A CARD.

THE DESERET HOSPITAL, UNDER the most favorable auspices, is now open for the reception of patients, having removed to that large and commodious building lately occupied by the Deseret University. The appointments are new and of the first order. The halls and rooms are thoroughly ventilated, and warmed by a furnace and steam heating apparatus extending through the whole building. Good and capable nurses are supplied, and every attention paid to the comfort and welfare of its inmates. The medical department comprises a fine stock of drugs, and a line of some of the most valuable and elegant surgical instruments and appliances ever imported into the Territory. Arrangements have been made to secure the first medical talent the city affords for the benefit of patients. A specialty is made of the diseases of women, and correspondence is solicited from the afflicted.

H. B. CLAWSON, President.
W. F. ANDERSON, Medical Supt.
M. P. HUGHES, House Surgeon.
E. B. WELLS, Secretary.

A limited number of students will be taken, who will board in the Institution, receive instruction preparatory for future studies, and will be expected in return to devote a certain portion of their time and labor to attendance on the sick and other requirements connected with the Hospital. Correspondence on this subject is solicited from Bishops and other authorities in the settlements. d&w

AMERICAN.

THE QUEEN OF THE TURF AGAIN CUTS DOWN THE TIME.

RIEL THE REBEL PLEADS INSANITY.

THE GRANT COTTAGE STRUCK BY LIGHTNING, ETC.

Maud S.'s Time of 2.09¾ Beaten.

CLEVELAND, 30.—Maud S. renewed her claims to the title of "Queen of the Turf" at Glenville track to-day, in the presence of 10,000 people. The fleet little mare trotted a mile over a slow course in 2.08¾. This beats her previous record by half a second, and is one second and a half faster than the best mile trotted by any other horse. The trial was for a cup, and goes on record. The day was warm; there had been some heavy showers during the night and the dawn broke with a great bank of damp looking clouds fringing the western sky. The heavens gradually put on a cheerful aspect, the sun grew hot and the air murky. These conditions seemed favorable to fast time, but the track was heavy. The quarter stretch was muddy, but the sun and half a dozen drags improved it as the day wore on, and when Maud S. started to break her record, the course was in fair condition. It was not, in the opinion of the management, a fast one. The understanding was that Mr. Bonner requested that no pools be sold on the trial and a bulletin to that effect was posted up. There was a great deal of private betting, though, the odds being about $25 to $8 that the mare would fail.

Sporting men bet heavily that the record would not be lowered. Wagers were taken that she would not make 2.11. It was 5 o'clock when the orchard gate was lifted and Maud S. was seen coming toward the wire with Bair in the sulky. As soon as the mare was recognized the applause began and it was continued till she passed beyond the grand stand. Bair drove slowly around the track and gave her a warming-up mile in 2.28¾. She was then taken to her stable, and when brought out an hour later for her trial mile she seemed to be in good condition. John Splan drove a runner down the stretch and turned just behind her. Maud began her work before the distance stand was reached. She struck a splendid clip, and 20 rods from the judges stand Bair nodded for the word. Splan held the watch and followed four or five lengths behind, more to post Bair as to the speed that was being made than as a help to the mare. The queen went away fast, and the first eighth post was reached in 16 seconds. She rounded the turn and headed for the quarter. The turn was a trifle too sharp, and she went into the air. Bair stopped her and went back for another start. When she came down the stretch for the second time she appeared to be unsteady, but Bair wanted the word and it was given. The mare recovered herself before she had gone far, and settled herself down into an even clip that was like a whirlwind. She reached the first quarter in 32½, at a 2:10 gait. Then Bair began to urge her, and she settled the next quarter in 32 seconds, at a 2:08 gait, reaching the half in 1:04¾. She flew in like a bird, and old timers began to declare she was breaking her wonderful record. Passing the half she increased her speed, and went over the back stretch at a terrific gait. The third quarter was trotted in 31 seconds, the fastest one of the mile. On the lower turn she was seen to raise her head suddenly, and it seemed certain that she would go off her feet. Bair caught her, however, and on she flew. Coming up the home stretch the awful strain began to tell on her, and she slowed up. Bair applied the whip, however, and she responded quickly. She dashed under the wire at a tremendous clip, having finished the last quarter in 33¾ seconds, and the mile in 2:08¾. No one except the judges and reporters knew the record had been broken. There was great excitement on the judge's stand. The watches of the official timers, President Wm. Edwards, C. F. Emery and N. L. Hunting, had stopped at 2:08¾. Edwards made the announcement and a wild scene followed. Bair was loaded down with roses and the mare was presented with a beautiful floral color. Edwards hastily wrote the following telegram:

Robert Bonner, New York:

The Cleveland Association congratulate you most heartily and thank you sincerely for allowing your peerless Queen, Maud S., to show the people how easily she beat her record in the wonderful time of 2:08¾, on a track certainly one second slow, having had a hard rain at midnight.

