D. B. HILL NOMINATED.

New York Democratic State Convention.

BUFFALO, N. Y., Sept. 12.

Governor Raines of Monroe was made temporary chairman. After the appointment of the usual committee a recess was taken till evening.

Upon reassembling this morning D Cady Herrick of Albany, was made permanent chairman. After a short speech by Mr. Herrick, the committee on resolutions presented the platform.

The first plank endorses the candidates and the platform of the St. Louis convention and Cleveland's letter of acceptance.

The second plank hails with patriotic satisfaction the bold, aggressive, and statesmanlike message of President Cleveland on the fisheries, advocating the rights and proclaiming anew the dignity of American citizenship.

The third plank commends the efforts of the president to enforce the laws relative to imported contract labor, and recommends a thorough revision of the laws so as to exclude criminals and paupers from abroad. The Chinese bill is endorsed, and its approval by the Senate is demanded.

The fourth plank says: "We maintain that the combinations of capital commonly called trusts are conspiracies which limit the production, fix the price of commodities regardless of the cost of production and reduce wages, crush out the smaller independent dealers and strangle competition. These conspiracies are not private affairs. They are matters of general governmental concern. We demand the legislature to prevent such combinations."

The tenth plank extends to Parnell and Gladstone the moral support of the party and the last plank endorses Governor Hill's administration, and congratulates the democracy upon the bright prospects of national party success.

After the adoption of the platform Daniel Lockwood made a speech which closed with the renomination of Governor Hill.

When Lockwood mentioned the name of David B. Hill the audience and delegates rose to their feet and cheered wildly, waving their hats, bandanas and flags.

When Lockwood could make himself heard, he moved that the nomination of David B. Hill for governor be made by acclamation. He gave way, however, to permit District Attorney J. R. Fellows and General Roger A. Pryor a New York to second the nomination.

The nomination was then declared unanimous and there was a sound of wild applause and a scene of frantic delight.

Lieutenant-Governor Jones was renominated by acclamation. Clinton Gray was named for judge of the court of appeals, and the convention adjourned.

Freight Organization.

CHICAGO, Sept. 12.—The general managers of the western roads today succeeded in reorganizing the Western, Northwestern and Southwestern roads under the general name of the Western Freight Association. One form of agreement applies to the whole of this territory, but the association was divided into three sections, J. W. Midgley being elected chairman of the Southwestern division and J. W. Faithern chairman or the Western and Northwestern. On all matters effecting two or three more divisions, the two chairmen are to act jointly, and they are also to exercise a joint supervision over Colorado, Utah and the Pacific Coast business. The Southwestern Association is strengthened by the addition of the three new lines, Chicago, Santa Fe & California, the Chicago, Milwaukee & St. Paul, and the Kansas City, Fort Scott & Memphis. The first action of the Southwestern lines after organizing was to agree upon the restoration of all rates, to take effect Sept. 23. The Western and Northwestern lines will meet tomorrow to canvass the rates.

Bay State Republicans.

BOSTON, Sept. 12.—The republican state convention was called to order shortly after 11 o'clock by Chairman Burden, to nominate a state ticket. The present officers except the state treasurer will probably be renominated.

The usual committees were appointed. The committee on permanent organization reported the name of Hon. John D. Long for permanent chairman and he was chosen. The platform reaffirms fealty to republican principles and eulogizes the party as "a monument of sound, conservative, judicious statements." It insists upon that protective policy which shall keep the American market for Americans and prevent the wages of her workmen from being degraded by the competition of the pauper or the slave, below the standard which shall enable them to enjoy the comfort and leisure which are becoming essential to American citizenship, declares at length against the evils of undervaluation on imports as destructive of the American system of protection; favors a return to specific duties whenever practicable; asserts "it is notorious that the treasury of the democratic party is largely replenished from the profits of the liquor saloon and the counsels of that party largely directed by it and that the active working forces of the democratic party are made up of men connected with it, while the influence of the church and home to which the republican party looks for support, is resisted by it." It again favors the submission of a constitutional prohibitory amendment to a vote of the people of the state. It contrasts the "brave foreign policy of the republican party, inspired by the unbending Americanism which compelled Great Britain to cease giving aid to the rebellion, apologize for her wrong doing and make compensation as defendant; which required Louis Napoleon to evacuate Mexico and compelled nearly every first-class power of Europe to renounce the old doctrine of perpetual allegiance and let our citizens alone." Contrast such a policy with the timid diplomacy of the present executive." It declares against monopolies and trusts, favors reform of the immigration laws, a generous treatment of ex-Union soldiers, and closes by endorsing the national platform and candidates. Recess till 3 p.m.

