

CHILDREN MIGHT HAVE BEEN KILLED

Ten Little Tots Narrowly Escape
Serious Injury in a
Runaway.

WERE KINDERGARTEN CHILDREN

That They Were Not Hurt is Due to
The Heroic Efforts of
Emil Mills.

There was an exciting runaway on Second South street which endangered the lives of 10 little children. That they escaped injury seems providential, for no one was hurt. A two horse surrey from Fox's livery stable, driven down to the kindergarten on Second South near State street, a party of little children from as far away as Tenth East street, and a boy of 14 held the reins this morning. While the sleigh was crossing Sixth East street, the horses became frightened and unmanageable and started on the run down street. The boy drove was unable to handle them, but managed to guide them so as to avoid collisions with poles and other teams.

Singularly enough the children remained tractable, and no one tried to jump. When Captain Commander Emil Mills of the kindergarten, who was standing on the north sidewalk, ran across the street and grabbed the bridle of the nearest of the runaway horses. He held on "like grim death" for a couple of hundred feet, when the horses were brought to a standstill. Mr. Mills was trampled on by the horse, and finally was thrown down and run over, dislocating his left elbow, and tearing his clothes, to say nothing of sustaining quite an array of abrasions and bruises.

A crowd quickly surrounded the horses, which were held fast, and the children taken out onto the sidewalk, and cared for until they could be conveyed by one of the teachers to the kindergarten school. They did not appear any the worse for their ride. Dr. Kerr restored Mr. Mills' elbow to its proper place, and the heroic patient was heartily congratulated on his achievement.

WELBY GOES EAST.

Successor to Joseph H. Young Passes
Through Eu Route to Denver.

E. A. Welby passed through this city this morning, east bound from California on Rio Grande No. Six, for Denver. He was accompanied by retiring Supt. J. H. Young, and got off at the city station to shake hands with old friends who chanced to be there. Mr. Welby has grown a beard since leaving Salt Lake, and appears quite patriarchal.

HAT IN BABY-BUGGY.

New Scheme Adopted by Female Shop
Lifters Operating Here.

There is a gang of professional shoplifters reported in town and their work is being made manifest in the local dry goods stores. A valuable piume was stolen yesterday afternoon, from a store in the south part of town, and the theft of a costly woman's hat is reported from a prominent establishment by a woman who carried the hat off in a baby carriage. Special watchmen are being placed in the stores to watch for men in light-colored coats and women wearing long cloaks are especially objects of interest to floor walkers.

One woman wearing a black cape and veil was observed yesterday afternoon to drop a spray of artificial feathers on the street. They were unwrapped and she saw them fall but hurried on up the street. A gentleman picked them up and hurried after her to return them. "I think you dropped these," he said. "Oh, not at all; you are mistaken." "But I saw you," insisted the dull witted individual.

The woman who was palpably nervous finally took the feathers, placed them under her cloak and hurried up the street.

Then it was that it dawned on the gentleman that he had been conversing with a real live shop-lifter.

PREST. SCHURMAN COMING.

Will be Here in Good Time for State
Teachers' Institute.

State Supt. of Schools Nelson has received a letter from President J. G. Schurman of Cornell university, stating that he would be here in plenty of time for the State Teachers' association in January. He will deliver two addresses to the teachers and one public address in the Tabernacle, his subject on that occasion being "Principals of American Civilization."

LOWELL CASE DROPPED.

Collector Charged With Embezzlement
Released on His Own Recognizance.

The case of the State vs. Charles W. Lowell, charged with embezzling money from the Studebaker Bros. company, was reopened in Judge Deth's court this morning. Lowell was previously given a preliminary hearing and was held to await the action of the district court, but this morning the case was dropped and Lowell was released on his own recognizance, and the case continued without date. It is believed that the matter has been settled in a manner satisfactory to all, and that the charge will not be pushed against Lowell.

WATSON GETS \$700.

Jury Brings in Verdict Against J. Donnan Reavin and Wife.

The jury in the assault case of Leonard Watson against J. Donnan Reavin and wife, this afternoon returned a verdict in favor of plaintiff for the sum of \$700 actual damages and \$500 exemplary damages.

The preliminary hearing before U. S. Commissioner Twomey, Willmussen would have been released but for the failure of his stories to hang together, and obvious discrepancies between letters which were submitted as evidence and his later assertions.

The grand jury, from present indications, will not file its report tomorrow, as anticipated, but will consume the entire week in examining cases under consideration. An indictment that is awaited with interest is that of the United States against Captain A. A. Smith. His examination was scheduled for this afternoon.

BAIL WAS RAISED.

