LANDS A BODY BLOW.

D. Wiley, chief chemist of the depart-ment of agriculture, has made a state-ment which is calculated to cause con-sternation in every butter-making com-munity in the United States. Dr. Wiley says that, as he reads the purc food law, which goes into effect on the first of January, it will be unlawful after that date, to use any coloring matter whatever in butter or cheese. At the present time the creameries of the country, of which there are several

the department of agriculture seems disposed to hold that the law prescribe

all deleterious substances in foods no matter how small the quantity may be.

For a hundred years or more butchers and farmers all over the world, have

Special Correspondence.

Washington, D. C., Dec. 17 .-- A very peculiar contention has arisen over the request of Congressman-elect Peter A. Porter of the Thirty-fourth New York district, to have his name recorded in the list of members-elect as a Republican. - Mr. Porter's request appears to he without precedent and will be denied. There have been instances in the past when members of the house and even senators have been elected by one party who have subsequently repudiated the platforms upon which they were elected and the party which elected them. But these cases were based upon the fact that the senators and representatives found the policies of their party incompatible with their conscientious beliefs.

WHAT SIBLEY DID.

Mr. Sibley of Pennsylvania, elected as a Democrat, did not agree with his party on several national questions, and he formally foreswore further allast. he formally foreswore further allegi-ance to that party and upon the floor of the house announced his intention to thereafter affiliate with the Republi-cans. Senators Dubois of Idaho and Pettigrow of South Dakota were elected the senate as Republicans. disagreed with their party's declara-tions on the silver question as enunciat ed in the platform of 1896 and there-after affiliated with the Democrats. Senator Dubols was subsequently elected to the senate as a Democrat and is still

serving as such. But the case of Mr. Porter is different. A copy of the official ballot, upon which he was elected shows that he was the candidate of the regular Democrats and the independence league, and that while he also appears on the bailot as an "independent," he did not claim, ofan "Independent," ficially, anywhere that he was an "in-dependent Republican." So far as the dependent Republican." So far as the memory of the oldest official of the house extends back there has never been a time when a member elected on one ticket claimed the right to be re-corded as a member of the opposing party. Canada. But the worst blow to the dairy inter-ests which the "anti-coloring" order will bring about will be the disadvan-tage under which the dairymen will labor because of the competition of the manufacturers of oleomargarine. The latter are permitted to place their pro-duct on the market under a tax of half a cent per pound provided it is not arti-ficially colored. Uncolored "oleo" is rather more yellow than uncolored butter made during the winter months

WOULD BE SUICIDAL.

One of the best posted parliamentary advisers of Speaker Cannon in discuss-ing the Porter request today said: "To grant the request of the member-elect that he be formally admitted as a full fledged Republican would be suicidal, even if compliance were possible. It would open up too many complications. How? Well I will endeavor to explain. Suppose that there should be two canrather' more yellow than uncolored butter made during the winter months and if the agricultural department in-sists that the pure food law bars but-ter, artificially colored, from interstate commerce the Great bill will have been enacted in vain and "oleo" will make serious inroads in the butter trade. aidates for speaker, and two candidates didates for speaker, and two candidates for each of the elective offices of the house. The big rush at the postoffice for the holidays has begun in earnest. The registry department is handling 750 to 1,000 more packages daily than last year, and Christmas bundles are piling bibliographic bibliographic transmission up higher and higher. a few minutes until Jan. 10, when they will begin to lengthen. But the evenings begin tomorrow to lengthen out a minute or so, and after the 10th prox, the days will perceptibly length-Portland, Dec. 21.—Messrs. Belasco, Mayer and Davis, the San Francisco theatrical firm, have sold the Hellig theater in this city for file,000 to S. Morton Cohn and associates. The new owners have gone into the deal as a real estate speculation. The present occupants of the theater have a lease which will continue for five years Built a Tunnel-The contractor at which will continue for five years.

Built a Tunnel—The contractor at the New Utah Savings Bank and Trust company building, has built a tunnel of scaffolding in front of the rising structure, so that pedestrians can walk past without incurring danger, the same as though there were no build-ing operations going on there. This is done in Chicago and other large places and obviates the necessity of sending pedestrians around out into the street. PERKINS BEFORE GRAND JURY.

New York, Dec. 21.—George W. Per-kins, a member of the firm of J. P. Morgan & Co., and formerly a vice president of the New York Life In-surance company, was before the grand jury again today in connetcion with the investigation being made by that body into the affairs of the New York Life. Mr. Perkins was before the jury yesterday for two and one half hours.

Great were the crowds that poured in and out of the Gardner Store yesterday-a mighty tribute to the higher values and lower prices prevailing in every department of Salt Lake's most popular store for men and boys.

That we might accommodate the people we doubled our regular sales force, but so great is the rush that we must double the larger force.

We will be unable to properly care for the buyers of the next few days, and the same can be said of all other stores. It means YOU SHOULD BUY TODAY.