Before recess, a ballot for governor was taken. It resulted in the renomination of Governor Ames by a vote of 853 to 289 for W. F. Draper. The result will not be declared till the convention reassembles.

On reassembling, Ames' nomination was made unanimous. George D. Robinson and W. F. Draper were chosen electors-at-large. The other nominations were—for Lieutenant-governor, Hon. J. A. Brackett; secretary of state, Henry R. Pierce; auditor, Chas. R. Ladd; attorney general, A. J. Waterman.

George A. Marder was nominated treasurer and receiver general. He addressed the convention, which then adjourned.

THE FISHERIES CORRESPONDENCE.

It is Sent to the Senate by the President.

WASHINGTON, Sept. 12.—The President today sent to the Senate in response to the resolution calling for copies of all communications which have been addressed by his direction to the government of Great Britain remonstrating against the discrimination against American vessels engaged in the fisheries. With respect to the inquiry so far as it relates to canals the President transmits copies of the correspondence between the Department of State and the United States Consul at Ottawa, between the Department of State and the British Minister, copies of orders of Canadian officials in regard to this subject and of the answer of the Acting Secretary of the Treasury to the Dingley resolution law before the House on July 23 1. On the subject of the correspondence which has taken place with respect to the denial to American fishermen of the right of transportation of fish or other cargoes in bond, the President says:

"No instance of a refusal by the Canadian authorities since July 1, 1885, up to the present time to allow entry at Dominion seaports of American cargoes, other than fish, for transportation in bond across the territory of Canada to the United States, has been made known to the department of state. The case of the fishing steamer *Novelty* involving among other things the refusal on July 1st, 1886, of the right to permit the trans-shipment of fish in bond at Port Pictou, N. S., was duly communicated to Congress in my message of December 6, 1886, a copy of which I have with transmit."

The President says the Senate committee on foreign relations has already been supplied with a list of cases of alleged ill treatment of our fishing vessels in Canadian waters. In answer to the concluding inquiry as to what instances have occurred since March 31, 1887, of wrong to American vessels in the ports of British North America and what steps have been taken in that respect, the President said:

"Soon after the passage of the act the negotiations which had been pending for several months previously progressed actively, and the proposed conference and the presence at this Capitol of the plenipotentiaries of the two governments, out of which the since rejected treaty of February 7, 1888, eventuated, had their natural influence in repressing the causes of complaint in relation to the fisheries. Therefore, since March 7, 1887, no case has been reported to the Department of State wherein complaints was made of unfriendly or unlawful treatment of American fishing vessels on the part of the Canadian authorities, in which reparation was not promptly and satisfactorily obtained by the United States Consul-General at Halifax. A single case of alleged unjust treatment of an American merchant vessel not engaged in fishing, has been reported since March 3, 1887."

DAMAGE BY THE ELEMENTS.

A Mexican Town Submerged—Flood and Cyclone.

CITY OF MEXICO, (via Galveston), Sept 12.—Vera Cruz advices state that no trains were able to leave today. Medellin is completely under water and abandoned. The inhabitants have fled to the hills. The Alvarado Railroad is fully one meter under water, and in some parts even three meters. The inhabitants of Janapa, Medellin, Solidad, and Boca del Rior are without the necessaries of life. Crops near Cataxals and Janapa rivers and their tributaries are totally lost. At El Paso, Solis de Goledad ranch, over 20,000 animals were drowned.

The losses by the late cyclone were at Vera Cruz one French brig, four Mexican schooners and thirty-one lighters. At Chapacoe one schooner went down and three lives were lost. At Hacotalpan thirty-one houses have fallen and telegraph and railway communications are interrupted.

The railway company now propose to put a line of stages on the road between Vera Cruz and this city, as many passengers, including the Selni Italian Opera Company, are at Vera Cruz, awaiting passage to this city.

Yellow Fever.

JACKSONVILLE, Sept. 12.—Twenty-eight new cases were reported today. No deaths have been officially reported, but five are certain. This has been another miserable, rainy, gloomy day. At noon the official reports show 50 cases of fever and 10 deaths. Medical aid and nurses are badly needed.

California Dried Fruit.

SAN FRANCISCO, Sept. 12.—At an adjourned meeting this afternoon of the producers and dealers in dried fruit it was decided to incorporate under the name of the California Dried Fruit Association, with a capital stock of $25,000, divided into 25,000 shares, and admitting to membership both the producers and dealers, with headquarters in California, probably San Francisco, and such agencies in the State and in the east as may be desired.

Patterson for Governor.

