

at the residence of Francis D. Carley. Besides the President's party a number of distinguished visitors attended, among them General and Mrs. Sheridan, Col. and Mrs. Sheridan, President C. C. Baldwin, of the Louisville & Nashville Road, Senator Bayard and Mr. G. H. Green, of New York. In the absence of Mrs. Carley, who was detained at her summer residence at Newport, a number of the most prominent and beautiful ladies assisted Mr. Carley in receiving his guests.

Following is the programme for the morrow: The President and his escort will reach the Exposition building at 12 o'clock, where they will be received by the president and directors of the Exposition company. An address of welcome will be delivered by the Mayor of Louisville. The President will be presented to the audience by the Governor of Kentucky. The President will respond and at the conclusion of his address will set all the machinery in motion by a silken cord on the throttle valves of the engine.

The night attraction will be of an unusual character. The vast building with its annexes and park will be illuminated by thousands of electric lights, making a brilliant spectacle. This event is looked forward to with great interest, not only by a curious crowd but by the scientific world. It is on a scale never before attempted.

The music features on the opening day will bring crowds from all the surrounding country. The Seventh Regiment Band, a grand organ built for the occasion, and a chorus of 500 voices, finely drilled, will together furnish music of the highest character.

HOT SPRINGS, Ark., 31.—In the affray with outlaws on Sunday last, previously mentioned, the officers and posse were led into the ambush by John Coker, a farmer and a friend of the desperadoes. The survivors of the posse took Coker and hung him last night. To-day 15 men left in pursuit of the outlaws. They divided, one party headed by Deputy Sheriff Pritchard, the other by Chief of Police Taler. It is learned to-night that the fugitives are near Cedar Glades, Montgomery county, with the pursuers close behind.

Newark, N. J., 31.—John Brixins, Jr., shot his uncle, John Brixins, Sr., of 27 Malvern Street, this evening, and then committed suicide by shooting and drowning. Brixins boarded with his uncle, but for some time did not pay his board. He was ordered to leave the house. This evening young Brixins, aged about 20, met his uncle on the street in front of the latter's residence, and drawing a pistol shot him in the head. A cry of murder was raised, and young Brixins fled. He ran to the Salt Meadows, when reaching a clay pit he fired two bullets into his head and jumped into the water. His body was soon recovered. The wounds in his head were sufficient to cause death. Brixins, Sr., is not seriously injured.

Winnipeg, 31.—The conflict between the Manitoba and Ontario governments continues. Premier Norquay, ex-Judge Miller, the chief constable and posse went to Rat Portage and caused the arrest of the Ontario special policemen who released certain prisoners from the Manitoba jail; also, Montgomery, who escaped. They are charged with selling the prisoners liquor. They went after midnight last night with a caboose and engine to the place of operation, where they awaited the regular train for Winnipeg, and arrived here last night. The prisoners were shackled and taken to the provincial jail. It is stated an application will be made for their release under *habeas corpus*, which will raise the question of the jurisdiction of the Manitoba government.

Boston, 31.—Some uneasiness exists this morning in anticipation of other failures which might follow yesterday's suspensions, but none were announced except that of Macomber & Greenwood, and there is a feeling that the worst is over. Members of two of the largest firms affected by the Shaw failure express the opinion that they will come out without trouble. It will be some days and perhaps weeks before a detailed statement of Shaw & Bro.'s condition can be prepared. Their property covers an immense territory, is in so many forms that it must necessarily be a long time before an account of stock can be taken.

Liabilities of Macomber & Greenwood, failed, are placed between \$100,000 and \$150,000. Their factories are at Marblehead and Mil-

ford. The report of the failure of C. H. Ward & Co. is untrue.

Limn, via Galveston, 31.—To-day's newspapers publish the full particulars from Capt. Swartz of the killed and wounded at Huamcacho, giving the names, which are very numerous, and include General Silva and Colonel Antonio. Prado is again mentioned among the killed. Colonel Leonelli Prado, who was wounded, is said to have committed suicide on learning that Caceres was defeated.

Boston, 30.—A special dispatch to the Post from the managers of 28 leading clearing houses in the United States gives clearances for the week ending July 28th, and percentage of increase or decrease compared with the corresponding week last year, \$825,503,708; decrease 31 4 On side of New York, \$235,889,283; decrease, 5.40. The exhibit is the most unfavorable one we have recorded for many a day. It is unfavorable not only as compared with last week, but with the corresponding week last year.

