## BY TELEGRAPH.

THE WIRELESS TELEGRAPH LINE.  
FORTY-SEVENTH CONGRESS.

WASHINGTON, 15.—The House  
went into committee on the tariff  
committee bill.

White, of Kentucky, confined his  
remarks principally to the attack upon  
the bill recently passed by the  
House amending internal revenue  
laws.

McMillan opposed the passage of  
the bill on the ground that it was  
the duty of Congress to legislate  
directly on the subject of the revision  
of the tariff bill. High tariff  
he said, taxed every farmer, printer,  
teacher, doctor, lawyer, preacher  
and mechanic in the land, in order  
to increase the profits of the rich  
manufacturer, and even placed duty  
on Bibles, thus prohibiting the plan  
of salvation going untaxed, to the  
people.

If there was to be a revision  
of the tariff, why didn't the  
representatives of the people stand  
by their duty like men, and not  
sneak from that duty and send an  
irresponsible commission all over  
the country junketing and feasting  
in order to inform Congress what it  
must do.

Shallenberger, Wilson and Ward  
advocated the passage of the bill.  
Hill favored a continuance of the  
protective system.

AMERICAN.

WASHINGTON, 15.—The House  
committee on Territories have in-  
structed Grover to move a suspen-  
sion of the rules on Monday and  
pass a bill establishing the Territory  
of North Dakota.

Republican Committee.

About a dozen members of the  
Republican National Committee met  
to-day, and after discussion, unani-  
mously favored the republicans in  
the South uniting with the liberal  
democrats, who will work with  
the more enlightened political  
sentiment for a free ballot and  
fair count, and oppose the Bourbon  
democracy. A resolution was  
adopted for a meeting of the com-  
mittee on the fourth Wednesday in  
January, 1893, and directing that  
the special committee appointed in  
1881 to report a plan for giving Con-  
gressional districts representation in  
the next National Convention.

Four Fitz-Johns.

The President has notified Gen.  
Fitz-John Porter that it is entirely  
beyond his power to relieve him  
from the sentence of the court-martial.  
This decision is based on the  
opinion of Attorney-General  
Brewster and the unanimous belief  
of the Cabinet.

The New Bill.

The Critic says the Pacific Slope  
statesmen are confident that Presi-  
dent Arthur will sign the bill re-  
stricting Chinese immigration for a  
period of 10 years. The democrats  
in the Eastern and Central States  
are determined, however, that he  
shall not have the opportunity to  
do so. There is to be some filibuster-  
ing when the new bill of Mr.  
Page's is brought up. The democrats  
want to make a campaign on the  
cooler question.

After Many Days.

CHICAGO, 15.—Ex-Governor Bur-  
bank, of Dakota, now postoffice in-  
spector here, was one of a dozen  
passengers in the stage which was  
robbed by the James gang near the  
Hot Springs, Arkansas, eight years  
ago. He was robbed of a gold watch  
and chain and diamond pin, worth  
\$500. He has received information  
from Marshal Craig, of St. Joe, Mo.,  
that his property was found among  
the effects of the late Jesse James  
and would be restored to him.

Broken Importers.

NEW YORK, 15.—The late import-  
ing house of F. Hensley & Co., 48  
and 50 Wall Street, has been in the  
hands of the sheriff the past week  
on an attachment obtained by the  
bank of the partner, Thomas C.  
Hensley, for \$38,557. On Friday  
another judgment was entered  
against the members of the firm by  
Whitney E. Kidd and Henry Kidd,  
in favor of Thomas Adams & Co.,  
of Newington, England, for \$275,  
505. The firm assets are so solvent  
and say the only creditors are  
Adams & Co.

Closing Out.

The Tribune says: It is announced  
that A. T. Stewart & Co. have de-  
termined to discontinue their busi-  
ness, and that they offer for sale  
their entire stock of merchandise  
and all their mill properties. The  
announcement will cause general  
surprise in the mercantile world, al-  
though it has been known for some  
time that the sales of the firm were  
not so large as when Mr. Stewart  
was at the head of the house.

Mongolian Tactics.

