## FOUR ARE DEAD, FIFTY WOUNDED

The Result of a Battle Between Japanese and Mexicans.

IT RAGED FOR FIVE DAYS.

Degarred on the Santa Fe on Desert Between Barstow and Victorville -It is Not Yet Over.

New York, July 11 .- A bloody battle between 150 Japanese and the same number of Mexicans has been raging five days on the desert between Barstow and Victorville, according to a Tribune dispatch from Los Angeles. Cal. Four are reported dead and about 50 wounded, and the end of the struggle is not in sight. The combatants are all employed by the Santa Fe railroad, laying new rails, and the company has been forced to suspend operations in that section.

The Japanese and the Mexicans had been working peaceably side by side for some time, but on Monday a Japanese made an insulting remark about a Mexican and the fight began.

When the two workmen came to

blows, sides were quickly formed and lines drawn. Tools used in road-building and boulders from the bottom of the Mojave river were the weapons and in a few minutes many heads were cracked. The Japanese were finally driven across the river amid showers of stones, almost as effective as bullets, their leader remaining in the front to the last. Both sides entrenched behind piles of sand and many sallies have been made since. The attacking force has invariably been repulsed. Two men were killed Friday, when the Japanese earthworks were stormed by the Mexicans. The foreman is making every effort to patch up a truce, but the men seem determined to fight while any are left, and it may be necessary to call out the state troops to quell the

### A MURDER MYSTERY. San Francisco Police Are Now Confronted by One.

San Francisco, July 10.-The police are tonight confronted with a murder case that is shrouded in absolute mystery. The body of a man was found or the streets in an outlying residence dis-trict and when removed to the morgue a superficial examinaton decloseed a punctured knife wound in the neck.

The wound had been profited to the neck. The wound had been inflicted with a small knife, and in itself was not sufficient to have caused death, The autopsy surgeon made closer in-spection and found that the skull had

been fractured and the vertebrae at the neek broken. The surgeon declares that the man could not have walked two feet after having received his injury and that he had evidently been murdered. The man was identified as Joseph Hausel, a German brewer, who came to this city two days ago from Vallejo. He had previously lived at 718 Clara street, Los Angeles, and prior to that time had been in Scattle. He was about 35 years

Premier Zanardelli Kept Posted on Every Phase of Sickness.

ASSURES A FREE CONCLAVE

King Victor Emmanael Postpones His Contemplated Visit to France Recause of Leo's State.

Rome, July 10 .- The Italian government follows the fluctuations of Pope Leo's condition with deep interest. Premier Zanardelli is kept constantly advised of every stage of the sickness. Immediately after yesterday's confer ence Prof. Rossoni called on the premier and made a statement regarding the condition of the pope. He again infermed the premier on this morning's conference.

Regarding questions put to him Seno Zanardelli has expressed his personal feeling regarding the pontiff. He added: "My duty is to assure, not only in the interest of Italy, but of all Europe, the most absolute liberty to the approaching conclave, and the fullest assurance may be entertained that this Rberty will be given."

Pope Leo has manifested great interest in the intended visit of King Victor Emmanuel to Paris next week. Today he made inquiries regarding the plans for the trip, but the person interrogated

was unable to reply.

The Tribuna, the semi-official organ of the government, says tonight: "In view of the condition of the pope, which occasions deep suspense throughout the Catholic world, the visit of King Victor Emmanuel, to Essence they have been supposed. Emmanuel to France has been post poned until next September by a com mon accord between the French and Italian governments."