(Signed) WM. EDWARDS, President.

After Maud S. went to the stable, Clingstone was brought out and attempted to lower his record of 2:14 with a running mate. He failed, his quarters being: 33¾, 1:06¾, 1:41¾ and 2:14.

Grant Memorial.

NEW YORK, 30.—A circular signed by Chester A. Arthur, chairman, Wm. R. Grace and Hamilton Fish, vice-chairmen, and Richard T. Greiner, secretary, of the Grant Memorial Committee, was issued to-day. It says: "Action will soon be taken for the organization of committee to represent the entire country for the erection of a suitable monument above Gen. Grant's grave. Pending this, the committee calls on all newspapers, railways, telegraph and express companies, postmasters, banks, bankers, churches and municipal authorities, commercial bodies and exchanges, manufacturing and business establishments to co-operate in the immediate collection of contributions to be forwarded to Drexel, Morgan & Co., for this committee, or to the mayor of New York, all contributions to be acknowledged."

The Western Union Telegraph Company to-day sent instructions to the managers of all its offices throughout the country to receive contributions from the public and forward them to the committee.

The Hill-Sharon Case.

SAN FRANCISCO, 30.—In the Sharon divorce case on appeal, counsel for the plaintiff (Miss Hill) petitioned the Supreme Court for a rehearing of the order made June 29th, staying the payment of alimony and counsel fees awarded to her. Judge Sullivan of the Supreme Court granted the petition with the provision that the rehearing be confined to argument on the character of the bond filed by Sharon, the defendant, and whether the bond is sufficient to stay the payment of alimony and counsel fees. The Supreme Court's decision states: "In case where the fact of marriage is the real issue, no alimony should of right be paid until the fact of marriage or no marriage is determined, for reasons, that there can be no such thing as alimony unless the relation of husband and wife in fact exists." The restriction of the hearing to the character of defendant's bond has created great dissatisfaction among the counsel for plaintiff.

The Pall Bearers.

WASHINGTON, 30.—The President, having been requested by Mrs. Grant to name the pall bearers for General Grant's funeral, has appointed the following: Gen. William T. Sherman, Lieutenant-General Philip H. Sheridan, Admiral David D. Porter, Vice Admiral Stephen C. Rowan, Gen. Joseph E. Johnston, of Virginia; Gen. Simon Buckner, of Kentucky; Hamilton Fish, of New York; Geo. S. Boutwell, of Massachusetts; Geo. W. Childs, of Pennsylvania; John A. Logan, of Illinois, Geo. Jones and Oliver Hoyt, of New York.

The Mexican Editors Refuse to Accept.

ST. LOUIS, 30.—The Mexican editorial excursionists arrived here about seven last evening and went to the Lindell Hotel. Later they held a meeting at the hotel at which they discussed some editorials that have been published here and which they construed to reflect upon Mexico as a nation, especially upon Mr. Talbott, of Chicago, who has charge of their party. In view of these facts and in a tone of resentment they adopted a resolution setting forth their feelings and declining to accept the hospitalities of St. Louis.

Collision Between Steamboats.

PORTLAND, Ogn., 30.—News reached here to-day of the collision in the Straits of Fuca Tuesday, between the steamboats, *Enterprise* and the *R. R. Rithet*. The collision occurred in broad daylight, and is supposed to have been the result of a misunderstanding of signals. The *Enterprise* is a total wreck, but her passengers, about 100 in number, are supposed to be all saved, though it is as yet impossible to tell. Many passengers were thrown into the water but were picked up. The Chinese passengers tried to take the only available boats, and being drawn back, tried to take all the life preservers, but in this effort they failed. The accident occurred about ten miles off shore.

A Full Account of Gen. Grant's Malady.

NEW YORK, 30.—Dr. Shrady will publish in the *Medical Record* of August 1, an extended review of the "surgical and pathological aspect of General Grant's case." He believes that the disease had its inception during the month of June, 1884, and gives a succinct history of the progress and treatment of the case from the day in October last, when Gen. Grant first called on Dr. Fordyce Baker, his family physician, up to its fatal termination. It suggests no new theories in regard to the case, and it is rather intended to be a connected narrative for the benefit of the medical profession, being largely couched in terms familiar to that body.

Riel's Defense is Insanity.

