No Work No Pay. New York, 3.—The Times Washington special says: The question whether the law is a dead letter which enacts that no member of Congress shall be paid the amount of his salary for the days that he is absent from his official post except with leave, or on account of sickness, will probably be decided before long. It is a notorious fact that Sharon, of Nevada, has rarely attended the session of the Senate. He has not been in his seat more than two months since he qualified. He left here on February 25th last, a 'ter drawing the full amount due him to that date. Having neglected to appear at the extra session of the forty-sixth congress, Burch, the new secretary of the Senate, states that if Sharon demands his salary for that session he will, before paying the money submit the case to the first controller of the treasury and obtain a written decision from him concerning his duty in the premises. The law, however, is so clear that it is doubtful whether any construction can be placed upon it that will give to Shaton the money which he never earned. Sections 40 and 41 of the Revised Statutes expressly fubid the rayment of salary or two to three years' imprisonment, above to the results of the request of the probable terms, viz.: Enforcement of Sir Bartle Frere's utilimatum of unconditional surrender, indemnity to England for the cost of war and a return of the spoils taken at Islandale. If Cetawayo's unable to comply with the last named condition, the British must themselves warned to be prepared for the probability of the final ceremony of the conclusion of peace at Ulundi. A dispatch from Captown of June 10th says: Strong hopes are entertained of the success of peace for the probable that it is doubtful whether any construction can be placed upon it that will give to the request of the request of the probable that the war.
