

NO MORE "FRATS" IN HIGH SCHOOL

So Says City Education Board.
Approved by Superintendent Christensen.

QUIETUS BY RESOLUTION.

Janitors Assigned to the Various Buildings—Lafayette and Hamilton Lose Kindergarten.

Hereafter there are to be no fraternities among the students of the Salt Lake high school. A decision to that effect has been arrived at by the board of education, with the unqualified approval of Supt. D. H. Christensen, as also that of Principal Eaton of the high school. The following resolution putting the quietus on secret clubs was unanimously adopted at a meeting of the board yesterday:

"Resolved, That membership in any secret club or organization, the nature of which is considered adverse to high school interests, shall be considered cause for suspension, and, in aggravated cases, for expulsion."

TWO LOSE KINDERGARTEN.
Three kindergarten departments will be maintained in the public schools this year, one at the Jackson, one at the Washington and one at the Emerson. The Lafayette loses out in the matter of a kindergarten, as does the Hamilton, both having had the departments heretofore.

JANITORS ASSIGNED.

Clive Bradford has been appointed principal of the Jordan school, and Janitors for the various schools were appointed as follows:

High School—John Sundstrum.
Scientific School—J. B. Wakely.
Bryant—W. J. Tice.
Bonnieville—Peter Ohlin.
Emerson—Rudolph Reusser.
Franklin—Thomas Jones.
Fremont—Charles Fletcher.
Grant—Charles McPhie.
Hamilton—George B. McDonald.
Jordan—Allen Perry.
Lincoln—Thomas Leslie.
Oquirrh—William E. West.
Jackson—William Leatham.
Riverside—J. A. Williamson.
Summer—William Waterfall.
Twelfth—Mary Hill.
Union—A. Newman.
High School Gymnasium—O. Oetler.
Wasatch—J. E. West.
Washington—Joseph Derbridge.
Waterloo—H. Stoker.
Oneida—Leonard Lundstrom.
Board Rooms—Mrs. P. Broman.
Longfellow—A. Dow.
Lakes—Mrs. Middleton.
Grant Annex—William Taylor and W. B. Chapman.
Summer Annex—Mrs. Sainsbury.
W. W. Phillips was elected engineer for the high school and Union school.

"REGULAR AS THE SUN"
Is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by Z. C. M. I. Drug Store, druggists, 25c.

BABY WAS TOO MUCH.
S. T. Vickery, Bachelor, Decides That He Made a Mistake.

The experience of being papa for one is evidently enough for S. T. Vickery, the bachelor who adopted an 8-month-old baby girl last Saturday, and he has decided to give the child to some one who is perhaps better qualified to raise it, and because it needs the care and attention of a woman. Vera Lucille Cowley was the baby's name up to the time she was adopted by Vickery on last Saturday. Her mother deserted her and left her in charge of Vickery, who took the necessary legal steps to change her name to Vera Lucille Vickery.

STATE EDITORS TO MEET.
Utah Press Association to Convene at Press Club on Monday.

At a meeting of the Utah Press association held Monday morning at 10:30 in the rooms of the Salt Lake City Press club, 161 Main street, the following program has been arranged:

Combined Harvester and Thrasher On Utah Arid Farm

Strange as the statement may seem, the progress of civilization, in an agricultural line at least, is advancing from west to east, and the crest of the civilization wave has recently struck Utah in the shape of a combined steam harvester and thrasher which will take the standing grain from a hundred acres and put the threshed grain in bags in one ordinary working day. That phenomenal achievement is being accomplished by the Utah Arid Farm company.

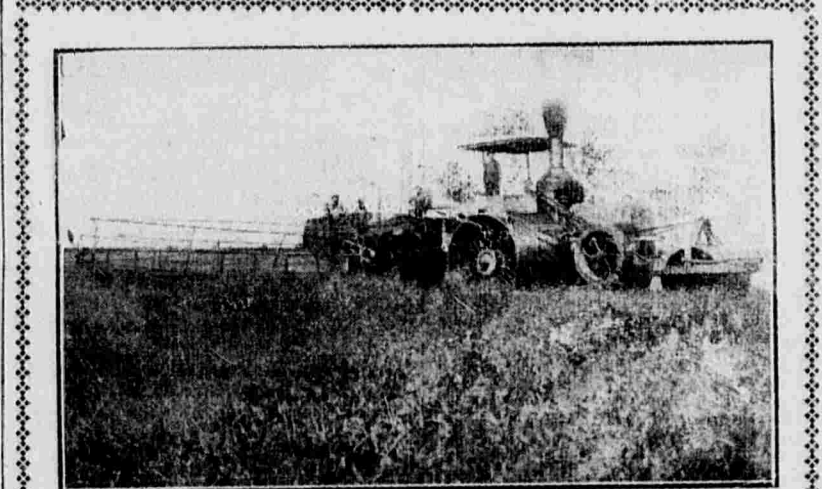

The Combined Harvester and Thrasher viewed at Nephi by a group of Salt Lake, among them Governor John C. Cutler, President Lund, John Henry Smith, Heber J. Grant, Geo. C. Whitmore, B. F. Grant, Joseph Geoghegan and several others; the reduction from the photograph does not make their features visible.

complement is taking place this week in the 1,000 acre patch of dry farm wheat in Junco county owned by the Utah Arid Farm company.