The kindergarten department dis-cussed the topic of "The Children and the Community," with Wilson Gilder of New York, editor of the Century Mag-The report has reached here from Ber in that Emperor William has expressed an intention of attending the pope's funeral. As the French papers have commented on this news, saying that the emperor's action would offend the Italians, it may be as well to say that nobody here believes the report. It may be added further that Italy does not look upon the papacy from this point of view as the government, as well as the Italian people, evince their desire to demonstrate to the world that under the present conditions, that is, since 1870, when the temporal power fell, the pope and the vatican have enjoyed com-plete liberty in the exercise of their spiritual offices. For this rason no op-position has ever been raised by the Italian government when foreign rulers ously injured. The men were passing a blast furnace on their way home when the "bosh" blew out, enveloping the men in the flames, hot metal and cinders. Whiteside and the two Aus-

The extraordinary confusion prevailing at the vatican outside the immediate vicinity of the pope's sick room is demonstrated by the remarkable neglect to make even the most ordinary preparations for the interment of Monsignor Volponi, the secretary of the consistory and canon of St. Peter's, who died suddenly yesterday of syncope, Ususally the funeral of so high an ec-Chicago, July 10.—Chicago has passed the two-million mark, and its present population is \_2,231,000, according to the publishers of the Chicago city directory for 1903. event in Rome, but today it was com-

This decision followed his conclusion yesterday to receive in ac-cordance with his rank of cardinals, viz.: cardinal bishops, cardinal deacons and cardinal priests. The last named body had shown considerable irritation at not seeing the pontiff, and at being compelled to get news of his condition through outside channels. Therefore, following Cardinal Rampolla's visit yesterday, the pope decided to receive today one of each of these classes of

HOTTEST JULY 10 ON RECORD

To Escape Great Reat Many Slept on Park Benches and Others on The Grass.

New York, July 10.-Thirty-eight deaths and eighty-three prostrations in and around New York and Brooklyn tell the story of today's heat. It was the hottest July 10 in the history of the local weather bureau, the highest previous record being 91 degrees, recorded July 10, 1880.

The early threat of a temperature that would break all records, however, was not fulfilled. Thursday's record of 94 degrees at 4 o'clock, the high weather mark of the year, was reached today at twenty minutes past I o'clock without signs of relief. But by clock the temperature had fallen two degrees, where it remained during the next two hours.

Fortunately, the humidity was only 45 per cent when the temperature stood at 94, and increased but slowly from that time during the afternoon, as the heat subsided. At 8 o'clock tonight it was 65 per cent, but by that time the temperature had fallen to 86 degrees, six degrees lower than at the same hour Thursday. Between 5 and 7 o'clock the tempera-

ture fell seven degrees following a thunderstorm southeast of the city. The city had been sweltering so long in the hot wave, however, that it was hours before the offices and tenements began to feel the effects of the cooler

In the streets the cooling process was difficult, men, women and children crowding the walks to recover from the heat of the day. Many slept on the park benches, and where the police would permit it, on the grass.

Daniel Lewis, a heat-crazed negro, attacked with a club two girls who were carrying a large piece of ice. A mob quickly gathered and shouted 'Lynch him.'' Lewis was rescued by detectives and sent to a hospital. There was intense heat throughout the state today. At Albany there were many prostrations and one child iled. San Francisco, July 10.-The three recent mysterious wrecks on the North Shore railroad, with the record of death and suffering, are now believed o have been the work of a cold-blooded train wrecker, who may have had accomplices in his terrible work, but whose motives are unknown. It has been learned that within the past two days two unsuccessful attempts have been made to derall trains near where he previous disasters occurred.

Some days ago a freight train run-ning south was brought to a sudden stop on a curve south of Camp Pistol The jar was a heavy one and near, lifted the engine from the rails. The train was proceeding at the time at about one-fourth of its usual speed. and to this fact alone is attributed the averting of a serious wreck. Upon ex. amination it was found that a heavy piece of steel rail had been lashed across and to the rails. It was accu-rately fastened in position by heavy wrappings of stout wire. It was jam-med under the forward truck of the engine and was with diffusion. engine and was with difficulty remo plece of rail was taken to the Sausalite

This attempt was followed by anoth. r yesterday morning. Had it not been for the fact that a handcar passed over the track before the passenger trains reached the point where the wreck was planned, there would have been another disaster. The handcar was thrown from the track and one of the

An investigation disclosed an old drawbar, used for coupling, securely tied inside the rail in such a position as to pass unnoticed, save under close in spection. Had a train passed over i to destruction the piece of iron woul o destruction the piece of iron would ave been twisted and thrown into the debris of the wreck and the cause of the disaster following the striking of he obstruction would never have beer
