GENERAL.

HARRISBURG.—Within the past ten days, Col. Whitely, one of the secret service officers, arrested eight persons in this city and neighborhood, for dealing in counterfeit U. S. treasury and national bank notes. It is thought that others are implicated and will also be captured.

CONCORD, 14.—Our State election to-day is calling out quite a full vote. Up to one o'clock p. m., the returns from the various points indicated that the Republicans would about hold their ground of last year.

SAN FRANCISCO, 14.—The Lake Tahoe Water Co., proposes to tunnel the Sierra Nevadas five miles, to bring water two hundred miles to San Francisco and deliver to that city twenty million gallons daily, for fifty years, in return for six million, at six per cent. for thirty years; the bonds to be delivered on the completion of the work. No payments will be made before the road supervisors have passed a resolution of acceptance. Col. A. W. Von Schmidt, the author of the project, is at the head of the work, which will soon commence and may be expected to be completed within four years.

COLUMBIA, 13.—Captain Christopher, commanding the company of the 18th U. S. infantry at Yorkville, S. C., in letters to Governor Scott and Sheriff Glenn, of Yorkville, asserts that the guns taken from the negro militia by the sheriff were used by the pickets to prevent the negroes from getting away from Yorkville to their homes; and that the pickets were the same illegal, unknown, armed band that made a raid on the office of the county treasurer. A card will appear in the papers here, signed by thirteen white citizens of Yorkville, denying both statements. They explain their course fully, and show that Captain Christopher's own troops did all the picketing from which all the trouble arose, and that Christopher has misrepresented the case. They show that they who came into Yorkville, and the raiders on the county treasurer, are different parties. Sheriff Glenn has written a statement, but it has not reached here yet. Gov. Scott has summoned the leading Democrats to advise with him upon the up-country troubles.

CONCORD.—Returns from fifty-four towns show a Democrat gain of 919. Sixty towns show Pike to be 120 ahead. The complexion of the House is not yet determined. The prospect is that the Senate will be Democratic, owing to the large Democrat gains in Grafton Co. The Republicans fear the defeat of General Griffin, in the Third District; few returns of his votes, however, are received. The election of Weston, Democrat, for Governor, is probable. Bell, Democrat, is elected to Congress for the Second District.

CONCORD, 15.—The Democrats are jubilant and are parading the streets in front of the State House. The Republicans have elected Senators in districts 2, 3, 5 and 9. The Democrats carried the other seven districts. The Councilor districts 3 and 4 are Republican and the other three Democratic. The House has a Republican majority of about twenty. The election of three Democratic Congressmen is conceded. Hibbard in the first, Bell in the second, and Parker in the third district.

SAN FRANCISCO.—Last night, the Vigilantes entered the jail, in Virginia City, Nevada, and took out William Willis, who was charged with an attempt to burn Piper's Opera House. They took him to the latter building, in the basement of which there were a hundred armed, masked men, and hanged him to a beam until he confessed he was guilty of the crime stated, and also of other crimes, implicating numbers of others heretofore unsuspected. They then returned him, handcuffed, to the jailor. Willis then confessed again to the Chief of Police, and the result was the arrest of Charles McWilliams and Thomas Laswell, as accomplices with him in numerous recent incendiary attempts.

An unrecognized girl fell over a precipice a hundred feet high, on the face of Telegraph Hill corner. She is supposed to be fatally injured.

BOSTON.—The Concord, New Hampshire, Statesman, thus sums up the causes of the Republican defeat: Had Charles Sumner not been forced from his place as chairman of the Senate committee on foreign relations, the Republican vote would have been larger; had the San Domingo scheme been left to the operation of natural causes, in-

stead of being pushed with inexcusable persistence, it would have been larger; had Congress succeeded in restoring our commerce to the extent and importance it had before the rebellion, it would have been larger; had some of the land grant bills, however wise and just in themselves, been discreetly deferred until public understanding had grown up to them, it would have been larger; and had all these causes of embarrassment been withheld, we might have carried the State by nearly the usual majority, in spite of the Democracy forced into the party, by the forcing upon it of unpopular nominations made in packed caucuses.
