EVENING NEWS.

Monday, - October 30, 1876.

One Difference Between an Effete Monarchy and a Glorious Republic.

In England, which is a limited monarchy, but where members of Parliament are elected by the legal voters of the kingdom, the Government is prohibited, by law, from keeping any portion of the standing army in any town, or within twenty miles of it, where an election for a member of Parliament is in process. This is evidently done for the purpose of permitting the voters to cast their ballots for whomsoever they see fit without the appearance, even, of an interference on the part of the Government. This is a wise provision, doing credit to the moderation and conservatism of the law-makers of that government, and might be imitated by our republic with advantageous results.

Now, although we have for nearly a hundred years been living under what we claim to be republican institutions, and under which we boast that the ballot is free, and that no man shall be interfered with in his right to vote (if a legal voter) according to the dictates of his own conscience, it must be evident to the most casual observer that Grant and his administration are making use of the standing army to influence the elections in several of the States, in favor of the republican party, contrary to the genius of our institutions, as well as our laws, thus infringing not only upon the rights of individual electors, but upon the rights of the States, in violation of the Constitution, and in very unfavorable contrast to the course of a monarchy, which is popularly supposed to be far behind our Government in all that relates to popular freedom and the rights of the people.—*Ogden Junction, Oct. 28.*

Beet Sugar in California.

The Santa Cruz *Courier* gives the following highly favored statement of the workings of the beet sugar mill at Soquel, but omitted in it a list of the dividends:

"The factory has the capacity for turning 9,000 tons of beats annually into first class, wholesome sugar; but the land they have under cultivation only furnishes them about 6,500 tons. They would purchase 2,500 tons more, at $4.50 per ton, if they could be had. As the production is short this year, they will not have enough beets to run them more than five months, and will make in that time 1,040,000 pounds of sugar. They consume fifty tons of beets a day, making therefrom 8,000 pounds of sugar, this being 8 per cent of the whole weight. They are turning out fine crushed A, granulated, and B sugar, the most of which is shipped to the San Francisco market. The works have been in operation for seven years, the cost of construction being $100,000. Now we will produce a few figures given by Mr. Otto, in order to see whether this investment is a paying one: Its total production of sugar in five months, or 130 days, is 1,040,000 pounds, which at 11¼ cents per pound, the average price, gives a sum total of receipts at $119,600. We will take, as an example, one day's run, and from the expenses and profits of that length of time we can see what the total amount of clear money is:

50 tons of beets at $5	$250 00
16 cords of wood at $3	48 00
65 men's wages, aggregating	90 00
Lime	5 00
30 sugar barrels at 70 cents	21 00
Chemicals	4 00
Freight, 4 tons at $2 per ton	8 00
Lights	4 00
Repair in machinery, belts, &c	10 00
Commission on selling 8 tons	24 00
Insurance for one day	3 00
Whole cost of one day's running	$472 00
8,000 pounds of sugar at 11½ cents	920 00
Leaving the net profit of	$448 00

"Calculating at 130 days' running—26 days in each five months—makes an aggregate of $58,240 clear money per year made; in seven months, if they had beets, would make $81,536; allowing a discount on the seventh month for shrinkage in the beets, of 1 per cent., we have a deduction of $116 48 to make from $81,536, giving a clear gain of $81,419 52. Besides this, 2,700 tons of pulp are produced from working the beets into sugar which the company itself uses, and is worth to them $2 per ton, aggregating $5,400; also 300 tons of sirup, suitable for distilling or manure, worth $10 per ton, $3,000; 500 tons of lime refuse, worth $20 per ton, making $10,000; showing a profit, one year with another, of nearly 100 per cent., or a clear gain of $99,319, 52."

TO CALIFORNIA.

We don't give this for *an idle scramble*, but it is very strongly rumored that Cedar Rapids is to be the *half-way* station between Chicago and Council Bluffs.

If this is to be, and some experiments have been made to that end, we suppose it is on account of the superior condition of the road. A trip on the steel railed and well ballasted road, is not any more now, if as much, wear and tear on the employes and machinery to a train, from Chicago to Cedar Rapids, 218 miles, as it was on the iron rails from Chicago to Clinton, 138 miles, in the olden time.

It is not necessary for us to say that the C. & N. W. R'y is a first class road in every particular, that it rides as easy as sitting in a "rocking chair," that its coaches are parlors, that its employes are the most polite and affable gentlemen the traveling public can meet or will meet in a lifetime of travel—the *esprit de corps* of the employes, if we may so say, is at a high standard; we say we need not say this in a newspaper, it is self evident to every traveler on the road. *But in the future these are to be increased; we suppose the speed will be increased; if possible, the superb trains will be more superb: there is to be no train more complete, either for comfort or safety, leave the world's commercial metropolis for the* GOLDEN GATE, THAN THE GREAT TRAINS ON THE CHICAGO & NORTH-WESTERN RAILWAY—THE ONLY COMPANY RUNNING OUT OF CHICAGO THAT HAS A ROAD SO RELIABLE THAT THEY ARE NOT AFRAID TO RUN AT ANY SPEED CAPABLE OF BEING ATTAINED BY ENGINES OF THE MOST IMPROVED CONSTRUCTION, RUN WITH THE BAND OF IRON NERVE, AND A HEAD OF BRAINS, WITHOUT ANY FEAR OF ACCIDENT OR INCONVENIENCE.

Every employe on the road feels a personal interest in the North-Western Railway; it's the "clipper" road in the West, and so far as anything he can do it will continue so to be.

THIS IS THE TRANS-CONTINENTAL LINK FROM THE GREAT LAKES TO THE GREAT MISSOURI RIVER.

The old time traveler speaks in high glee of the "ease and comfort" of these days of steel in contrast with the pioneer days of this pioneer road in the days of iron. *The comforts of travel on the North-Western Railway are in every traveler's mouth from the Atlantic to the Pacific.* It must be a proud compliment to the efficient management, and that is the reason every officer or employe feels so happy and obliging.

It is with pride we mention these things, and join the general shout along the line, Hurrah for the "OLD RELIABLE."—*Cedar Rapids Republican, Aug. 14, 1876.*
