NEVADA'S GOLD CAMP

Tonopah and Goldfield, Nevada, are undoubtedly two of the richest mining camps in the world. Over \$7,500,000 worth of ore has been shipped from the ground in the last year or so, the ore going from \$100 to \$300 a ton with vast quantities in sight. The wonderful richness of ore in developed mines, and the assurance that the entire surrounding region is "full of mineral," offers the greatest of inducements to miners and investors. Tonopah now has a population of over 5,000 and is growing rapidly, while the towns in the Goldfield district have nearly 8,000 people. All branches of business are represented in these towns, and prices are very profitable. The Tonopah railway now gives regular service to both camps, and travel is no longer a matter of extreme difficulty.

No miner or investor should overlook Tonopah and Goldfield. While marvelous finds have been made, it is more than probable that finds as rich will be made in the future, and the man on the ground in the one who will benefit from these strikes. Several millionaires have been made by these camps, for all they are so new, and many men have accumulated comfortable fortunes. For full information about Tonopah and Goldfield and how to reach them, apply to D. R. Gray, 201 Main street, Salt Lake City. The Southern Pacific is the only route bringing regular service to both camps, and travel is no longer a matter of extreme difficulty.