Court Increases Driscoll's Bonds by
\$1,300 This Afternoon.

J. E. Driscoll, who has been out on bail in the sum of \$200, was arrested again this afternoon by Deputy Sheriff Smith and Sharp upon an order of the court, and his bond was increased to \$1,500. He stands charged with robbery, and the court was of the opinion that the bond fixed at first was too small. C. D. Bash, who was charged of the same crime with Driscoll, was convicted by a jury yesterday afternoon, and was sentenced to the penitentiary for a term of one year.

REVIEWED TROOPS.

Gov. Wells on Official Visit to Fort
Douglas is Honored.

There was a review today of the Fort Douglas garrison, at the post in honor of the official visit of the governor of the state. The troops made a fine appearance, and his excellency complimented Col. Lockwood on the maneuvers of the regimental and battery commands. A reception followed at the quarters of the officer commanding the post.

NEGOTIATIONS BROKEN OFF.

For a Commercial Treaty Be-
tween Germany and Austria.

Berlin, Nov. 30.—The negotiations for a commercial treaty between Germany and Austria-Hungary have been broken off completely, and in the present mood of the German government they will not be resumed unless the initiative comes from Austria-Hungary. Interior Secy. Count von Posadowski-Wehner, who has been conducting the negotiations at the Austrian capital for the last four weeks, returns here today. The semi-official newspapers are expected over what is defined here as "Austro-Hungarian obstinacy," and threats are made to denounce the existing treaty and open tariff hostilities as a means of showing Austria-Hungary that reciprocity is better than a tariff war.

"I was taken with an itching on my arms which proved very disagreeable. I concluded it was salt rheum and bought a bottle of Hood's Sarsaparilla. In two days after I began taking it I felt better and it was not long before I was cured. Has never had any skin disease since." Mrs. Ida E. Ward, Cove Point, Md.

"I was suffering from eczema and could not rest day or night. I had seen Hood's Sarsaparilla advertised in the papers and began taking it. Soon I could rest better, the dyspeptic trouble from which I had suffered was relieved and now I am cured and feel as young as I did twenty years ago." M. D. L. GREAT REJOICING AT TELLURIDE.

Mine Owners and Union Miners
Delighted Over Action of San
Juan Miners' Association.

LONG BITTER STRIKE ENDED.

Moyer Says It Was Called Off Be-
cause Issues Involved Were Con-
ceded by Operators.

Telluride, Colo., Nov. 30.—Both mine owners and union miners are rejoicing over the action of the San Juan district miners' association, in session at Ouray, ending the strike in this district which was called Sept. 1, 1903. President Charles H. Moyer of the Western Federation of Miners, who was imprisoned here for several months last summer during military occupation of the camp, has made the following statement concerning the action of the miners' association which was taken in accordance with his advice:

"We have called the strike off because we take the position that the issues involved have been conceded by the mine owners and operators in this district in that they recently posted notices to the effect that on Dec. 1 they would grant an eight-hour work day both for their mills and their smelters, and a minimum wage scale of \$3 a day. These were the demands we made over a year ago."

"We have had no conference with either the mine owners or mine operators and have no knowledge of what position they are going to take regarding the union. But the fact that they have granted our demands indicates that they will ask no questions, and neither will we ask any questions, and I believe that within 60 days every mine and mill at Telluride and Ouray will be running to their full capacity with the best known in the west employed."

"During the past 10 days the Telluride Citizens' Alliance has deported six or eight of our men, but I do not believe the mine owners of Telluride had anything to do with this deportation. I believe the mine owners are inclined to treat us fairly and to meet us half way and I believe that public sentiment will demand that the Citizens' Alliance keep out of the question entirely."

"What do you think will be the result of the action on the Cripple Creek situation?" Mr. Moyer was asked.

"I believe a change will occur in 60 days that will be for the betterment of the Cripple Creek situation," he replied. "The strike may not be settled entirely in the time but I am sure a large number of men will be at work than at present."

DAILY GRAIN LETTER.

Messrs. Logan-Bryan of Chicago telegraph their local correspondents, James A. Pollock & Co., over their private wire on the grain and provision situation, as follows:

Chicago, Nov. 30.—Wheat—Market 14c higher. Five boat loads reported late in the day. There has been a cash wheat sold in this market. Kansas City reports small lots of three hard 56 pound wheat sold there at 5 1/2c. Minneapolis. Southwest cash markets 1/2c higher. Minneapolis stocks increase \$34.00. Minneapolis stocks are expected to show an increase of a million for the week. Broomfield cables that Argentine harvest is threatened by unsettled weather in province of Santa Fe and Cordoba. Several private cables state weather west and threatened serious damage to wheat crop in northern part of country. Market showed some little hesitation after the opening influenced largely by easier tone of Liverpool cables value given the impression of more favorable regarding Argentine conditions. The decline the previous two days had been sharp and the trade found itself over sold and market in good position to respond sharply to the cables received later in the day. There has been an urgent short covering and some little buying for long account on the theory damage being done to Argentine crop. We continue to feel this is the factor and likely to rule for some little time.

