

LOCAL AND OTHER MATTERS.

THEATRE.—Remember the Theatre to-morrow night. The beautiful new play, "A Bird in the Hand is Worth Two in the Bush," and the farce, "The Married Bachelor," will constitute the entertainment. The first piece will please by its startling situations and intense interest; as for the latter, nobody can see it without laughing.

"DEMOCRAT'S MONTHLY."—The November number of this deservedly popular fashion magazine has come to hand, and we certainly think that it is the handsomest magazine of its kind we have seen. Its fashion plates and illustrations are elegant and numerous, and its reading matter choice and entertaining. It is published at \$3 per year, by Madame Demorest, 838 Broadway, New York City.

DASTARDLY.—A gentleman residing in this city, who is traveling on the Utah Central on Sunday last, called in this morning to inform us that between Centerville and Farmington, but nearer the former the train came in contact with a log lying across the track, over the rail on one side and reaching nearly to the other. This was the case both going from and returning to this city. Fortunately no damage was done, although the risk was great, for the logs were not preserved in time to stop the train. The size of the logs showed that they had not been placed there by a child, and the fact of the same obstruction being encountered both going and returning shows design and malicious intent as plainly as can well be shown. It is a great pity that the perpetrator of such a dastardly deed cannot be discovered; whoever he is, he is a miscreant, and hanging would be none too good for him.

A Good Move.—The authorities of San Francisco have commenced a movement for the detection and punishment of those who deal in and adulterate articles of food; the milk vendors are the first to be looked after. That is an excellent plan, such scoundrels deserve to be rigorously dealt with.

NEW SOUTH WALES.—A letter to President George A. Smith, from Elder Robert Beauchamp, who is laboring in New South Wales, says that he has recovered his health and is again busily engaged in preaching the gospel, and is doing some little good. He expects to send a few saints home to Zion next season, and that it works admirably from the persons and the press.

DENVER THEATRE.—The Denver theatre has been re-opened, Mr. Langrish, proprietor, Geo. B. Waldron, Manager.

THE BIG HORN EXPEDITION.—The latest about this big hunt after new gold diggings, according to the Montana Pick and Flow, is that between the Rosebud and Yellowstone rivers indications of "free" gold were so numerous that a new expedition is to be organized at an early day and the explorations resumed.

A NOVEL INVENTION.—Brother Boaz, of this city, has invented a novel apparatus for killing grasshoppers by steam. The invention appears to be a very ingenious contrivance and if, as he says, it is effective it will undoubtedly prove a great blessing. The machine is very small and can be attached to the waist of the operator who plays upon the pests with the steam, which is ejected from a flexible tube attached to the generator. Brother Boaz is desirous of having his invention patented. He says he tried it last season, and that it works admirably. A child ten years of age can operate it.

SEND THEM ALONG HERE.—An exchange says that Marion county, Alabama, has a surplus of 800 spinners, who have no chance of marrying there.

If some of the benevolent societies, for which the country is so noted, would take their case under consideration, and send them to Utah, it would be a blessing to them and to Marion county; the latter would be relieved of a great amount of misery, and the women would find what they are sighing for,—homes and husbands.

"CURTAILING MORRISON POWER."—The Colorado *Chieftain*, of the 13th Inst., has an article with the above heading, in which it refers to certain official manifestoes recently promulgated here, from which it, in its blissful state of ignorance, urges the "curtailment of Morrison Power," and says this is a step in the way of securing justice to the Gentile population. So far as the first of our contemporaries' propositions is concerned, he may take our word for it, that nobody here is the least "skereed;" and as for justice to the "Gentile population," none of them fear strict justice being administered to them, except a certain class who, like the Irishman on trial for murder when assured by the court that he should have justice, replied "Faith yer Honor, that's all I'm afraid of." If the poor miserable crowd here, who howl and drivel so much about justice and right to the "gentiles," had the least idea that justice was about to be administered to them, they would take their flight between the two first days that offered.

DEIRDEN.—There is a letter at the office of President Brigham Young for Thomas or William Deirden, whose post-office address is not known.

DISTRICT COURT.—An important mining case has been pending for some time, in which Joseph E. Lyon is the plaintiff and J. F. Woodman and others defendants. The case involves the right of possession of the "Emma" silver lode, in Little Cottonwood Canyon. The plaintiffs applied to the court for an injunction to stop the defendants from working the "Emma" until the suit now pending was settled. The injunction was granted by Judge McKean, but, for some reason, he afterwards removed it. The counsel of the plaintiff is arguing for its renewal.

The suit involves half a million dollars.

MUSICAL INSTRUCTION.—Parties desirous of procuring the very best musical instruction, either vocal or instrumental, may do so at once, by applying to Professor G. Careless of the 7th Ward, who, during the winter, will instruct classes, or give instruction to single individuals at his or their residences. Terms moderate, and a great reduction made when classes are formed.

MISSOURI.

R. R. Accident.

St. Louis, 17.—A construction train on the Toledo, Wabash, and Western R. R., having on board about forty laborers, ran over a cow near Venice, Ill., about four miles from here, this evening. The platform was thrown from the track. W. Fitzmorris and Thomas Crane were instantly killed, Lawrence Durkin and W. Conway were fatally injured, and several others were badly wounded.

PENNSYLVANIA.

Election—Explosion.

Philadelphia, 17.—It is officially announced that Merzer, Republican, is elected to the 14th District by 113 majority.

