pr. Schenck's Pulmoule Syrup, SEA WEED TONIC, AND MANDRAKE PILLS.-These medicines have undoubtedly performed more cures of consumption than any other remety known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the hu-min constitution. Other remedies aivertised as cures for consumption, probably contain oplum, which is somewhat dangerous drug in all oufne the morbid matter in the short time since. ystem, which, of course, must make a cure impossible. Schenck's Pulmonie Syrup is warranted not to contain a particle of opium: it is composed of powerful but harmless berts, which act on the lungs, liver, stomach, and blood, and thus currect all morbid secretions, and the body. These are the only means by which Consumption can be cured, and as Schenck's Pulcites which operate in this way, it a obvious they are the only genuine one for pulmonary Consumption. Each bottle of this invaluabte mediche is accompanied by full direcons. Dr. Schenck is professionally at his principal office, corner of Sixth and Arch Streets, Philadelphia, every Monday, where all let-ters for advice must be addressed. deod

Jubilee.-The forthcoming anniversary of the entrance of the Pioneers of 1847 into the Salt Lake Valley is to be celebrated by a Grand Jubilee by the Sabbath school childen. We know of no more fitting or delightful method of honoring so momentous an occasion. The success of the Judice largely depends upon the interest taken in it beforehand by the Bishops and their riseads, including a brilliant assemblage of ladies. That settlement of little more than a hundred families, is flourishing like a "green bay tree."

The sheep-shearing for the season is just completed, resulting in a wool crop of probably from 30,000 to 40,000 pounds.

The field crops never looked by the Bishops and their superintendents and teachers of the Sunday Schools. They can do much in that direction by using their endeavors to induce the children to attend promptly the rehearsals, at the Tabernacle, where they are not Major Dowle dellar.

Tried for Polygamy.-Last evenng we met Brother S. R. Parkinon, of Franklin, who was in town on business for the flourishing coperative store in that city.

Brother Parkinson was indicted me time ago by the grand jury of the Third Judicial District, Idaho, for bigamy, under the Territorial Statute. His trial took place at Malad on Monday, the 18th inst. All the "Mormon" jurors were excused because this was really a polygamy ease, though called by the name of bigamy. District Attorney Ensign conducted the prosecution and Judge Higbee appear-

ed for the defence. The proof of the marriage of the defendant to more than one woman was sought to be established by indirect evidence, and several witnesses were examined with the view of proving that defendant was the reputed husband of more than one wife and father of several children by each. But counsel for the defence showed that the prosecu-
