

## CAMPAIGN IN WEST VIRGINIA.

Vice Presidential Candidate Davis Formally Opens it at Wheeling.

## COMPARED TWO GREAT PARTIES

More Money Is Being Collected in Form of Taxes That Is Necessary for the Government.

Wheeling, W. Va., Sept. 22.—Henry Gasaway Davis, the Democratic vice presidential candidate, spoke to a large gathering of people in the political campaign here tonight. It was an enthusiastic opening of the campaign in Wheeling. When Mr. Davis arose to speak the long-continued applause became embarrassing. He spoke clearly and distinctly, and held the audience admirably.

In comparing the two great parties, Mr. Davis said:

"The Democratic party always administered the government with prudence and economy. The Republican party is a party of extravagance, and has been wasteful and extravagant in its expenditure of government funds. More money is being collected in the form of taxes than is necessary for the economical management of the government, both national and state, and if the Republican party is continued in power still larger taxes and greater expenses will follow, as their leaders tell us that they propose to pursue the same policy in the future they have in the past."

The expenditures for the fiscal year 1904 were greater than for the preceding year, and the appropriations already made for the year 1905 are larger than made for 1904. And this notwithstanding the fact that no river and harbor bill was passed at the last session. Appropriately in a full attempt to keep down expenses and also to prevent examinations into the postoffice and land frauds, Congress at its last session was brought to a close earlier than in any long session since 1860."

He then reviewed the government reports of the revenues for the last year, declaring that the revenues are falling off while the expenses have greatly increased.

"The extravagance in the conduct of the government is greater now than at any other time in the history of the country, and unless the people at the polls in November decide upon a change more taxes or an increased public debt must ensue."

Both parties, he said, are committed to the gold standard, and it is no longer an issue before the people.

He regretted that the national platform of the Republican party raised the race issue, and continued:

"The southern people who have to bear the burden of this question, and dealing with it in moderation and fairness. But its unfortunate agitation by Republican leaders has made its solution much more difficult and hindered the efforts of those who are honestly endeavoring to aid the colored people in attaining their race. A large majority, over 1,000,000, of the white voters of this country are Democrats. McKinley received 84,000 votes more than Bryan, and this was the largest majority ever given a presidential candidate. There are 2,000,000 negroes in the United States of voting age."

## "MORMONS" CANNOT PREACH IN HUNGARY.

Vienna, Sept. 22.—Count Tisza, the Hungarian minister of the interior, has rendered a decision prohibiting "Mormon" propaganda within Hungary, upon the ground that such a movement is not desirable from the standpoint of both state policy and religion.

## ATTEMPTED ASSASSINATION.

Chief of Police of Odessa Shot at By Workman.

St. Petersburg, Sept. 22.—In Odessa this morning while Chief of Police Niedgart, in company with Prince Obolensky, his assistant, was inspecting some new buildings in the boulevard near the Pushkin monument, a young man wearing a blue blouse fired a revolver from a distance of six paces at Niedgart.

The bullet did not strike the chief of police, and the would-be assassin was shot to again when he was seized by Prince Obolensky.

## MACHINISTS' STRIKE ENDED.

Strikers Rush Back to Work, Almost Causing a Riot.

Chicago, Sept. 22.—The nine months struggle of the machinists and boiler-makers of the Chicago, Lake Shore and Eastern railroad against a 10 per cent wage reduction is at an end. The company announced that if the strikers would call off their strikes it would raise as many of the former employees as possible at the lower wages. The half of the 40 strikers, which caused the company to bring out the police.

The company hired 100 of the old men will take on more until full union breakers have been engaged. The strike was ended by the discharge.

The railroad, which is owned by the Pullman company, announced the first of the year that it would inaugurate a 10 per cent cut in wages, and the company started to employ men made by the police for assaults.

Twenty men have been "slugged," locos have been damaged so that they could not be run and tracks have been torn up.

Must Stay on Elies Island.

New York, Sept. 22.—A Hindu sailor named Odhu Bhiman, who has been in the free hospital of the immigration detention station on Ellis island for several months, will remain there under the same conditions for six months more because of a dispute be-

## ONE LUNG

May be gone and yet the remaining lung will be amply sufficient to sustain a vigorous vitality. As a general thing few people make more use of both lungs than is equivalent to a healthy use of one lung.