DENVER, Sept. 12.—On the reassembling of the democratic convention this morning Hon. T. M. Patterson was nominated governor by acclamation.

Secretary of State, W. R. Erhardt; Auditor, Leopold Myers; Attorney-General, J. M. Abbott; Judges Supreme Court, M. B. Gerry and A. J. Rising; Congressman, Thomas Mason; Presidential Electors, Messrs. Egan C. J. Hughes, Jr., and L. Harm.

The platform endorses all of Cleveland's utterances and is quite lengthy. Adjourned *sine die*.

J. A. Porter, of La Plata, was nominated for Lieutenant Governor, and G. Henderson, of Lake, for State Treasurer.

Encampment Opened.

COLUMBUS, Sept. 12.—After the address of the Commander-in-Chief, Adjutant-General Rusk of Minnesopolis read his report. Judge-Advocate-General Veasy then submitted his report. Comrade John F. Taylor of Philadelphia, then made his report. His financial statement shows a balance on hand of $14,228 24. The contributions to the Grant Monument Fund amount to $3,428.89. An important report, that of the committee on pensions, was submitted to the National Encampment this afternoon. The committee, which was represented by Chairman George S. Merrill, recite their action in regard to national pension legislation and communicate their successes and reverses. The report is very bitter in speaking of the failure of the disability bill.

Milwaukee was chosen as the place for holding the next encampment.

In the afternoon the Grand Army band and children's chorus of 1,500 voices gave a concert in front of the capital building.

In the evening camp fires were burning brightly all over town, speeches were being made at several places, and the sound of cheers could be heard almost constantly in different quarters of the city.

Death of Prof. Proctor.

NEW YORK, Sept. 12.—Professor Richard A. Proctor, the noted astronomer, is reported to be dying of yellow fever in Willard Parker's private hospital in this city.

Prof. Richard A. Proctor died at 7:15 this evening with the black vomit.

Professor Richard A. Proctor, the astronomer and lecturer, died tonight in the Willard Parker private hospital of yellow fever. He had been in the hospital since Tuesday night, but as late as nightfall today the health authorities were reluctant to admit the true character of his ailment. The professor's death, however, was preceded by the characteristic black vomit which set all doubts at rest. Professor Proctor arrived in this city Monday straight from Florida by rail and put up at the Westminister hotel on East Sixteenth Street. He had spent the summer at his place called Oak Lawn Marion County, Florida, and was not known to have been exposed to the disease. There had been no cases in Marion County. He was en route for England, where he was to lecture this fall and winter, and had left his wife and certain members of his family in Florida. He had engaged passage by the *Umbria* for Saturday He complained of feeling unwell, and it soon became apparent that the professor was very sick and the health officer was called in. He had a jaundiced appearance and his recent arrival from Florida made the case suspicious. He was removed to Willard Parker's hospital last evening where everything possible was done for him. This morning a relapse set in and the trouble was complicated by the appearance of symptoms of Bright's disease. At 7:55 p. m. death occurred, preceded by slight convulsions and the black vomit of yellow fever.

Princeton, N. J., Sept. 12.—The new administration of Princeton College was begun auspiciously this afternoon. Three United States Senators, Gray, of Delaware, Dolph, of Oregon, and Spooner, of Wisconsin, each has a son entering the college.

A WOMAN'S DISCOVERY.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at A. C. Smith & Co.'s Drug Store. (3)

The Verdict Unanimous.

W. D Sult, Druggist, Bippus, Ind. testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at A. C. Smith & Co.'s Drug Store. (3)

I take great pleasure in commending to those afflicted with that terrible disease known as the catarrh that most excellent specific known as Wilhelm's Nasaline. I have used it myself with most beneficial results. Its use must shortly establish its great value. JAS. B. BELFORD.

From a prominent Denver lady:

IDEAL BROILING.

Broiling can be done in the oven of the Charter Oak Range or Stove with the Wire Gauze Oven Door, more perfectly than over the live coals.

Lay the steak, chops, ham or fish on a wire broiler or meat rack, placing it in an ordinary bake pan to catch the drippings.

Allow it to remain in the oven with the door closed 15 or 20 minutes. No turning is required. At the end of this time it will be found nicely cooked ready to serve.

THIS IS THE IDEAL WAY TO BROIL MEATS.

There is no taint of coal-gas or smoke, and the meats are more tender and better in flavor than those broiled over the coals. The convenience of broiling in the oven will be appreciated by every housekeeper, and adds another to the many reasons why the Charter Oak Range or Stove with the Wire Gauze Oven Door should be preferred to all others now in the market.