The Times says: If one may trust  
late advices from China, it is by no  
means certain that the bill prohib-  
iting Chinese immigration would  
have been an efficient measure, even  
if it had received the approval of the  
President. The intent of the act  
was to prevent Chinese coming to  
the United States, and so far as the  
immigrants of this country, and  
so far as the immediate subjects of  
the Emperor of China are concerned,  
it would no doubt have a curative  
effect. There are a very large  
number of persons of Chinese  
birth and descent who are Chinese  
in the technical sense of the word.  
Those who have left that empire to  
settle in the various East Indian  
colonies, and those who have been  
born in this country, and who have  
been naturalized, are Chinese in the  
technical sense of the word. The  
Six Companies are interested in  
organized emigration from China,  
and to other countries than this.  
They send out several thousand  
Chinese to work for a term of  
years in Australia, and then have  
them shipped as British citizens to  
the United States. Let Congress do  
what it may, those who are inter-  
ested in bringing Chinese to this  
country will find means to carry on  
their business while keeping within  
the confines of written law.

Spring Trade.

The spring trade falls to meet ex-  
pectations, although it has been felt  
that the spring trade has been well  
supported. Breadstuffs continue to  
be influenced by speculation. Prices  
in foreign markets are gradually  
working upward, but not fast enough  
to equal the advance for corn  
wheat in this market which is being  
dictated by advance in Australia,  
hence exporters are not able to go  
on at present prices. Barley dull and  
poorly. Rye quiet, but very  
steady. Pork firm and quiet. Rice  
quiet, after a little flurry, dull and

easier again. Refined sugars steady  
under fair demand. Foreign fruits  
dull except prunes, which are now  
quoted at 7 as the inside figure with  
large sales. Later accounts confirm  
the damage to the growing crops of  
Turkey by frost. Dried apples dull,  
Hops quiet, choice good firm be-  
cause scarce. Borax in good de-  
mand at an advance. California re-  
fined, 15; concentrated, 14. Califor-  
nia, in moderate demand. The sales  
at 10 cents, California salm, in  
good demand; spot goods 165 @ 165;  
new goods, 170 @ 175. Fruits, dull.  
Hides dull as held too high, and  
prices nominal. Leather, in moderate  
demand and steady. Turpentine,  
quiet and prices steady. Refined  
very firm and demand moderate.  
Petroleum, cases, selling freely and  
prices steady; crude oil, moving  
more freely at the last; sales, 600  
barrels of lampblack, prices steady,  
quiet and firm at 110. Tars, very  
slow, but holders make a show of  
business. Buckshot dull at 40 @ 42.  
Hardwood in moderate de-  
mand, but prices very steady; nails  
slow and prices weak; pig iron un-  
changed. Lead steady, sales 5,000 @  
5.10. Tin plate quiet and nominal.  
Wool dull, prices steady. The sales  
of California includes 15,000 lbs. of  
black, 144,000 lbs. of fall at 16, and  
20 bales of spring at 23. Furs and  
skins, demand for choice lots very  
good, with moderate offerings, and a  
firm tone retained on values; medium  
and common parcels, however, are  
difficult to place, and show a  
weak, unsettled tone in values.

Indignation.

PHILADELPHIA, 15.—A large  
mass meeting of workmen to ex-  
press indignation at the action of  
President Arthur in vetoing the  
anti-Chinese immigration bill was  
held this evening, and participated  
in by from 5,000 to 8,000 workmen,  
representing all trades. The  
meeting was presided over by Frank  
A. Kauffman, president of the State  
Labor Council, and addresses were  
delivered by Thompson H. Murch,  
the stone cutter Congressman from  
Mass., Charles Zimmerman, of the  
Trades and Labor Bureau of  
Statistics, of New Jersey, and a  
number of others interested in the  
movement.

A Terrible Storm.

MORGAN CITY, 15.—The water re-  
ceded an inch. Three negroes were  
drowned by the upspring of a boat  
in Lagodon plantation to day. Eight  
houses on the plantation were de-  
stroyed by the storm Wednesday  
night. The prayers of negroes,  
quartered in the stable loft, can be  
heard above the roar of the storm.  
The panic among them is fearful.

Burned at Sea.

SAN FRANCISCO, 15.—The bark  
Henry Buck, from Honolulu, reports  
that the captain and boats crew of  
the British ship *Norval*, from Hull  
with coal to San Francisco, arrived  
at Honolulu on March 4th. The bark  
was burned on March 4th, in 12.30  
north, 120 west. A boat with the  
first officer and remainder of the  
crew are yet unheard from.