The Journal says F Shaw & Bros, the largest tanners in the world, made an assignment to-day to F. A. Wyman. Total liabilities cannot be given, but total assets are given at \$5,000. They are creditors of C. W. Copeland & Co. to the amount of \$200,000.

The Journal says Stedman & Co., shoe dealers, of New York, have suspended connection with Copeland & Co., of which house they are a branch. It is also announced here that W. N. Tolar & Co., shoe dealers, of Baltimore, have suspended its connection with Copeland. This failure, and that of Hoffmeister & Son, of Norfolk, Va., are in trouble from the same cause.

The principal factory of Copeland & Co., at Natick, was attached to-night by Field, Bolevard & Field, whose claim is \$250,000, and shut down indefinitely. The shop employs 130 hands, and turns out 1,200 pairs of boots and brogans daily.

The Herald places the liabilities of Copeland & Co. at \$1,500,000, of which about \$1,000,000 is direct, and \$500,000 contingent indebtedness.

The liabilities as stated by authority of the counsel for the firm are \$3,500,000; nominal assets, \$5,000,000. The assets include tanneries in Northern Maine, New York State, New Brunswick and Quebec, and one and a half million acres of land in Maine.

From 10,000 to 15,000 people were employed by the concern. The immediate cause of their failure was the suspension of Copeland & Co., who owe Shaw Bros. \$400,000.

The failure can be traced to the suspension of the Pacific Bank a year ago. Shaw Brothers, at the time the bank collapsed, held a number of shoe and leather firms above water. They have been carrying these firms ever since the Pacific Bank failure, and the firms will probably be heard from within a few days.

The creditors of Shaw Bros. are chiefly Maine, Boston and New York banks. Some of the largest hide and leather houses in this city, and tanneries of the firm, will be kept running to work up the stock, which is six months behind on orders.

CHICAGO, 1.—A large representation of the sporting fraternity took hacks at 3 o'clock this morning to witness a prize fight between two ambitious hitters named O'Connor and McCune. The ring was pitched 16 miles from the city. The mill was brought to a sudden termination by O'Connor getting a fall in the first round, by which his arm was broken. The police of this city pursued the party in patrol wagons but arrived on the scene after the departure of the contestants and spectators.

It is stated this morning, as a result of the strike of workmen in the rolling mills of South Chicago, where 1,500 men are usually employed, the management has decided to shut down for an indefinite period.

President Arthur and party are expected to arrive here to-morrow forenoon. A company of citizens will meet the President's party outside the city and a reception be tendered the President at the rooms of the Union League Club in the evening, and the brigade of State troops will serve as an escort from the railway depot to the hotel on the arrival of the President.

NEW BRUNSWICK, N. J., 8.—Levi D Jarrard, missing ex-postmaster and defaulting county collector for \$39,000, was captured at Niagara Falls, Ont., yesterday.

Detroit, 1.—At Bay City this morning the bodies of five dead in-

ants were found in a privy vault in the rear of McCormick block. The matter will be thoroughly investigated.

Troy, 1.—The Troy and Boston freight trains collided this morning at Pawnat, Vermont. The locomotive and trains were wrecked. It is reported six men were killed, all employees; one named Sullivan of this city, another named Barrett. The wreck is on fire.

The names of the persons killed in the Pawnat collision are Mark Sutherland and Charles Martin, engineers, Troy; John Barrett, conductor, Troy; H. H. Bruce, operator on the Troy and Greenfield Railroad, State Line. Twelve cars are burned. Engines have been sent to the scene from this city and Hoosic Falls. Johnson, night operator at Petersburg Junction, is blamed for the collision. He had been given orders to hold one train at the Junction, and neglected to transfer his instructions to the day operator, who in his ignorance allowed the train to pass.

Bridgeport, 1.—The Dexter hat factory, Danbury, Conn., burned last evening, with contents. Loss nearly \$100,000; partly insured.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porus plasters, was awarded to the manufacturers of BENSON'S CAPSINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.
J. H. THOMPSON, A.M., M.D., Washington, D.C.
C. B. WHITE, M.D., New Orleans.

ERNEST FLEISCH, M.D., Austria.
The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow-acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputation did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physicians of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capsine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned. Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPSINE cut in the middle.
