BREFUTABLE.-We are creditably inrade have called upon others connected with the same line of business and canva-sed among the latter to get them to join in resisting the city ordinance relating to Sunday traffic. We are gratified to learn, however, that there are those who have been solicited and refused to engage in such a diareputable undertaking. The wholesome truth will be harman appear or letter that to fight be learned sooner or later that to fight against existing salutary laws in any country is not a paying or profitable business. We always intend to advocate fair, impartial and strict administration of all wholesome laws. The peace, prosperity and general interests of the community demand this.

tura, Utah, June 15. - The body of algomery, who was lost during some of nevers storms last winter, was found in day. It appears that he had fallen by a we blocks south and three east of Theat slide or otherwise over a cleft of projecting stor, and had wandered around, and at length leaned up against a drift of snow and limbs, and died. He was standing almost erect when found. The body of Morrison has not been found yet. The snow is gring fast, and every thing is appearing lively.

THE GAS SUBLIGHT APPARATUS. -Godey's Lady's Book speaks in high terms of the gas aunlight apparatus, which is the application of a jet of gas over a glass bowl application of a jet of gas over a glass bowl TO ALL WHOM IT MAY CONCERN. Moderate Trinving. - Night before last, some thisf or thieves entered the stable of Mr. Joseph Weiler, in the 4th More Equal Distribution Needed.

The past winter and spring much snow and rain fell, so that there is abundance of water in the creeks and rivers for irrigation. City Creek has been running high and turbulently down North Temple street, and many of the water sects have and are temptible, too small, almost to notice.

Called.—This morning H. B. Hawkins, the Temple Block may be found sects, even in this time of abundance of water, that are most of the time dry. Why is this? Is it not within the province of the chief and subordinate watermasters' duties to see that the sinices and gates of the sects where in proper order, and that each sect has its dus amount of water? It must be better in the owners of lots to have to travel several blocks to adjust the dividing sluice-gates and perhaps quarrel and raise bad seeings over this matter of a little water when there is plenty for everybody, if squitably distributed. There is no present no resity for the vegetation in anybody's lot suffering for lack of moisture, if those waose business it is to divide the CALLED,-This morning H. B. Hawkins

As gas is about to be introduced in this city, if this report of the sunlight apparatus is true, it would be a good thing if some enterprising firm were to import some of these "bowis," for at best artificial light is severe on the eyes.
