Prevailing Warm Weather is Responsible for Between Seasons Mercantile Calm.

CROP SITUATION PROMISING

Larger Yield and Better Prices Responsible for Undertone Strength Of the Stock Market.

The local banking field appears to have not experienced any special features the past week beyond the re-election of the old board of officers by the directors of the Zion's Savings Bank & Trust company. Henry Clews in his last circular letter has the following to say of special interest to the far west: The most important element regarding the future is the crop situation. This, too, as a whole, is very promising. BIG CORN CROP.

"The corn crop continues exceedingly

promising, and predictions are still beg made for a record breaking 3,160,-0,000 crop. This is the most import-000,000 crop. This is the most import-ant crop of all, not only to our farmers, but to the railroads. The practical certainty of high prices for agricultural products, even should they recede from present levels, means another profitable year to the farmers. It means also heavy traffic for the railroads, and hould be beneficial in providing an abundance of feed for the cattle rais-or. The government record, showed er. The government report showed much improvement in the condition of wheat, and the output of winter wheat is likely to prove larger in quantity and better in quality than at one time an-ticipated. Corn was reported 6.5 points better than last year and 4.5 points better than the ten-year average. Win-fer wheat was 1.8 points better than ago and 2.8 points ten-year average, while vear above the wheat was 2.6 points spring higher than last year and 1.5 points above the 10-year average. We are also sure of a big hay crop and a good oats crop.

FARM PRODUCTS HIGH.

"Prices of all farm products are very high. In view of the prospects of a good harvest, it is possible that some recessions may be expected during the next few months, but since no great surplus is in sight, it is quite certain that the farmers, as a class, will enjoy another very profitable year. Lust year the value of agricultural products was estimated by the department of agri-culture at \$7.778,000,000. In view of the larger yield this year and botter prices, it seems fair to assume that our farmit seems fair to assume that our farm-ers will this year roalize fully \$3,000,-000,000 of new wealth, a sum so huge as to almost defy comprehension. This fact goes far towards explaining the undertone of strength of the stock

BUSINESS GOOD.

The Hardware Trade reports a con-tinuation of good business conditions, with a continued marked demand for building material, for sheet metal goods, for galvanized metal stocks, and general staples, etc. The trade is grat-ified to report collections as continuing good. There has been an unprecedented demand for worden hose notwithstand. demand for garden hose, notwithstand-ing the advance in prices due to raises the rubber trust. The stocks of this line are well cleaned up at pres-ent. The mining machinery depart-ment reports encouraging times with an increasing call from the mining amps which are now losing sight of the former hard times.

CARS ARE LIMITED

Quite a number of deals in local stocks have taken place during the week, though they have mostly been small in volume. The sugars again led, Broker Burton reporting quite a number of transfers in Utah-Idaho common. Practically everything in the list is now ex-dividend. The following are the latest quota-

tions: Amaigated Sugar Co., pfd 98.50

The past week has established a good summer record for building per-mits. The total for the week up to last night was \$189,600. At the same rate for the whole month of July, when the planning of new buildings and the strutter then for a permitted to mean the application for permits is generally on the waning the total would run as high as any month this year. The past week is a little unusual in that it in-cludes the county jail, the cost of which is placed at \$85,000. It also in-cludes two fine dwellings costing \$15,-000 each. These are being built by

000 each. These are being built by H. J. Wallace, at 1349 east First South and C. L. Rood, at 164 south Thireenth East. The Clayton Investment company is also spending \$15,000 making alterations to the stores and rooms between 62 and 70 east First South.

the Houston Real Estate company and the Postal Telegraph company from the building at 253-255 Main street, the building at 253-255 Main street, the whole building has been rented to E. P. Charlton company, which will short-ly open up there as a 5 cent and 10 cent store. The company is said to be operating 40 similar stores in the United States, and is therefore a big company. The building is now being remodeled by the company preparatory to opening in a week or 10 days.

Much activity has been experienced Much activity has been experienced this week by A. N. Humphries, owner of Idlewild addition on the southeast bench. The warm weather proved no set back to the selling of lots. The fol-lowing were the purchasers: Edd. Phil-llans, D. & R. G. Ry., four lots; A. B. Magnuson, 968 west Third North. two lots; Thomas C. Wright, Alberta, Canada, three lots; E. K. Spjut, two lots; C. J. Schneider, south Main street, two lots; A. W. Nelson, 462 south Second West, two lots; Mrs. C. Gelcich, 830 Third avenue, two lots. The second mile of cement side-walks was completed during the week and the work on the third mile is now 10-acre plat A Andrew J. Pendelton, Jr., to Jessie H. BUSINESS, REAL ESTATE AND BUILDING

is true of the Daly building at the corner of Fourth South and State streets. The Holmes-Knox building at the corner of State and Second South has the joist laid at the ground floor, and the iron center supports are in place in part of the center of the building and the joists laid up to the third floor. At the Covey flats on east South Temple near A street, the con-

crete work is nearly all in, and a start has been made laying brick on the front facing South Temple. Work at the excavations of both the mammoth hotels, at Main and South Tem-ple and at Main and Fourth South streets. has been actively carried or this week. The bottom of the New house hotel excavation has been levelad off and preparations are being made for the footings. The monster exca-vation for the Utah hotel, which is down about 20 feet, is nearly com-pleted, and immediately after it is finished it is expected to begin laying the foundation. the foundation.

