The Pacific Mail Steamship Co , and the Freight Rutes.

NEW YORK, 4 .- The World says: A large shareholder and prominent director of the Pacific Mail Steamship Company, said, yesterday, after consultation with the lawyer of the company, it had been decided that there does not exist any binding contract with the Union Pacific Railroad. The reason assigned is that the form of agree-ment which was drawn up, by which it was intended to establish in Herzegovina and the assassinapro-rate rates and limit the number | tion of Governor Mostar. of steamers to be dispatched by the steamship company, was never legally ratified and sealed.

Henry Hart said the company had not received any official notification of advance in freights made by the Union Pacific Railroad. He ought not to be compelled to conform to the increased schedule. For that reason a circular, he said had been issued to merchants that been issued to merchants that the compelled to conform to the increased schedule. For day, and were dangerously wounded. The captain fired upon the mutineers, who jumped overboard. also contended that the company and shippers, and saying that freight would be taken at the old ruling rate of \$5 per 100 pounds. There has been nearly a sufficient amount of engagements already made on that basis, for the next gard to the negotiations at Kissin-steamer, to give her a full cargo. It was also the intention of the company, Hart said, to grant fa-unlimited control of the clerical vorable concessions to large ship-pers. If contracts were made for large shipments, or if merchants

Bismarck and the Nuncto. were willing to engage to ship all their goods by the Pacific Mail steamship line, prompt connection with the Panama Railroad would be guaranteed and reduced rates would be made. Hart also added, when connection between the companies and railroad is formally scured on the 1st of September, the Pacific Mail Steamship Company will be run on an independent basis and entirely in the interest

of eastern merchants.