These facts are all in the favor of the man or woman with weak lungs, even when disease has a strong grip on them.

Many a person living in health to-day has the lungs marked by the healed scars of disease.

Dr. Pierce's Golden Medical Discovery makes weak lungs strong. It cures chronic, deep-seated coughs, bronchitis, bleeding lungs and other conditions, which, if neglected, find a fatal termination in consumption.

"I had been troubled with lung disease and pleurisy for a number of years and the trouble had almost become chronic," writes A. S. Ham, of Howe, Ia.

"I had been troubled with lung disease and pleurisy for a number of years and the trouble had almost become chronic," writes A. S. Ham, of Howe, Ia.

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets assist the action of the "Discoveries."

Between the government officials and a freight steamship company.

When the Hindu appeared on the island and last March he said he had deserted from the steamship Satauma. He was ordered deported, necessarily on the same vessel according to law, and has since remained at the island. The vessel sailed in a few days but the officers declared Odhu did not come here on her and refused to let him come aboard.

A few days ago the Satauma arrived in port again and another attempt was made to ship the Hindu without success, and he is consequently likely to remain on the hands of the immigration bureau at least six months more.

## Jewelry and Furs Stolen.

Philadelphia, Sept. 22.—Jewelry and furs valued at nearly \$4,000 were stolen from the home of a wealthy resident of this city during the week.

The loss was made known through the publication of a list of the missing property. The most valuable article was a gentleman's scarf pin set with diamonds and pearls, valued at \$1,000.

While it is said to be probable that the robbery was done by professional thieves, there was intimation of possible sensational developments. Every precaution has been taken to prevent the victim's name from becoming public.

## Big Fire in Brooklyn.

Boston, Sept. 22.—The ware rooms of the Abbott Downing Carriage company were burned early today and 20 workmen in the building adjoining made a hasty exit. If the confusion which followed the fire was not reported missing, but later all were accounted for.

The loss to the Abbott Downing company is estimated at \$50,000.

## Stole Dentist's Gold.

New York, Sept. 22.—Dr. Edward T. W. Ellis, whose father is said to have been a colonel on the staff of Gen. Brant, and president of a Rockford, Ill., bank, will appear before Recorder Goff today, for sentence, having pleaded guilty to stealing gold from a dentist's office.

In court Ellis made the plea that he had stolen so that he might buy bread for his wife and six-year-old daughter, whom he represented to be in a starving condition. Mrs. Ellis denied this statement and said she had supported herself and daughter for some time.

## Japanese Report Fights.

Tokio, Sept. 22, 1 p. m.—An official telegram reports that fights have taken place at the towns of Tieling and Sanlungku, 50 miles northeast of Liao Yang, on Sept. 20. The dispatch says:

"Our detachment advanced through Hainichuang on Sept. 20 and attacked the enemy, consisting of one company of infantry, some cavalry and a machine gun stationed at Tieling and a battalion of infantry, five hundred cavalry, six quick-firing and one machine gun, stationed at Sanlungku, which lies eight miles north of Tieling. The Russians, who were driven off to the northward, left 19 dead behind them. We captured some spoils. Our losses were very slight."

## Violated Anti-Trust Law.

Gallatin, Tenn., Sept. 22.—The jury in the case of the state against the Standard Oil company, Agent Holt of Nashville and Agent O'Donnell of Nashville, returned a verdict of guilty of violating the anti-trust law, has brought in a verdict acquitting Rutherford and assessing a fine of \$5,000 against the Standard Oil company and a fine of \$3,000 against Holt.

## Briton Captured by Moors.

London, Sept. 22.—The Times correspondent at Tangier telegraphs that Mr. Lee, a British merchant at Rabat, has been captured while fishing in the Raba river. A companion named Broome escaped after being fired at. The correspondent says there is an unfounded rumor that Mr. Lee has been liberated.

## TREE TEA:

That's the Tea all Appreciative Tea Drinkers Drink. They Know a Good Tea.

London, Sept. 22.—The Times correspondent at Tangier telegraphs that Mr. Lee, a British merchant at Rabat, has been captured while fishing in the Raba river. A companion named Broome escaped after being fired at. The correspondent says there is an unfounded rumor that Mr. Lee has been liberated.

## REPORT ON GENERAL SLOCUM DISASTER

Supply of Life Preservers Inadequate, the Crew Ignorant And Incompetent.