IS FOR REVISION DOWNWARD.

He So Understands the Republican Platform-In Some Few Cases May be Need of Increase.

Result in San Francisco Customs House Washington, July 16 .- All doubts as to where President Taft stands with San Francisco, July 17.—Collector of the Port Stratton of this city, is au-thority for the statement that since the treasury department announced its intention of strictly enforcing the colregard to the downward revision of the tariff was swept away today, when a statement was given out, at the White House setting forth in detail lection of duties on goods purchased abroad by travelers the customs from this source have increased here by 40 per cent. The last three steamers from

what the president had to say to 22 Republican members of Congress who called to protest against putting raw materials on the free list. The president in this statement declared that the Republican party is

committed to downward revision; that he has never had any other idea of the Chicago platform, and that he The Chicago platform, and that he personally has promised a downward revision to the people. This statement is interpreted in some quarters here tonight as a direct noti-fication to the conferees on the tariff, bill that if the measure they finally agree upon does not constitute a ma-terial reduction in specific duties the president will exercise his power of

president will exercise his power of

statement concludes with this final word of the president's attitude as outlined to his callers: "He felt strongly the call of the country for a downward revision within the limits of the protective

principle, and he hoped to be able to respond to that call as he heard it, as well in the interests of the party as the country."

WHITE HOUSE STATEMENT

"Mr. Young of Michigan opposed free ore; Mr. Mondell opposed free coal, or reciprocity with Canada, and free hides; each on the ground that the policy injures the interests in his state, and a discussion was participat-ed in by other representatives, who urged that the doctrine of free raw who was arrested in San Francisco 10 days ago, is a prisoner in the jall in Hackensack because he was too hon-1.500 orable to deceive the officers. When Leclerc was arrested it was decided to materials was not a Republican "The president replied that he was not committed to the principle of free raw material, but that he was com-mitted to the principle of a down-ward revision of the tariff which he had promised, and that he was oblig-500 had promised, and that he was oblig-ed to look at the matter, not from the standpoint of any particular district, but from the standpoint of the whole country and also, from the standpoint of responsibility for the entire Repub-lican party. He said the question in each case was a question of fact to be determined by evidence as to whether the rate was excessive, so that a down-ward revision, or juiting the article on the free list, would not injure the industry. He repeated the platform of the Republican party and said that he had understood it meant a downward revision in many instances, though perhaps in some few cases an increase night be needed; that he reached this construction of the platform on what 3.00 1.000 7,000 2.000 construction of the platform on what be understood to be the principle of protection and its justification, name-ly, that after an industry was protect-500 between the cost of production abroad and the cost of production in this country, including a fair profit to the 2,000

has been taken to preserve order. Eu-gene Nolte, United States marshal for the Western district of Texas, now has eputies in the field on this particular nission If conjectures are true, an outbreak competition behind the tariff wall is planned for early in December. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and there-fore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teapponful. Its acts di-rectly on the blood and mucous sur-faces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Cole Address: F. J. CHENEY & CO., Toledo

government.

Dictated in the third person, the tatement concludes with this final

The lumber trade reports difficulty in getting shipments through from the northwest, due to congested conditions in freights generally. At the same time railroad officials are notifying the trade that there will be a shortage in cars this fall. Business is picking up with the railroads in increased sales to them of tie, bridge and other construc-tion timbers, the purchases being heavithan for some months past. General trade is likely to be heavy this fall; at the same time there is com-plaint of slow collections, as parties owing say they are waiting for the crops to move when they will have me There is no particular change in local market conditions, except that one of two concerns are complaining of high operating expenses, and several are endeavoring to sell out, as the business is not productive of a fair profit-so it is claimed.

LULL IN DRY GOODS.