Solicitors in Chancery.

COLUMBUS, O., 15.—The House  
of Representatives resolved on re-  
solution of censure and reprimand  
in the cases of Representatives Bloak  
and Wright, charged with soliciting  
from lobbyists for their votes and  
influence.

Good Thieves.

ST. JOSEPH, MO., 15.—Enos J.  
Crowther, ex-city register and city  
attorney, and present city assessor,  
together with a man named John  
Cox, late clerk for John C. Bender,  
penal agent, were arrested to-  
night on complaint of Mayor Fox-  
worth, charged with complicity in the  
\$100,000 bond steal. Their bonds  
were fixed at \$2,500 each. Crowther  
furnished bonds. Cox went to jail.  
The arrest was made on information  
from City Marshal Ritchie, now in  
New York with the prisoners Scott  
and Irwin. The telegram stated  
that Irwin had given the facts to  
him; that Crowther and Cox stole  
the bonds and gave them to Scott  
and Irwin to sell. The arrest to-  
night created a profound sensation.

Kearney's Loss by Storm.

RAYON SARA, LA., 15.—There is a  
break at Bhandlas, on Old River,  
three miles above Red River land-  
ing, 400 feet wide. From that place  
to Hog Point are 30 crevasses from 50  
to 400 feet wide.

At New Iberia the situation is ap-  
palling; the storm swept away 40  
houses. At Lake Point, the loss  
of stocks, crops, etc., is estimated  
at least \$1,500 in Iberia parish are  
left without shelter and support.

Morgan City, Mo., 15.—Wednes-  
day night's storm destroyed two  
negro churches, or the ruins of them,  
warehouses at Chaplova and other  
points in the neighborhood. At  
Penely station stores and dwellings  
were carried away.

Destructive Fire.

CINCINNATI, 15.—The loss by the  
destruction of the Cincinnati Coop-  
erage Company's warehouse, which  
was estimated at \$109,000; insur-  
ance, \$39,000.

Chicago, 15.—The middle section  
of the Deering Harvester Works  
burned to-night. Loss, \$75,000.

Lynched.

CHICAGO, 15.—A special from Kir-  
kville, Missouri, says: An exciting  
scene has just occurred in the  
neighborhood. For some time past  
the people have been troubled by  
depredations of horse thieves. At  
length three men were discovered  
as the ring leaders. They were hunt-  
ed down, taken to a place some dis-  
tance from town, and hung. The  
dead was done swiftly, and the vigi-  
lantes dispersed the moment the  
men were swung up. There was  
much excitement. This is the first  
triple hanging in this section of  
Missouri for several years. The  
names of the thieves are unknown,  
but they came from Greene County.

Dead Infants.

BALTIMORE, 15.—Six dead bodies  
of negro infants were found to-day  
in a shed at the rear of No. 55  
Grand Street, occupied by Charles  
A. White, a negro undertaker. The  
remains were in a horrible state of  
decomposition. White says he does  
not know how the bodies came  
there. An inquest will be held.

Arrested.

DENVER, 15.—The announcement  
of the arrest of route agent Parke at  
St. Louis is hailed with great delight  
here. Eighty-seven complaints of  
lost drafts, etc., were made to the  
inspector the three months. It is  
thought the purpose of the thieves  
was to secure signatures for a gigan-  
tic scheme of forgeries.

Killed.

MILWAUKEE, 15.—A young gam-  
bler, named Hardy Clifford to-day,  
at Racine, killed Captain Elmer. He  
is likely to be lynched to-night.

The cause of the murder was a  
bet on the walking match. A num-  
ber of Welsh countrymen of Pugh  
have gone down to Racine to be in  
at the lynching to-night.

Death from Drink.

D. J. Price, postmaster of Bay-  
view, Wisconsin, and formerly a  
member of the Legislature, shot  
himself dead after a vain attempt to  
kill his wife. He was drunk.

FOREIGN.

Parisian Strikes.

PARIS, 15.—Five thousand em-  
ployes, representing every trade con-  
nected with the manufacture of iron,  
struck against the proposals of the  
masters to deduct forty centimes on  
every hundred francs, the money to  
be applied to the payment of the in-  
surance premium of the menageant  
accident.

