to give away to the two railroads here, for a term of 100 years, considerable property in the shape of a franchise for the patter sum of \$200. that is if the the paltry sum of \$200; that is, if the citizens shall vote "yes" to the proposi-tion. As a taxpayer, I am not in favor of giving away to wealthy railroad cor-porations the city's property (the streets) and other valuable rights. The cople should have value received for hese things.

Besides, the council is tying the hands

of the people for all future time, preventing them from extending to other roads that may wish to come here privileges and inducements on Sixth

South street. If two roads are a good thing, three would be better.

I myself have spent considerable money surveying a road from Spring-ville on to the reservation to tap the coal beds and other natural resources of their parents. of that region. This question is not a new one to me. Now, I know a man who will offer \$10,

will put up a certified check, so there is no doubt about the matter.

If the people will vote down the frunchise proposition and give this person whom I mention, or a railroad corporation which he may represent, a similar privilege, providing for a union depot, the money will be turned into the city treasury. This amount would go a long way toward improving the waterworks system, or to lessen taxation, or for any other needed purpose.

I have looked forward for many years past for the time to come when a short line railroad from Denver would be built down Hobble Creek canyon. The prospect looks brighter now than ever for a new road to come to Provo. Don't give anything away; when you give, get something for it.

So far as this "east and west" fight is concerned it is certainly a disgrace to Provo. Every fair-minded and unbiased person knows where this fight originated. It originated by a few people holding secret meetings and entering into a contract with the railroad people. Six thousand dollars was raised and donated to the railroads by a few persons who are located on the west side of town and who imagined it would benefit their business to have the depot removed, regardless of the public good. It certainly looks foolish to me to give the money of poor people to rich dividual desire of a few persons who have been pushing the fight with the