REGINA, 30.—In the Riel trial to-day, the case for the defense was opened by Mr. Green Shields, who said the chief line of defense would be to prove the prisoner's insanity.

Father Andre, of Prince Albert testified that he believed Riel insane on religion and politics. Dr. Ray, medical superintendent of the Beaupert asylum, Quebec, testified to the same effect, basing his testimony on observations when Riel was in the asylum from 1876 to 1878. Dr. David Clark, of the Toronto lunatic asylum, shared the same belief. Dr. Walike, of the Hamilton asylum, believed the prisoner insane. Riel was much excited during the examination as to his sanity.

Struck by Lightning.

MOUNT MACGREGOR, 30.—Mrs. Grant, who has remained in the upper rooms of the cottage since the General's death, last evening descended to the parlor, where she viewed the remains of her husband after they had been composed in the casket. To-day she is as usual; her mind distressed, but physically well.

A severe thunder storm occurred on the mountains this evening. The electric fluid entered the cottage, tearing off some of the plastering and extinguishing the electric light above the casket. Col. Beck, commanding Battery A, Fifth Artillery, from Governor's Island, and General R. H. Jackson, commander at Fort Columbus, Governor's Island, were rendered insensible by a shock from a bolt, and it was feared for a time that the latter would not survive. Both now, however, are pronounced out of danger. Two or three also were more or less severely hurt. The mountain telegraph wires are all prostrated, and dispatches had to be sent to Saratoga for transmission.

A large number of persons this afternoon availed themselves of the privilege of viewing the remains.

When the General's remians were placed in the casket yesterday afternoon, Colonel Grant put a packet in the breast pocket of the coat. It now transpires it was a letter written by Mrs. Grant. It acknowledges the farewell letter of the General found in the coat pocket after death, and added farewell until both should meet in a better world. The ring placed on the General's finger was one Mrs. Grant had given him, but she which in life his finger had grown too small.

Democratic Platform.

RICHMOND, 30. — The Democratic State Convention assembled at 10 a. m. The report of the committee on resolutions was submitted. The platform pledges opposition to any increase of taxation, opposes all further agitation of the debt question, and reiterates the final acceptance of the final settlement of the "Riddleberger bill;" renews the pledge of its continued support of the public school system; recommends a change in the revenue laws which will require a speedy settlement by collecting officers; recommends a supervision by the Legislature of the operation of the railroads of the State; reaffirms the declarations of the National Democratic party in its last convention on the subject of the tariff, and especially maintains that reductions in taxation can and must be made, without depriving American labor of the ability to compete successfully with foreign labor; endorses civil service reform, while at the same time it opposes the appointment to office of offensive partisans; commends the administration of President Cleveland, and especially the President's action in removing the offensive Federal officers in Virginia.

John E. Massey was then nominated for Lieutenant-Governor on the first ballot; R. A. Ayres was nominated on the second ballot for Attorney General.

A resolution was adopted by a rising vote, expressing sorrow at the death of General Grant and gratification at the thought that he, in his trying hours, bore himself toward the people of the South with a magnanimity and good faith such as can never be forgotten, and tendering sincere sympathy to the bereaved family.

FOREIGN.

A Desperate Fight for Liberty.

MOSCOW, 30.—Sixty criminals, who had been sentenced to exile to Siberia, while en route rose against their guards and, although unarmed, began a deperate fight for liberty. The battle lasted for a long time, and the soldiers were absolutely unable to conquer their manacled assailants. Twenty of them were shot dead, and of the other 40, 30 succeeded in making good their escape.

Ferry Carries His Point.

PARIS, 30.—In the Madagascar debate in the Chamber of Deputies to-day Clemenceau, replying to Ferry, declared that a careful examination showed that no colony yielded advantages in proportion to the cost of its maintenance. Seeking after fresh colonies had been a source of loss to France. Ferry's theory that it was the duty of the superior races to civilize the inferior races was opposed to the rights of man. Could Ferry define the terms "superior" and "inferior" as applied to races? The Germans in 1880 described the French as "inferior." Were the Chinese inferior to the French? A forcible colonial expansion policy was madness. It was the duty of the government to secure the safety of France, not to scatter its forces. (Applause.)

Brisson said the Cabinet aimed at uniting the forces of the Republic and preserving the national property. He asked the Chamber to vote the credit and promised the Government would do its utmost to arrange it so that the colonies should cost less and contribute more than at present.

The credit was then voted, 221 to 142.

A Sensation.

