

boy had his throat cut from ear to ear, and was barbarously mutilated, and the body of a new born child was found pierced with six lance wounds. Sub-Lieutenant Cruz and the surviving soldiers were also surrounded, and they fell one after another, but not until they had sold their lives dearly. When the other Chilian troops arrived a few days afterwards, they found in the square and adjacent streets 291 bodies. The enemy's dead and wounded were doubtless more than that number, and were carried off into the hills. The Chilian dead were collected and buried, the city was burned, and everybody implicated in the massacre who could be found, was summarily executed.

ALEXANDRIA, 15.—General Wolseley has written Gaggaw Pasha, Arabi Pasha's late under minister of war, at Kafr El Douar to arrange for the surrender of that place.

The enemy's troops from Nehalet Aboukir and Kafr-el-Douar will parade here. Those from Nehalet on Sunday, when they will surrender their arms and be stripped of their military dress and disbanded in presence of all the troops of General Wood. In many instances the wounded Arabs fired on the English after they had passed them. Lord St. Vincent cut down a native standard bearer and captured his colors. There were lamentable casualties on the enemy's side, old men and children were killed and this was unavoidable, owing to the fact that Egyptians kept up a straggling fire from their mud huts. This brought the English fire upon non-combatants. Without our siege train the position of Arabi Pasha at Kafr-el-Douar was unsalable. Canned provisions for 20,000 men for a month were captured at Tel-el-Keber. The Khedive did not receive Butros Bey and other delegates as from Cairo, as they were merely bearers of a letter from Arabi Pasha offering submission, and were not accompanied by notables as expected.

After the arrival of the Khedive at Cairo a regularly constituted court will be established for the public trial of rebel chiefs, who will be allowed to engage counsel.

The British moved forward at four this afternoon to disarm 4,000 men at Kafr-el-Douar, wherefrom a train has just started with officers to surrender to Gen. Wolseley.

Gen. Wood has issued orders prohibiting any correspondent going forward.

Engineers have just returned and report Kafr-el-Douar abandoned. They saw many skeletons there. The rebels are supposed to have gone to Aboukir. Twelve thousand prisoners have already marched back to Ismailia.

It is believed that Malet, British consul general, has telegraphed to General Wolseley the names of seven persons answerable for the rebellion, and whose arrests are desirable.

Ismailia, 15.—Egyptian officers were brought in this morning.

Tel-el-Keber, 15.—Egyptian doctors state that when Arabi Pasha was making off by railway to Zagazig he was fired on by one of his own officers. Another prisoner reports that Arabi was wounded, but this is doubtful.

Notwithstanding the collapse of the Egyptian rebellion, the preparations in Egyptian arsenals up to last night were unrelaxed. Fresh orders were given yesterday for additional supplies for Egypt.

Dublin, 15.—A general movement is afoot to present General Wolseley with a sword of honor on his return from Egypt.

Alexandria, 16.—After the engagement of Tel-el-Keber Arabi Pasha fled to Cairo, and told the council that the British troops had defeated him, upon which a mission was sent to the Khedive, with two letters from Arabi Pasha, one expressing his devotion, and the other warning him not to allow the English not to enter Cairo, as the same result might follow as happened at Alexandria. The Khedive refused to receive the letters. Arabi Pasha was taken before the Khedive today. He presented a pathetic picture of grovelling servility. He swore that he was not aware that he was fighting against the Khedive. The Khedive remained standing while Arabi Pasha was in his presence. When Arabi had concluded the Khedive ordered his removal. The Egyptian guns at Kafr-el-Douar were partially concealed. Gen. Ward's brigade goes to Cairo by rail.

The Khedive has learned that the commander at Damietta refuses to surrender. He has 5,000 black

troops. Hussien Pasha Cheri, Arabi's minister, Peons and Kumal Pashas, have been arrested in Alexandria. Mahmoud Pasha Baroudi has been arrested near Cairo.

St. Petersburg, 16.—The *Gazette de St. Petersburg* says: To allow England to settle the Egyptian question without consulting the powers will not be thought of.

London, 16.—The *Times*, in a leading article, says: If the lives of Arabi Pasha and his immediate followers are spared, these men must be put at once for all out of the way of doing further harm. They cannot be permitted to retire to Constantinople to become the centre of impalpable intrigues to restore the authority of the former Khedive. The army must be disbanded and replaced by general armories sufficient to maintain civil order. If troops are needed to defend the distant frontier it is sufficient to maintain them on the frontier and not keep them at Cairo.

Gladstone asked the Archbishop of York to direct thanksgiving services to be held in churches to-morrow for the success in Egypt.

Cairo, 16.—Some natives accused of murder assisted by a mob, attempted to escape from the police station, but the native guards fired upon the crowd and quelled the disturbance.

Regarding the Egyptian loss in Wednesday's engagement no computation approaching accuracy has yet been made, but including what has been wounded by the cavalry it cannot be short of 2,500 to 3,000. In several places the bodies of Egyptians were lying in heaps of from 30 to 50. They lay in dense rows where the Forty-second were getting in on the flank of Arabi's lines, while they were holding their position against the attack in front.

