Actor Hoyt Insane.

Edward Fischer Dead.

Los Angeles, Cal., July 25.—Edward
Fischer, the actor, who, with his
wife, has been staying on Catalina
Island for the past six weeks, became
unconscious while out fishing and died
two hours later. He was a sufferer
from Bright's disease. He was large-
ly engaged in mining and spent eight-
teen years in China and Japan. He was
Russian consul at Kobe, Japan, for a
number of years; was with the Jardine
Matheson company in the silk and tea
trade during business at Hongkong
and Shanghai, and later engaged in
the same business on his own account,
and had filled large contracts for arms
for the government of China and Japan.

Cooper, McFarland, Stevenson and
Others Will Race.

New York, July 25.—The American
cyclists who are to take part in the
international cycling contests at Paris
next month sailed on the American
liner St. Louis. In the party are Tom
Cooper of Detroit, Floyd McFarland,
San Jose, Cal.; and O. M. Stevenson of

Ortunwa, Ia., who comprise the "pro-
fessionals." John Lake of Port Rich-
mond, S. I., champion amateur; "Doc"
Morrow, trainer, and R. A. Mooney,
manager.

The present program is that after
competing at the exposition they will go
to Germany, Italy and other places
favorable to racing. They will sail
through the Suez canal to Australia,
arriving there about the last of Feb-
ruary. They will return to this coun-
try by way of San Francisco.

IRON SITUATION WORRIES.

Its Gravity Indicated by a Conference of
Leading Interests.

Increase in Volume of Business is
Slight—Reducing Production—
Foundry Failures.

New York, July 25.—Discussing the
condition of the iron and steel indus-
tries and the meeting in Chicago today,
the Iron Age in its weekly review says
that the gravity of the situation is in-
dicated by the arrangements which
have been made for this conference of
the leading steel and Bessemer pig iron
interests which is to be held in the office
of the Federal Steel company, Chicago,
today. The call is signed by E. H. Bary
of the Federal Steel company, C. M.
Schwab of the Carnegie steel company
and Joseph G. Butler Jr., representing
the Bessemer Furnace association, and
states that a former meeting of the
presidents of the leading steel com-
panies it was thought advisable to call
this meeting to go over the situation
and see what could be done to improve
it. The Iron Age says:

"The plan proposed is to cut down
production as much as possible. Every
manufactory controlled by these inter-
ests is to be closed under agreement for
one month, the Federal Steel company,
Carnegie Steel company and other large
companies agreeing to do this if the
others will. The success of such a plan
will depend upon the unanimity with
which it is accepted. The dissent of a
single important interest would proba-
bly be fatal."

Of the general situation, the Iron
Age says:
"The week just closing has developed
considerable more business than its
predecessors and this has given a mild
sort of encouragement to manufactur-
ers. Nevertheless, the increase in the
volume of business is not great enough
by any means to satisfy the manufac-
turers, who need a steady stream of
orders to keep their mills running or
their blast furnaces free from accumu-
lating heavy stocks of pig iron. The
sales made have in nearly every in-
stance been accomplished at the still
further sacrifice of prices. A lower
range of prices than that of last week
now prevails through almost the whole
line. It is assumed by some that the
bottom is now in sight because present
prices in many cases represent actual
cost of production, but this has often
proved to be a delusion. Prices will
continue to settle until the supply falls
below the demand."

"Our Birmingham correspondent re-
ports sales in that district of at least
40,000 tons, and a pig iron house outside
of the district reports sales of 5,000 tons.
Much more export trade could be done,
not only in pig iron, but in finished
products, if vessel room could be se-
cured, but it is difficult at present to
arrange for ocean carriage, and freight
rates are also nearly prohibitory."
"Restriction of production is proceed-
ing quite rapidly, more blast furnaces
having recently blown out, while others
are fast getting into shape for sus-
taining operations. It is likely now
that the western bar mills will remain
closed for considerably longer than had
been expected in view of the fact that
the manufacturers and the amalgamat-
ed association have looked hither over
the week's scale for the coming year.
The association has positively refused
to make any modification of the scale
formulated at Indianapolis and the
manufacturers have just as positively
refused to accept it. The closing of so
many mills should have an effect on
prices of bars, but steel bars have sold
within the week at lower rates than the
previous week."

A very interesting item of news is the
announcement that the Carnegie steel
company is about to enter into the
manufacture of rods on a large scale
and that it may also decide to manu-
facture hoops, bands and cotton ties.
"Some failures of foundries have
occurred in New York and New Jersey
land, but they are not regarded as in-
dicating any general weakness in the
trade."

THE BURIAL OF HOMER PHELPS

"You've got to be buried!" yelled the
chief, passionately. "Tain't goin' to
hurt ye, is it? Think you're made of
glass? Come on, fellers, get the grave
ready!"

They scattered hemlock boughs upon
the spot in the form of a rectangle,
and piled other boughs near at hand.
The victim surveyed these preparations
with a glassy eye. When all was ready,
the chief turned determinedly to him:
"Come on now, Homer. We've got to
carve you to the grave. Get him by the
legs, Jim!"

Little Phelps had now passed into
that state which may be described as a
curious and temporary childish fatal-
ism. He still objected, but it was only
foolish muttering, as if he did not know
what he spoke. In some confusion they
carried him to the rectangle of hemlock

WHAT IS SALT LAKE'S POPULATION?

... A CHANCE FOR SCHOOL BOYS AND GIRLS ...

GUESS!

THE reports of the census enumerators of this city are now in Wash-
ington. In a short time the figures will be announced. To stimu-
late interest among our school boys and school girls in the sub-
ject, the Deseret News has decided to offer ONE STANDARD DIC-
TIONARY, value \$12.00, to the boy or girl who first guesses nearest the
correct figures. The only conditions are that each guesser shall have
been enrolled in some one of the schools, or colleges of Salt Lake, or at
the Utah University during the year just past, and that each shall be
limited to one guess. In case of a tie, the ownership of the dictionary
shall be settled by lot. The guesses will be recorded daily, in the order in
which they are received. The "News" has arranged to receive the fig-
ures by wire from the census office in Washington as soon as they are
known, and the first guess received, coming nearest the correct figures
will be awarded the prize. No guesses will be recorded except those regu-
larly filled out on the guess coupon below. Cut it out and send it with
your name, your address, the school you attended and the figures,
plainly written, to