LONDON, 30. — Lord Randolph Churchill, Secretary of State for India, and Earl Iddlesleigh (Sir Stafford Northcote) First Lord of the Treasury, both remained away from the banquet to the Ministers last night. Their absence has caused much comment and added to the sensation produced by Lord Randolph's decision at the last moment not to attend the great Tory meeting yesterday in Liverpool, where he was to be the principal speaker. In consequence of Lord Randolph's refusal to attend, the Liverpool meeting was postponed. He has agreed to go to Liverpool a month from now and address a meeting of Conservatives there on his own account.

The excitement in Liverpool over last night's occurrence is very great to-day. Delegates from all sections of the Conservative party in England have been aroused by the incident and have united in empowering Forwood, one of the Torr members from Liverpool, to proceed to London in the name of the party, to interview Lord Randolph and other Conservative leaders, and arrange to secure an address in Liverpool from the Indian Secretary upon his own terms and at his own convenience.

BRIEF TELEGRAMS.

It is affirmed at Shanghai that China will declare war if France invades Corea.

The Marquis of Salisbury has reopened negotiations with the Porte for a Soudan expedition.

In the whole of Spain on Wednesday there were reported 3,103 new cases of cholera and 1,252 deaths.

The monument to Rebecca Nourse, who was hanged for witchcraft on July 19th, 1692, was dedicated at her old home in Danvers, Mass., yesterday.

A Paris dispatch says: The *Telegraph* has a sensational dispatch from St. Petersburg saying that war between England and Russia is certain directly after the elections in England.

The *Berliner Musik Zeitung* announces the engagement of Miss Nevada to Chas. Hall. Mrs. Mackey will place her house in Paris at the disposal of Miss Nevada for the marriage and will provide the wedding breakfast.

The committee of the Union of American Hebrew Congregations in New York voted that the services in memory of Sir Moses Montefiore shall be held in all churches in the country on the same day to be decided upon, probably the first Sunday in October.

General De Courcey telegraphs to Paris from Hue that affairs are improving in Anam. He has recovered $2,500,000 in treasure from Thuinuat, whose father led the recent attack on the French Legation at Hue. Thuumet's father has been captured and is now a prisoner.

Patriotic circles at Berlin are angered at the conduct of the North German Lloyd Steamship Company in evading the condition that the steamships of the line subsidized by the government shall be built in Germany, and by their taking steamers engaged in the trans-Atlantic trade for the eastern trade and replacing these Atlantic steamers with ships built on the Clyde.

Base Ball. — Providence 4, St. Louis 2.

New York, 30.—New York 3 Buffalo 1.

New York, 28.—Brooklyn 10, Athletics 7.

Boston, 30.—Boston 3, Detroit 2.

Governor Tritle, of Arizona, has proclaimed August 8th a day of mourning and sorrow throughout the Territory and recommends the suspension of all business as a mark of respect to the memory of General Grant.

CORRESPONDENCE.

RESOURCES OF THE PAHREAH.

CANNONVILLE, Utah, July 27, 1885.

Editor Deseret News:

The crops at this place are generally looking very promising. The people have commenced harvesting their wheat and oats. The fruit crop fully demonstrates that all of the fruits of a temperate climate may be successfully grown here. Apples, peaches, plums, and such other fruit are very promising. The peach trees are loaded to their utmost capacity.

There is room here for a large number of families, and those who contemplate leaving Utah and going to Arizona or some other place to look for homes will do well to come to the Pahreah and investigate the climate and soil. There is a large valley or park three miles above Cannonville, that has as good soil as any part of Utah, and is not yet under cultivation. It will support, probably, one hundred families. We cordially invite all who are seeking homes to come to this valley and settle until it is filled up.

The altitude of Cannonville is about 5,800 feet above sea level, and the land here generally slopes to the south. Fencing and building materials are in great abundance here, and as a grazing country it is equal if not superior to any other part of Utah.

A very good wagon can be made from this place to Lee's ferry on the Colorado, at a comparatively small cost, which would give the traveling public the luxury of plenty of water, grass and timber in place of sand and sagebrush, with scarcity of water on the old route.

WM. LEWMAN, Ward Clerk.

Mullein Leaves in Consumption.

Dr. Quinlan, of Dublin, read before the International Medical Congress at Copenhagen last year an interesting paper on the medicinal qualities of the mullein. It has attracted widespread attention, and among the more recent articles confirmatory of Dr. Quinlan's statements is one by Dr. Wilfert, of Cincinnati, which appears in the last number of the *Lancet and Clinic* of that city. From the results obtained in 127 cases of pulmonary consumption treated by Dr. Quinlan with mullein alone, he draws the following conclusions, which are condensed from his original article, viz.:

1. In the earlier and pretubercular stage of pulmonary consumption, mullein has a weight-increasing and curative power greater than that of cod liver oil, and equal to that of Russian kouniss.

