TORE UP RAILS.

Plaintiff Effectually Stops Chicago & Southeastern Trains Running.

Crawfordsville, Ind., Jan. 11,-The rails of the Chicago and Southeastern rallroad, which crosses the Farm of Wesley Grantham, near this city, were torn up and removed from the farm last Wednesday night by Sheriff Canin leting on a writ of electment secured by Grantham in 1894. All traffic, including the government mail service, was ef-fectually blockaded.

Injunction proceedings were immediately filed against Grantham, but today in the circuit court, Judge West refused grant a temporary restraining orde declaring that Grantham had already been kept out of his property seven years and that the constitution guaranyears and that the constitution guaran-teed him certain rights with which the court did not propose to interfere. The road's attorney asked that an order be made giving the road possession until the land could be condemned, but the court refused to do this saving that the company had had seven years to do this and had failed.

The court issued an order, however forbidding any further destruction of the road's property. Grantham's land is guarded by armed men. Last night two of the road's bridges

were blown up, one of them sixty feet long and fifteen feet high. Many loads of rails were carted off to a schoolhouse three miles from the right of way. Two hack loads of armed men went down from Ladoga last night to the Grantham farm. The road will be breked now for several days at least, and Grantham's attorney declares posses-sion will not be relinquished until the road pays \$3,000.

In this con-nection it is related that when Hitchock was traveling for the Lackawann some years ago he happened to strike Salt Lake at the same time that Frank Daniels was in town. Somehow or other the two celebrities became mixed, with the result that the old T, O, B, club entertained "Phil" right regully, under the impression that they were under the impression that they were doing the honors to the comedian. The way 'Phil' arose to the occasion is spoken of with bated breath railroad circles to this day. Art and Philosophy in a Calendar.

That helpful and inspiring motto-Keeping Everlastingly at It Brings Success'—is again suggested by the recuccess—is again suggested by the re-celpt of the 1901 Calendar from N. W. Ayer & Son, Philadelphia. These gen-tiemen conduct the world's greatest ad-vertising business in vertising business in newspapers, mag azines and biliboards—but as responsi bilities increase they seem to grow more energetic while their work grows brighter and better. The 1901 Calendar is an evidence of taste and originality. It is mounted on a striking design in clay modeling executed in two deli-cate tones, with the famous Aver motto standing out in bold relief. The figures are large enough to be easily distinguished quite a distance, spaces are occupied by reproduction, in colors, of a number of striking modern posters, and by advertising philosophy as well. The cost of production and the demand for this calendar are so great that Messrs. Ayer & Son have found increasary to charge a nominal price for it-25 cents. Those wanting a copy of this very serviceable and highly gramental work should send at once before the edition is exhausted previous years, its predecessors have been quickly bought up, and it is more than likely late application now will prove disappointing.
