TO BE OUT EARLY.

It is interesting to know that padders and repeaters have apparently got their instructions instructions to get out early; instructions to get out often, And in the obedience to both of these orders there is danger to the bonafide citizen. If the latter expects not to be jostled aside and kept waiting, he, too, must get out early. This condition is absolutely true in very many instances -how many it is difficult to tell at this

CLASS OF "REFORMERS."

The class of "reformers" is a varied one. Like the holdup suspects who were arrested last night, many of them have in their possession letters from George L. Nye, chairman of the "American Party of Utah," Some of these letters have been brought to the Descret Some of these News; some have been sent and others have been obtained. The personal sig-nature of Mr. Nye is attached to them and they are signed "Yours for suc-cess." In the so-called tenderioin there are many such: The recipients are urgently, almost affectionately impor-tuned to 'redeem" Utah. Habitues of tuned to "redeem" Utah. Habitues of Commercial street are asked to help the "Americans" usher in a rule of "poli-tical righteousness." Dive keepers are pleaded with to vote the great "Ameri-can" ticket. Their "moral support" is especially desired in the lefter to which reference has been made.

In the letter, too, Mr. Nye denounces the "Mormon blerarchy" and reminds the mottled recipients of his political harrangues that they can do much to help the "Americans" out. That it is as good as throwing their votes away to cast their ballots for either the Demo-cratic or Republican tickets.

DEMOCRATIC PRECAUTION.

The matter was the subject of seri-ous concern in the political headquar-ters today. Mr. Bamberger prepared for it by issuing a statement to the effect that \$50 reward will be given for the arrest and conviction of any person who shall vote or attempt to vote fraudulently.

REPUBLICANS ON LOOK OUT.

It is understood that the Republican committees have done a lot of checking up, and that they already have a list of complaints drawn, and that warrants are to be served in a number of cases. WHAT "AMERICANS" ARE AFTER.

It came direct from the ranks of the "Americans," who, it was said, had agreed to support certain candidates for state offices, in exchange for support for certain of their candidates on the county ticket. The men the "Americans" are mostly desir-ous of electing are Joseph H. Raleigh for sheriff, A. C. Reese for clerk and P. J. Anson for assessor. This is the last desperate effort of the "new" party and they are willing, it is said, to sac-rifice all the other men on the state. rifice all the other men on the state, legislative, county and city tickets, in order to elect the three gentlemen named. Utah County's Registration.

(Special to the "News.") Provo, Nov. 5 .- County Clerk Bach-

nan has received complete registration returns from the county. The total is 1,803, or 40 less than in 1900. There means to be a feeling of indifference on the part of many of the voters, and some of those who were induced to register through the credulity of party workers, declare that they will not vote at this election.

Pains in the Back

Later the chairmen of both parties got together and held a consultation, the result being that the sheriff and chief of police were seen and all four agreed to work together in landing cul-prits in jail should they attempt to vote and were challenged.

MUST CLEAN UP.

Street Supervisor Notifies Contractors To Keep Gutters Clear in Streets.

In compliance with the instructions issued by the city council on Monday night, Street Supervisor Sedden has notified the contractors who are putting down the cement sidewalks in the city to at once clean out the gutters along the streets where they have been at work and put them in good condition so that they will not be obstructed in the event that a storm comes up. At the present time the gutters have all been more or less blocked by dirt and refuse left there by the contractors and, should a sudden storm arise, there would be no drainage whatever and the new sidewalks would be rendered practically of no benefit.

Many complaints have been received in the street department in regard to the matter, but that department can not do anything for the reason that the contract calls for the contractor to restore the gutters and curb lines to their normal condition. It is expected that the work of cleaning up will be commenced at once

This is Guy Fawkes day, the day of days in England, the British Fourth of July, because on a Nov. 5, in the reign of James I, Fawkes was arrested just in time to prevent his blowing up the houses of parliament, and prematurely angelizing the commons and lords. Architect Kletting went to Ogden to-day, to look over the Bell Telephone company's local station with a view to drawing plans for double the size of the establishment, and extending the building back to almost the full depth of the lot. A new No. One relay switchboard has been ordered for Ogden, at a cost of about \$35,000, as the one now in use is barely able to more than respond to the demands and busi-ness appears to be increasing. The new quarterly telephone directory will be ready for distribution on Monday next, containing the names of 6,513 Salt Lake City subscribers, an increase of 1,519 since January 1, and an increase in October last of 253.
