Millionaire's Poor Stomach. The worn-out stomach of the over-fed

millionaire is often paraded in the pub-lic prints as a horrible example of the lic prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afficited with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter

Jeanette and Mary Reeves, aged 17 and 19 years, respectively, are being tried in Judge Diehl's court today on the charge of leading immoral lives. They are represented by Atty. William Newton. According to the story told by the girls, their own father is in a large measure responsible for their preacht trouble. Officers testified that the girls made statements to the effect that they had been leading pure lives, working had been leading pure lives, working hard to make a living, but that their father collected their wages and sport