This machine, requiring only seven men to run it, is the only one this side of Lovelock, Nevada, and there are none east of here, the distribution of the great labor saving machines being from the home of everything big, California, into the grain fields of the intermountain country. Notwithstanding the great need for them in the vast grain fields of the Mississippi valley, these combined harvesters and thrashers have not yet been introduced west of the Rocky mountains.

The cost of the machine is about \$5,000, but a large share of this is for a 110 horse power traction engine, which is suitable for other work. In fact before the grain was ready to harvest the Utah Arid Farm company employed the engine to grub sagebrush and clear a large tract of land. Prof. Lewis A. Merrill, the manager of the farm, says he is taking his grain from the field to the sack for fifty cents an acre, while last year with the old methods this work cost seventy-five cents an acre.

With the aid of this monster engine, which has wheels 8 feet high with rims 5 feet wide, Mr. Merrill will clear off the grain and straw will clear off the field.

INTENSE DRY FARMING.

Examples of What Can Be Accomplished Shown by Bonneville Ranch.

Intense dry farming has received a good impetus during the past season, and on the Bonneville ranch, six miles north of Salt Lake, about 4,000 bushels of arid farm wheat were harvested during the past week and a large amount of other grain has been raised during the season on land that has been abandoned for 25 years. Old residents claim that the sight of this farm is a revelation to all who see it.

SALT LAKE GETS CONGRESS.

Dry Farming Convention Will Hold Next Session in This City.

The next dry farming congress will convene in Salt Lake, but the date of holding the same is unknown at this time. The gathering will be subject to the call of the officers of the organization. Salt Lake was chosen as the place for the next meeting at the session held in Denver last year. An impression is prevalent in some quarters that Cheyenne is the city which was named to welcome the delegates when they next again, but the idea is erroneous. The congress may not meet until the last of this year, or even the first of next, but this city will be the scene of its deliberations.

BEGINS BUSINESS OCT. 1.

The Western Pacific will begin regular freight and passenger service Oct. 1, between Salt Lake and Bannock, Nev., where the road intersects the Nevada Northern road. This means a route quicker and shorter to Ely than via the Southern Pacific, and will make that important point more dependent than ever on Salt Lake. It has been found necessary to riprap the nine miles of track along the south shore of the great lake to protect the track from the waves of the sea.

FRUIT VERY SCARCE.

Purchasers Advised to Deal Directly With Producers.

County Horticultural Inspector John P. Sorenson has just returned from inspecting the orchards of the county and especially at Mill Creek, and declares that there will be a great shortage of fruit this year. More than half of the crop has been ruined and the trouble which the farmers are having with the merchants in regard to prices will also figure in the scarcity of fruit as the farmers do not propose to have the dealers dictate the prices. The result will be that a great deal of fruit will be shipped out of the county and that, with the shortage, will mean that Salt Lake people will have a hard time getting fruit and what they do get they will undoubtedly have to pay a very high price for. Mr. Sorenson suggests that the people place their orders for fruit directly with the farmers and let the dealers alone.

ALL HAIL PE-RU-NA.

A Case of STOMACH CATARRH.

Miss Mary O'Brien, 306 Myrtle Ave., Brooklyn, N. Y., writes: "Peruna cured me in five weeks of catarrh of the stomach, after suffering for four years and doctoring without effect. In common with other grateful ones who have been benefited by your discovery, I say, All hail to Peruna."

Mr. H. J. Henneman, Oakland, Neb., writes: "I waited before writing to you about my sickness, catarrh of the stomach, which I had over a year ago."

"There were people who told me it would not stay cured, but I am sure that I am cured, for I do not feel any more ill effects, have a good appetite and am getting fat. So I am, and will say to all, I am cured for good."

"I thank you for your kindness."

"Peruna will be our house medicine hereafter."

Catarrh of the stomach is also known in common parlance as dyspepsia, gas, indigestion and indigestion. No medicine will be of any permanent benefit except it removes the catarrhal condition.

Gained Strength and Flesh.

Miss Julia Butler, R. R. 4, Appleton, Wis., writes she had catarrh of the stomach, causing loss of sleep and appetite, with frequent severe pains after eating. She took Peruna, her appetite returned, she gained strength, flesh and perfect health.
