

ENCOURAGING.—It is very encouraging to find that our labors in connection with the EVENING NEWS, and our efforts to give satisfaction, meet with so general approval as we hear expressed, and which manifests itself in the mere substantial form of a very rapidly increasing subscription list. We will endeavor to make the paper still more attractive to its readers and to the general public.

**HATCHING OUT.**—Bro. W. R. Atkins brought us a number of young grasshoppers, or locusts, this forenoon, as evidence that the eggs deposited in the early part of Fall are hatching out. He informs us that he has seen large quantities of them, many from the sixteenth to the fourth of an inch in size, and some of them capable of "hopping" a foot at a leap. We have heard before of these destructive insects hatching out on the bench and in other places about the city. The exceedingly mild, not to say warm, weather that we are having, is undoubtedly the cause of this blessing, for blessing it assuredly is if they hatch out sufficiently early to be winter-killed when severe weather which has been exhibited by the people lately, in their willingness to aid in gathering home the poor Saints during the coming year, in hauling rock for the Temple, and in other ways, lead us to look for the expected scourge which many believed we would experience next season, through the voracity of these insects, to be averted. Should the Lord be pleased, in His mercy, to do so, the heart that would not be stirred with thankfulness and gratitude to Heaven would be indeed unappreciative and ingrate.

Every Certificate will be numbered, and as only 5,000 will be issued, every purchaser will know by the number of his Certificate how the Enterprise is progressing.

It is to be understood that there is no limit to the number of Certificates to be issued to any one purchaser, thus offering to all the opportunity of getting as many shares or chances in the drawing as they choose; the only condition being that Ten Dollars' worth of Goods is to be purchased for each share.

The advantages to be derived by this Enterprise are so apparent that it is confidently expected that all the Certificates will be secured by April, 1868.

It must be evident to all that this is not a Lottery, nor an ordinary Gift Enterprise, for the reason that our Customers get such Goods as they choose, at the Lowest Market Rates, obtaining the full value of their money at the time of purchasing, with the chance of drawing a Handsome Prize in the bargain. Our compensation arising from the greater quantity of Goods sold within a given period.

Disinterested men well established in the confidence of the people will be secured to conduct the drawing, which will be done on a perfectly equitable plan.

Ample notice will be given in the newspapers of the time and mode of drawing.

Finally, we pledge ourselves to faithfully fulfill all the above named conditions.

Goods on the above named favorable terms can be obtained at
