What Might Have Been Heard.

Almost any day during the Centennial, a knot of physicians might have been seen gathered around the elegant glass case, standing in the Main Building in which Benson's Caprine Porous Plaster was exhibited, discussing its merits and superiority over other porous plasters, and the listener might have heard words of warm praise fall from their lips as they spoke of the revolution it would likely effect in remedies for diseases treated externally, such as rheumatism, lame and weak back, spinal and kidney disease, sciatica, lumbago, sprains and bruises, and all aches and pains of a local nature. With these opinions the Centennial jurors, who were also learned physicians, were in perfect accord, and awarded the manufacture of Benson's Caprine Plaster the only medal given to porous plasters. To avoid fraud, see that the word Caprine is cut in each plaster. Sold everywhere. Price 25 cents.

BENSON'S CAPRINE POROUS PLASTER was invented to overcome the great objection ever found to the old style of porous plasters, that of slow action in bringing relief. Benson's Caprine Porous Plaster relieves pain at once and cures quickly. It imparts a sensation of gentle and stimulating warmth and brings rest and comfort to the sufferer d&w lm.