## TOTAL LACK OF DISCIPLINE.

Chief Engineer Grossly Negligent When Notified of Fire—Officers' Licenses Revoked.

New York, Sept. 22.—A lengthy report has just been made public of an investigation by the local board of steamboat inspectors into the General Slocum steamer disaster which occurred in the East river last June and cost nearly 1,000 lives. The report is signed by James A. Dumont and Thomas H. Harbert and is addressed to Supervising Inspector Robert S. Rodie. In conclusion by announcing upon authority vested in the board by the federal statutes the revocation of the officers' licenses of those aboard on the Slocum as follows: William H. Schack, master and pilot; Edward Van Vart, pilot, and Benjamin F. Conklin, chief engineer.

PRINCIPAL POINTS.

Briefly summarized the principal points of the board's reports are:

"That the fire was discovered at the upper end of the Sunken Meadows and that North Beach Island was the nearest available point to land the ship."

"That the life preserving appliances on the vessel were inadequate but had the Slocum been supplied with the number, not another life would have been saved because of the ignorance and incompetence of the crew."

"There was an absolute lack of discipline on the part of the crew because of the negligence of the master and of the pilot."

"That the fire drills had been neglected and that had the crew been trained as the law requires, such a disaster would have been avoided."

"That one of the crew in his ignorance, added to the incipient flame by throwing thereon an empty bag which had contained charcoal."

"That the chief engineer was grossly negligent when notified of the fire in that he did not see that the hose had been connected and the water turned on."

## WHEN INVESTIGATION BEGAN.

The investigation began July 6 and was delayed considerably by the injuries of Capt. Van Schack which confined him to the hospital. Under the law the board only took up the conduct of the vessel's licensed officers. The other phases of the disaster were investigated by a special commission appointed on the request of President Roosevelt and consisting of Gen. William H. Schack, master and pilot; Edward Van Vart, pilot, and Benjamin F. Conklin, chief engineer.

Twelve others were subpoenaed, but failed to appear, among them Coroner Berry. The report reviewed the evidence given by river captains and expert East river pilots and continues:

EVIDENCE OF EXPERTS.

"A few minutes after the master was made aware through the speaking tube in the pilot house that the Slocum was on fire he gave the order to the pilot to beach the vessel on North Brother Island. That order was obeyed and the steamer was beached probably within three minutes."

"In the face of the evidence we cannot in justice arrive at any conclusion on this point other than that the unfavorable criticism passed upon Capt. Van Schack for not having beached his steamer at some other point where he did was wholly unwarranted."

## SECOND ENGINEER PRAISED.

The second engineer, Brandon, is highly praised for remaining at his post and manipulating the machinery. Captains and crews of river craft who aided in rescuing the drowning victims also are commended for their conduct.

"The inspectors cite evidence they received to the effect that no dead were found wearing life preservers, and express the belief that not one life was lost because of inefficiency of the preservers. The great mortality, according to their view, was due to the impossibility of equipping 1,500 persons, mostly children, in a few minutes and the age of the passengers, many of which were stamped in 1901."

## CREW INCOMPETENT.

"It is our opinion," the report declares, "that if the Slocum had been supplied with double the quantity of life-saving equipment with a crew as competent as that of the Slocum, it would have been saved from the disaster."

## LACK OF DISCIPLINE.

"The evidence before us indicates an absolute lack of discipline on the part of the crew because of the neglect of the master and of the pilot who under the law is next to the master in charge, to observe the provisions which require those officers once at least each week to call all hands to quarters and exercise them in the discipline and use of the fire pump and all other apparatus for the safety of life on board on such vessel, and to see that all the equipments required by the law are in complete working order for immediate use."

"Had this rule been observed and the crew of the Slocum been trained as to their duties in case of fire or other accident to the steamer, it is impossible to conceive that such a disaster could have occurred to the steamer as did occur, as it appears from the evidence before us that at least three of the crew saw the fire when a bucket or two of water, which was close at hand, was all that was needed to put it out. Instead of doing this, however, one of them added fuel to the flames in the shape of an empty bag which had contained charcoal and was consequently saturated with dust from the same, an ingredient about as inflammable as gunpowder."

"Then all of them ran to the steam fire pump connection and made a bungling attempt to connect the hose therewith and tangled it into knots, rendering it entirely useless."