The semi-official newspapers are expected over what is defined here as "Austro-Hungarian obstinacy," and threats are made to denounce the existing treaty and open tariff hostilities as a means of showing Austria-Hungary that reciprocity is better than a tariff war.

Corn—Market has been fairly active but in a narrow range. Tonnage boat loads reported late at seaboard and 265,000 cash sales reported in this market. Some little commission house buying developed in the May option which carried market back to its former level but trade is purely local and almost entirely professional. In view of the cash situation at the large short interest existing in this market we continue to feel purchases of May corn on set backs will bring moderate profits for the time being.

SENATOR BURTON'S CASE.

U. S. Supreme Court Listens to
Arguments in It.

Washington, Nov. 30.—The supreme court today heard arguments in the case of Senator J. R. Burton of Kansas, who appealed from the judgment of the district court for the eastern district of Missouri. Senator Burton was tried on a charge of receiving a bribe from parties for representing them before the postoffice department alleged to be contrary to section 1782 of the revised statutes. The lower court sentenced him to pay a fine of \$2,500 and to imprisonment for six months. The attorneys for Senator Burton entered a general denial of guilt and submitted an extended brief in support of their contentions that the court below erred in not directing a verdict of not guilty. Senator Burton was in court during the argument.

Senator Long and Commissioner Ware, both of Kansas, also were present during the argument. Judge John F. Dillon, senior counsel for Senator Burton, opened the argument. He stated that he would not make the defense upon any technical grounds but on its merits and on constitutional grounds. He declared that the only charge made in the indictment was that of receiving a bribe and the jury was not allowed to pass upon it. He also stated that the Missouri court had no jurisdiction as the alleged offense was committed in Washington.

FIRE IN A HOSPITAL.

Breaks Out in St. Mary's at
Pueblo, Colo.

Pueblo, Colo., Nov. 30.—Fire broke out in St. Mary's hospital, the largest in this city, at about 1:30 this afternoon. A high wind is blowing and it is thought the building will be a total loss. There are many patients there, the capacity being estimated at 300. They are being taken out by the firemen. It is not known if any lives are lost.

SENATOR COCKRELL.

Calls on President and Has a
Long Talk.

Washington, Nov. 30.—Senator Cockrell of Missouri, who arrived in Washington last night from his home, called today on President Roosevelt and had an extended conference with him. It was the first time the president and Senator Cockrell had met since the election. When it became evident that the result of the election in Missouri would result in the retirement from the senate of Mr. Cockrell the president let it be understood that he would offer to him a federal appointment commensurate with his ability, knowledge of public affairs, wide experience and high character. At the conference today the president informed Senator Cockrell that he would appoint him as member either of the isthmian canal commission or of the inter-state commerce commission as the senator might elect. Senator Cockrell did not indicate to the president what he might do regarding the proffer and said to friends after the conference that he would not announce his decision perhaps for several weeks and it was not necessary that he should do so immediately.

GEN. JOHN M. WILSON.

W. Gallacher is the senior member, would represent his concern here. The Nelson Morris company is building a \$1,000,000 plant at Kansas City.

The glass for the windows in the federal building has arrived, and will be put in place immediately, so that the contractor can be warmed, as the contractor however, fears a delay in the arrival of the Vermont marble for the wall-scutting and other decoration, owing to the pressure of orders at the quarries. He says there is only one lot of Vermont marble to be found. The Tennessee and Georgia marbles are too soft, although of a fine quality, and are used mostly for toilet room work. In the far west, as in Colorado and Utah, quarrying for marble is a good deal of a thing for gold, one may find it, and one may not—it just depends. The volcanic action in the far west seems to have been very severe, and has left cracked and broken up what otherwise would have been fine marble deposits.

No Troops on Afghan Frontier.

St. Petersburg, Nov. 30.—The statement that Russian troops are concentrating on the Afghan frontier is denied. Nevertheless it is undoubtedly true that Russia is watching with some misgivings the British plans for the reorganization and increase of the Indian army and the dispatch of a detachment to Persia. Coming on the heels of the Tibetan expedition these moves naturally create the suspicion that Great Britain is taking advantage of Russia's pre-occupation in the far east to strengthen her position on the Indian frontier of Persia.