2. In cases where tubercles are well established or cavities exist, the mullein has great power in relieving cough —a great boon to consumptives, whose weak stomachs too frequently will not tolerate the usual cough remedies.

3. Phthisical diarrhœa is completely obviated by the mullein.

4. Mullein has no power or effect on the night sweats of consumption, which should be combated by atropia sulphate.

The method of using the mullein, which originated among the Irish peasantry, and was adopted by Dr. Quinlan just as he found it, is as follows: Three ounces of the fresh green leaves, or about ten times that much of the dried are boiled in a pint of fresh cow's milk. After boiling a moment the infusion is allowed to stand and "sipe" for ten minutes, when it is strained, sweetened and drunk while warm. This quantity is taken twice or three times a day. It is generally much relished by the patients, who regard it as a pleasant article of diet rather than as a medicine. The smoke of the mullein leaves inhaled into the respiratory passages relieves irritation and spasmodic cough.

Dr. Wilfert states that he has followed Dr. Quinlan's method in twenty cases of undoubted pulmonary phthisis all of them more or less advanced, and all improved during the administration of mullein, no other drugs being used. These results are certainly very encouraging, and should be followed up.

Arizona Cliff Dwellers.

A reporter encountered at the depot Deputy Sheriff Crowley, who referred to a recent pilgrimage he made to the Rio Bonito country in pursuit of a band of cattle thieves. He describes the country visited as being almost destitute of inhabitants, portions of which have never been invaded by white intruders, except, perhaps, by desperate men whose crimes have driven them to seek the safty which this terra incognita affords. In one of the deep cañons of the Rio Bonito, perched upon one of its sides, some 70 or more feet from the river surface, Mr. Crowley discovered a number of deserted habitations of the prehistoric cliff dwellers. From the bottom of the cañon, looking up toward the cliff houses, a series of steps had been hewn, or cut, in the precipitous side of the granite wall, by means of which the now extinct race were enabled to make their entry and exit to and from their places of abode.

The houses consist of caves excavated in the wall, the external openings being large enough to admit the passage of a man in a stooping posture. Each house has but one room, ranging in size from ten to twelve feet square. The front of the dwellings, or that side which looks down upon the cañon, is about one foot in thickness, and is in all cases pierced with small orifices, which may have been designed for purposes of ventilation, or possibly used as portholes through which the inmates defended themselves from attack. As in all probability the builders of these eerie habitations were entirely unfamiliar with the use of the high explosives now in vogue, the means by which the herculean labor of making these excavations in a solid granite wall was accomplished becomes a question of much interest.—*Tucson Star.*

Spelling Match.

Can you spell? Well, yes; almost anybody can spell. Then spell this, and make out what it means. If you can't, then just pass it on to your next neighbor:

B-B-S-E-I-I-N-N-O-O-R-R-R-S-S-T-T-W.

Don't say it out loud, but just whisper in your pretty neighbor's ear, that if she will place these letters in proper position she will have the world's great tonic, which will enrich her impoverished blood, put roses on her pale cheeks and make her strong and happy. Go to the nearest drug store with a dollar in your hand, and ask for Brown's Iron Bitters.

Dr. Henley's

Celery, Beef and Iron, is the best Nervine and Tonic and has cured in many cases where other remedies failed.—*Bulletin, April 1.*

WATSON BROS., Manufacturers' Agents, keep a complete line of the above goods constantly on hand. d

Hall's VEGETABLE SICILIAN Hair Renewer

Hall's Hair Renewer restores gray hair to its original color; makes the scalp white and clean; cures dandruff and all humors; prevents the hair from falling out, and renders it soft and lustrous. T. editor of the "Ocean Foam," Cape M. writes: "We speak knowingly, when we assert that Hall's Vegetable Sicilian Hair Renewer is the best of its kind. The article is an elegant and effective one, without which we think no toilet complete." Thos. D. Jones, Middle Granville, N. Y., writes: "I have used

Hall's Hair Renewer

Renewer about ten years, with satisfactory results." E. C. Perkins, Oberlin, Ohio, writes: "I consider Hall's Hair Renewer the best hair preserver in use. I have used it for the past twenty years, and my hair is in as vigorous and healthy a condition as when I was 30 years of age. Not a sign of gray hair to be seen anywhere." Dwight L. Chamberlain, O'Bland, C[illegible] nia, writes: "My hair, which was entirely white, has been restored to its natural color and luxuriance by the use of Hall's Hair Renewer."