Pittsburg, 17.—At six o'clock to night an explosion occurred, at the Standard oil works in this city, caused by a locomotive spark. Six hundred barrels of refined and two hundred barrels of benzine, with a still house and tanks, were destroyed. Loss fifteen thousand; no insurance. Several persons were thrown from the platform of a passing train by the force of the explosion, but were not seriously hurt.

Philadelphia, 17.—The death of Nolen has caused much excitement. The Mayor issued a warrant for the arrest of Maun who was implicated in the shooting by the dying deposition of Nolen. Maun is absent from the city but has notified the mayor that he will return in time for a hearing this afternoon. In the anticipation that trouble may arise during the coroner's investigation, the mayor has ordered a detail of police from every station in the city, to be on hand at the central station.

LOUISIANA.

Yellow Fever.

New Orleans, 17.—There were eleven deaths from yellow fever yesterday.

FLORIDA.

Hurricane and Flood.

Key West, 17.—A north-east hurricane has prevailed here for five days. The lower streets are inundated. There is communication with the upper section only by boats. The naval vessels are all safe.

NEW YORK.

At a meeting of the Police Commissioners, this afternoon, James J. Kelly, Chief Detective, was appointed Superintendent of Police and Jas. Irving, of the detective force, advanced to the position of Chief Detective.

FOREIGN NEWS.

EGYPT.

Big Explosion.

Alexandria, 17.—Some powder magazines exploded at Cameldirk, one of the suburbs of this city, yesterday afternoon. Fifty persons were killed and wounded; most of them natives, only three Europeans being killed. Several houses near were utterly destroyed.

GREAT BRITAIN.

Bombardment of Paris commenced.

London, 17.—The French troops, near Epinal, on the thirteenth, checked the advance of the Prussians in that direction, in an engagement which lasted three hours.

The capture of Soissons opens a second railroad route to Paris and the Prussians will put it to use at once. The other line only reaches to Maux.

Late advices from South America show that a revolutionary crisis is impending at Montevideo. The government troops have been driven into Rele and the town invested by rebels. Montevideo is distracted by factions.

The Duke of Mecklenburg-Schwerin, reports the capitulation of Soissons with 4,000 French prisoners. The Prussian army was to enter the city on Sunday—yesterday.

The Prussians have evacuated Bagny. They blew up the viaduct there before marching out.

The Prussians are still at Meaux but in small force.

The three opening shots of the Prussian bombardment of Paris were fired from Belleville on Friday, the 11th inst. On the tenth, a bomb, fired from Fort Valerien, fell in the bedroom of Napoleon the First at St. Cloud, destroying the famous mirror.

French flag captured at Metz has been forwarded to King William before Paris, by Prince Frederick Charles.

The French fleet is again assembling off Dunkirk. This fleet, coupled with the unexpected arrival of a squadron in the North Sea, causes the Germans to again remove the lights and restore torpedoes and other obstacles in the Elbe. The squadron in the North Sea is accompanied by flat bottomed boats. The Germans apprehend mischief.

FRANCE.

Lawlessness in France.

Tours, 17.—All departments, within one hundred kilometers of the enemy, have been declared in a state of siege and will be required to organize a military Committee of defence. Esqueres has resigned his office at Marseilles because

Gambetta disapproved of his suspension of the *Gazette de l'Affiche*. Nothing official is yet received from the armies confronting each other near Ferte. A battle is imminent.

A dispatch from New Breisch announces that the garrison made a successful sortie yesterday morning. A thick fog prevailed and the Prussians were surprised. Many were killed and wounded.

Tours, 17.—The Constitutional denunciations as contemptible, the project for a separate federation of the southern departments with Marseilles for the capital, and condemn the provisional Government for not immediately repressing the movement.

Many of the local authorities in the different parts of France are arriving to notify the government of the lawlessness that exists in their respective districts and the difficulty in preserving order.

The French garrison at Wittelsheim, near Breisch, recently proposed to the commandant to surrender. The latter refused.

CUBA.

Slaves liberated—Hurricane and Flood—Immense damage to life and property.

Havana, 16.—Captain General de Rodas has issued an order liberating two thousand and five hundred negroes captured from slaves in the years 1855, 1856 and 1857.

On Friday night there was a severe hurricane in the bay, but slight damage was done, however, to vessels and to property in the city. Trees were prostrated, but no houses, in the country. The grain, cane and other crops were damaged. A hurricane has also occurred at Matanzas, with a most disastrous effect. Communication between that place and Havana was interrupted until to-day.

An extraordinary rise of two rivers inundated the intervening ground where the railway depots were located. Trains of passengers and houses all disappeared. Two thousand persons are said to have been lost. The damage to property was enormous.

Another dispatch from Havana, dated 16th, says the effects of the hurricane upon the Island are much worse than was at first supposed. The disasters at Matanzas are confirmed. No particulars are received. The heavy weather renders communication by sea, between Havana and Matanzas, impossible.

PRUSSIA.

Berlin, 17.—The Commissioners of Wurtemberg and Bavaria leave for Versailles this week to enter upon negotiations for the completion of German unity.

Soissons capitulated on Sunday morning and, at three o'clock in the afternoon, the Grand Duke of Mecklenburg entered the town at the head of the army. The German losses throughout the siege were trifling.

AUSTRIA.

German unity.

Vienna, 17.—The journals here are nearly unanimously in favor of German unity.

WONDERFUL CURE IN OGDEN!

I HEREBY certify that my wife has been afflicted with hip disease for twenty-eight years. The hip joint was stiff and immovable during the above period, very sore and painful. Drs. Roberts and Goss perfectly cured her with two weeks' treatment by Animal Magnetism and the Swedish Movement Cure. I bear this public testimony with the sole hope of benefiting other suffering mortals.