The chief engineer's license is revoked because he failed to see that the hose was properly stretched before turning on the power which caused it to burst."

## DARWINIAN THEORY.

Prof. Hugo de Vries of Amsterdam Combats It.

St. Louis, Sept. 22.—Great interest has been aroused in the International Congress of Arts and Sciences by the theory advanced by Prof. Hugo de Vries, professor of botany in the University of Amsterdam, Holland, who, combating in the open Darwinian theory of the origin of species, advanced a theory of his own in diametrical opposition to all

## TEA

Good tea is better than most of us know. You may as well know Schilling's Best.

Idea of former and present biologists and physiologists.

Prof. De Vries asserts that no two of the same species of animal, from the lowest stages to man, are alike in any important particular. Through heredity he claims that the distinguishing feature of an individual is not transmitted to the offspring of that individual, which, in the theory of Darwin, represents the main principle, and who claims that by heredity passing from generation to generation, the peculiarities of the individual result in a new species.

Prof. De Vries said that he had offered proof before the scientists that an entirely new species may be developed within one or two generations.

The deeply scientific points advanced by Prof. De Vries have aroused the denials of Darwinism and biologists to immediate interest and precipitated a general discussion among the scientists in attendance upon the congress.

Sectional meetings continued today. Exceptional interest is manifested in all the numerous meetings, and men of prominence from all portions of the world continued to arrive today, adding the great appreciation in the scientific importance of the present assembly.

## Railroad Wreckers Executed.

New York, Sept. 22.—The Japanese military authorities, according to the Herald's Seoul correspondent, have executed three Koreans who were caught Aug. 27 wrecking the Seoul-Wiju railroad. Investigation showed that these Koreans were employed by Russian sympathizers.

## HAMMOND SENTENCED.

Montana Train Robber Gets Fifteen Years.

Butte, Mont., Sept. 22.—A special from Phillipsburg says that George F. Hammond, who confessed to holding up the North Coast passenger train on the Northern Pacific railway at Bearmouth last June, today in the district court had pleaded guilty to a charge of grand larceny and burglary and was immediately sentenced to fifteen years in the state penitentiary at hard labor.

Hammond smiled when his sentence was pronounced and seemed anxious to begin his term at once.

It has been the intention to try Hammond on the charge of murder of Engineer Dan O'Neil, who was murdered in the hold-up of the North Coast at Bearmouth a year ago, but the evidence obtained by the officers was of too flimsy a character to warrant trying the train robber on that charge.

Hammond, the self-confessed partner of Christie, yesterday pleaded guilty to a charge of larceny and was given seven years and taken to the penitentiary.

## BOARD OF LADY MANAGERS.

Secretary to Same Abolished Because of Friction.

St. Louis, Sept. 22.—The board of lady managers of the Louisiana Purchase exposition has abolished the office of secretary because of friction between the incumbent and persons connected with the board of lady managers.

## Judge Herriek Will Resign.

Albany, N. Y., Sept. 22.—Justice D. Cady Herriek will resign from the supreme court bench as soon as he can finish the legal work now before him. He has written to Presiding Justice Charles E. Parker of the appellate division, third department, requesting that another justice be designated to preside at the September term, which will convene here next Monday. His term will expire on the 1st of February, 1905.

## Newman Has Not Resigned.

Cleveland, O., Sept. 22.—President W. H. Newman of the New York Central road, in a telegram to a local paper today, denied the report published that he had resigned. He added that he had no intention of doing so.

## L. A. Enders' Body Found.

Great Falls, Mont., Sept. 22.—The body of L. A. Enders, the man who mysteriously disappeared 12 miles from this city 10 days ago, and for whom hundreds of people have been searching, was dynamited to the surface of Sun river shortly after noon today, from where it had lain in a deep hole.

Enders had gone hunting on the morning of his disappearance and it is supposed he was killed by a bear after ducks he shot, and fell from a stump which he was cutting.

Enders was for many years a prominent business man of this city and leaves a widow, but no children.

## Held as Japanese Spy.

Cincinnati, O., Sept. 22.—Dr. Hermann Bayless of Los Angeles, formerly of Cincinnati, has written to his sister, Mrs. Bayless, in Los Angeles, that he had been held as a Japanese spy.

## Good tea is better than most of us know.