Sussex Miners.

VIENNA, 15.—The Press says:  
Trustworthy merchants from Mas-  
sachusetts report eighty workmen em-  
ployed on the Ursprung Cathedral ar-  
rested Holy Saturday, in conse-  
quence of the discovery of a mine  
under that edifice, in which the im-  
mense economy of coronation of the  
Czar is to take place.

Circassian Prisoners.

CAIRO, 15.—It is believed Circas-  
sian officers and prisoners are being  
tortured. Arab Bey has intimated  
his intention of having some prison-  
ers shot.

BRIEF TELEGRAMS.

The Car strikes another mine.

Rev. J. Higgins has been liberated on  
bail.

Pres. Hayes sends \$250 to the  
Garfield monument fund.

O'Brien, editor of the *United Ire-  
land*, was unconditionally released  
from prison.

Mrs. Alta Boynton, only sister of  
Grandma Garfield, died to-day at  
Hiram, aged 75.

Several native ladies, accused of  
complicity in the conspiracy at Cairo,  
have been imprisoned by order of  
Arab Bey.

William Frazier, well known  
throughout the country as being  
identified with the great railroad en-  
terprises, died to-day.

Secretary Lincoln denies he is to  
relieve Minister Lowell, and it is  
also reliably ascertained that the  
withdrawal of Minister Lowell has  
not yet been discussed by the  
Cabinet.

At Nashville, the respective chair-  
men of the executive committees of  
the two wings of the democratic  
party have issued a joint call for a  
State convention of the party in this  
city, on June 20, to nominate a can-  
didate for governor.

Correspondence.

St. John, Apache Co.,  
Arizona,  
April 4th, 1892.

Editor *Deseret News*:

During the past winter our local  
authorities have been busy in or-  
ganizing and putting in motion the  
different quorums and societies of  
this ward, resulting in the appoint-  
ment of the following named offi-  
cers: Elders Holman, as President;  
Teacher; E. J. Freeman, President  
of the Elders' Quorum; Sister  
Richey, President of the Relief So-  
ciety; Mary Freeman, President of  
the Y. L. M. I. Association; Bro.  
Farr, President of the Y. M. M. I.  
Association, and Sarah Hill Romney,  
President of the Primary As-  
sociation. All these meetings have  
been well attended, and it is hoped  
much good will result from them.

Our Dramatic Association have  
presented for the amusement of the  
people the following named plays:  
"Black Eyed Susan," "That Blessed  
Baby," "Damon and Pythias," and  
"Slasher and Crasher." The lead-  
ing parts were sustained by M. P.  
Romney, E. J. Freeman, Moroni  
Richey, Ole Jensen and Mrs. Mary  
Freeman, Miss Isabel Romney,  
and Miss Susie Richey.

During the winter lectures have  
been delivered on different subjects  
by Elders Ralph Romney, Andrew  
Gibbons, C. R. Kemp, M. P. Rom-  
ney and Elder Butler. All these  
lectures were well attended by the  
people.

Considerable snow fell here last  
winter, more than falls in St.  
George in six years. Some say  
more than usual fell.

A large number of horses  
have died here since last fall caused  
by eating what is called the  
"doo weed," which continues green  
all winter. In consequence of this  
our farmers are much crippled in  
their farming operations. The  
want of teams, however, they are  
doing the best they can with what  
teams are left in sowing crops, etc.

Four sells here now for \$3 per  
cwt., and all kinds of provisions in  
proportion. I suppose this high rate  
is in consequence of the high rates  
charged by the A. & P. Railroad. It  
will pay well to raise grain at home  
under these circumstances, and  
high rates may prove a blessing  
after all.

There is some talk of building a  
flour mill here this season.

Out mails are so irregular we are  
not very well posted in regard to  
the affairs of Utah, but learn that  
the Edmunds bill has become a law  
of this boasted land of freedom.

Holy writ says: "Whosoever  
measure you meet unto others shall  
be meted back unto you, pressed  
down and running over." Those  
who trample upon the rights of  
their fellow citizens and who disre-  
gard the spirit of our Constitution  
to satisfy the belongings of the un-  
godly religionists will have their  
turn next, and we can afford to  
wait, wait and trust God for the final  
issue. "Truth will triumph!"

AMEN.