In the wholesale dry goods market trade is reported fair, though not brisk, as it is hardly time yet to start in on the fall trade. So special wants among the trade one, but the sum for time to the trade are about the only feature to call for shipping, though there is a general readiness to prepare for a good general readiness to property of the 25th fall trade which opens up on the 25th inst. There is quite an advance report-ed in double width sheeting, bleached sheetings, staple ginghams, etc. There is also an active preparation for a heavy trade in decorative material dur-ing the G. A. R. week, with efforts beg made to be prepared for any nount of calls. End of the season sales, jobbers say.

does not indicate any revival of interest in fine printed wash goods, such as layns, organdles, etc. It is said that it has been years since these were such yoor sellers. They have been crowded out by poplins, reps, and other piece dyed and solid color goods. active, with

Knit goods are more active, with hosiery buying much better than a year ago, while underwear mills want better prices. Ribbed fabrics are in active demand. There is a strong demand for linen, buyers not being checked by the high, prices, with the largest orders in the history of the trade placed for next

S.S.S. SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its tem-perature and preserving its normal softness, pliability and healthfuiness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. **8**, S. S. cures Skin Diseases of every character by purifying the blood. If

5.5.5.5. Curves Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are

and the work on the third mile is now and the work of the time time is now at its height. Mr. Humphries will have his usual line of carriages running from the end of the Sugar House car line to the addition all day tomorrow and he hopes to sell a number of lots. The addition is now over three-fourths

sold out. After a great deal of talk for some time past the grading of the Eleventh avenue boulevard is now an accomplished fact, preparatory to putting down cement sidewalks, and the curb and gutter. The grading has been finished as far as M street, which is as far as it is proposed to do it now. Next week the concrete men will be on the ground, Enoch Smith says, and things will soon take on a different appearance between B and M streets. Those who are holding lots north of the boulevard are hopeful of the improvemonts increasing the interest of home-seekers in that part of the city. A cou-ple of houses are now being built b-tween Eleventh and Thirteenth ave

to Thirteenth avenue, and the grading of the boulevard accomplished the extreme north bench should grow in fa.vor. STORE OF STREET, STORE

The most important sale of the week was the purchase of the Manitou ha-tel by the Minor Building company. Henry Phipps, who has owned it for a number of years, was the seller. The price is not stated but it is said to be close to \$100,000. It is the intention of the new owners to remodel and Im-prove the building, and it is said prove the building, and it is said that the building will be raised to eight stories.

. . . Work on the various new buildings in the business section of the city is going forward rapidly. This is es-pecially noticeable at the Commer-cial club building and the Mining exchange on Exchange Place. The first named is up to the third floor and the gray stone front makes a very beauti-ful appearance. The rock and brick work of the Commercial club is also nearly up to the first floor on the side facing Cactus street. A great deal of the structural iron is now in place up to the third and fourth floors. The new spring. Fall slik prices are higher, ad-vances in the raw material greatly strengthened the market. Practically so being rapidly finished, and the same

and that with the re-and the cost of production, duction and the cost of pro-the tariff rate would beduction. unnecessarily high and ought to be reduced.

STANDS BY PROMISES.

"This was the nogaal operation of the tariff as claimed by the defenders of the protective system—not in every case, but as a general rule—that, of course, a revision of the tariff could not be perfected must have defects and inconsistencies: but insofar as his influence went when called upon te act in connection with legislation, it would be thrown in the direction of performing the promises of the party as he understood them; and that if from ore and oil and coal and hides did not need protection, and the conditions were such as to enable the ore producers and the oil producers and the coal producers and the producers of hides to compete successfully, with-out reduction of wages with the pro-ducers from abroad, then they did not

need a duty and their articles should go on the free list. "It was a question of fact, which he At wiss a question of fact, which he hoped to make his mind up on such evidence as was available to him, in order to carry out what he thought the promises of the party to the whole people. He said he foil that his posl-tion as the titular head of the Repub-lican party and as the president gave him a somewhat however point of view him a somewhat broader point of view than that of a single member of Con-gress in respect to articles produced in his district. He felt strongly the call of the country for a downward re-vision within the limitations of the protective principle, and he hoped to be able to respond to that call as he heard it, as well in the interests of the

party as of the country." CREATES SENSATION.

The president's statement created a sensation tonight among the senators and representatives. Senator Aldrich made no direct comment upon it, but said the conferees had decided to let Mr. Taft deal with schedules upon which they could not agree, it being up to the president to secure the votes necessary to pass the measure in the form which it would be reported out of conference as a result of his mediation between the house and senate conferees

Speaker Cannon declared the statement contained nothing to which any good Republican could object. Senator Bristow of Kansas, one of the senate progressives, said: "The statement vastly strengthens

the hands of the progressives." President Tart up to this time has not permitted himself to be quoted in not permitted himsel to be quoted in connection with the tariff struggie. His frame of mind was indicated in his New Haven speech of June 30, how-ever, in which he warned the Repub-lican party that if it did not keep its promises it would be relegated to the minority. minority.

minority. The president has been careful here-tofore to let no impression gain ground that he was dictating to Congress. He always declared that he hoped a satisalways declared that he hoped a satis-factory bill would be framed in accord-ance with the party pledges. The presi-dent asserts for the first time his au-thority as the titular head of his party. As such he announces his con-viction that the party platform meant a revision downward and that no other interpretation can be placed upon it. interpretation can be placed upon it. In addition to the suggestion of a veto which many political observers read into the president's statement, it is taken also as to mean that if Con-