The dead extend for over a mile behind the position, as our pursuing troops fired after the mass of fugitives. Altogether the field of Tel-el-Keber presents a ghastly sight.

CAIRO, 17.—Arabi Pasha says he was compelled to fight against his will. He maintains a calm and resolute demeanor. Arabi informed Gen. Lowe that he trusted himself to English honor as a soldier whose army had been defeated. Gen. Lowe replied he could not discuss the question of the war, his only mission was to arrest him. Arabi considers that DeLesseps shamefully betrayed the national Egyptian party who depended upon his assurance that he would prevent any landing of troops or war material by way of the canal.

Alexandria, 17.—Two thousand Albanian recruits have arrived to form the nucleus of the fresh police force.

ALEXANDRIA, 18.—The first train for Cairo leaves on Tuesday with government officials. The rebel positions at Kafr-el-Douar consisted of three successive camps, the foremost two only being abandoned. In the town itself are 6,000 Fellahs, two regiments of Cavalry and several horse batteries have been disarmed. The work of disarming the prisoners is over and only a few companies of English troops remain to guard them. We found at Fort Aslan 180 saddles and carriage horses looted during the bombardment of Alexandria. The Council of Ministers is preparing a decree disbanding the army. Although the enemy have abandoned the camp, they left the guns, horses, tents, etc., standing in good order, in charge of a few officers and men. The banks are removing the barricade put up for their protection. The Bourse is more animated. General Wood's brigade will proceed to Cairo in ten trains. The General himself left on the noon train today for Kafr-el-Douar, to meet Roubi Pasha, who arrived there from Cairo, with other important persons. When Roubi Pasha reached Cairo he was given in charge of English officers. Coincident with Roubi's arrival numbers of rebel troops from Marietta, Rosetta and Aboukir came into Kafr-el-Douar to surrender. Two companies of British troops were sent to Damietta.

Alexandria, 18.—When two trains which went to Kafr-el-Douar yesterday afternoon to bring here the prisoners of war, reached that place, all the soldiers had disappeared with the exception of a small body left to guard the arms, ammunition and accoutrements. The Bedouins left two hours before the arrival of the British troops, taking their arms and ammunition with them.

Constantinople, 18.—Lord Dufferin informed the Porte that the military operations of the British in Egypt had ceased and that England was about to withdraw a portion of their troops. He left it to the Sultan to de-

cide whether it was now necessary to sign the Anglo-Turkish military convention.

Ibrahim Bey Tewfik, formerly governor of Beheret, Arrived to-day from Cairo, where he has been in prison several weeks, having been incarcerated by order of Arabi Pasha. He reports Zagazig and the surrounding country burned and Mansourah pillaged.

OGDEN REGISTRATION.

FURTHER TRICKS OF THE "LIBERALS."

The registration went off a little livelier yesterday as another deputy was appointed and the door of the Council chamber improvised as a register office.

There was also an office opened at the depot ostensibly for the accommodation of the hands working at the various railways, this was managed by the county registrar himself, as the work to be done there was of a character that could scarcely be trusted to a deputy. One hundred and eight were registered there that we know of in a little over half a day, quite a contrast between that and 93 all day Monday with the county registrar and a deputy. But those registered at the depot were generally supposed to be non-"Mormons," and that made quite a difference, and then emigrant trains don't stay long and the work had to be done in a hurry.

A citizen here not a member of the People's party stated last evening that their party were bound to register 800 non-"Mormons" in this precinct, if they had to call on passing emigrants to make up the quota. It may be a question with the uninitiated what benefit would the registration of passing emigrants be to the "Liberals?" This will receive its answer in due time; suffice it to say that to hear

outsiders with "leaky lips" tell it, every name registered will be made available.

Last night citizens on the street were attracted by the number of Liberals, whose steps were all directed to a hall in the third story on Main Street, some of the Peoples' party went along and found the hall occupied by a number of persons who were paying up some donations or assessments or something of the kind, among those present were the county registrar and his deputies, one of the latter perceiving a few of the Peoples' party present, suggested the appointment of a sergeant-at-arms and the calling of the roll, and the exclusion of all who were not members, this was done promptly and those who did not answer to the roll call were invited down and out. This, of course, was all right, but what right had the registrar and his deputies to register those present after excluding the people. Some of those present stated last evening that they went there to be registered and were registered. Is this open and above board, or is it a part of a conspiracy to place names on the registration lists that don't belong there? Some of the more indecent of the opposition party state openly that they expect to lose the election of Delegate, but by the methods indicated and some others I may write about at some future time, they expect to register enough names to carry the city election next February, and the party are very much in the condition of the boy who was watching for the woodchuck. They have got to have it for they are out of funds.

FROM "THE TIMES."

Editors Times:—The veterinary department in your valuable paper is always read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing sprains and splints with Kendall's Spavin Cure, and his allusion to using it now in his practice for several human ailments on account of the success he has always had with it. The above statements from so prominent a Physician gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk at times, I procured a bottle and as it has completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflicted in body, that you continue to make known to the world, the great value of Kendall's Spavin Cure for both man as well as beast.

Respectfully yours,

ARNOLD PARKER.
