## BICYCLE RACES LAST EVENING.

Maxwell Rides Many Rings Around Barney Oldfield in Motor Race.

THE AUSTRALIAN PURSUIT.

H Was Pronounced the Best Event of The Evening-Maxwell Leaves

Today for Denver.

There was another good race meet pulled off at the saucer last evening and the crowd went home well pleased

with the program. The sport was rapidly declining and the management knew that something would have to be done, and done quick-

ly or the game would die, so a program of interesting events was put on in the hope of reviving the old time enthusi-

The first event was the two-mile professional. Hofman was the winner of this but had a hard fight with Palmer for first place. Hofman waited his opportunity, and then with a grand sprint

passed the other riders and came around the boards for the tape in a lightning finish. The best event of the evening was the Australian pursuit race for the amateurs. It kept the crowd on the tip toe of expectancy all the time and brought forth vociferous applause. The first prize was captured by Iver Red-man. Redman used his head and let all the other riders wear themselves out before he made any extra exertions.
Finally when all but Heagren and
Leyland were compelled to go way up
tack and sit behind, Redman took af-

the these riders and tacked onto their rear wheels until they were pretty thed, when he sprinted a little and won the race. The race was two miles and The ten-mile motor race was too good to be interesting. That is, Maxwell took advantage of Oldfield and rode mething like nine laps ahead of him. The time made was fast but Oldfield idn't have a chance from the second mile, as Maxwell again demonstrated that no other single machine in the

business hereabouts has any business running against his "jigger." Max-vell's time for the ten miles was 13:43 3-5. The world's record time is

The summary follows:
Two-mile open, professional—Hof-man first, Palmer second, Hopper third.
Samuelson fourth. Time, 4:123-5. Australian pursuit race, amateur-Redman first, Leyland second, Heigren third, Sheelor fourth, Time, 6:391-5. Distance 2 miles 2 laps,

The next event will probably mark the close of the method received.

Several Inspected But None of Them Accepted.

Washington, Sept. 9.—The board of ordnance and fortifications today considered the reports on the field guns which have been tested, with a view of selecting a gun for the field artillery of the army. W. J. BRYAN. He Opens the Democratic Campaign In Missouri.

Joplin, Mo., Sept. 9.—The Democratic campaign in Missouri was opened here this evening at a meeting attended by 5,000 people. W. J. Bryan, who was the principal speaker, talked at length on the tariff question, saying among other things that it was time to take the tariff off at least all kinds of trast-made goods. The country, he said, could not look to the Republicans for reform in tariff matters, adding: "There were more righteous men in Sodom and Gomorrah than there are tariff reformers in the Republican party."

He declared that President Roose-

velt had no remedy for the trust evil and that some of his utterances on the subject were abourd. Continuing, he said: "I tell you one trust magnate in stripes behind the prison walls would do more to break up trusts than all the speeches the president can make. The constitutional amendment the Republicans are talking about is not meant for the regulation of trusts but to take the power to control trusts away from the states and so protect the trusts."
