FIRE PROTECTION IS INADEQUATE

Karl A. Scheid Makes Strong Recommendations to Council—More Firemen Needed.

CITY AND COUNTY REGISTRARS

Appointed by Commissioners—Movement to Organize Choral Society—Dental Convention.

Ogden, June 2.—For the primary purpose of securing a reduction in the fire insurance rates for the citizens of Ogden and to inaugurate a more efficient and systematic fire fighting method, Karl A. Scheid, state inspector for the Underwriters' association, sent a communication to the city council last night. Eighteen suggestions for improvements in the fire department were recommended which if followed, Mr. Scheid believes, will materially reduce rates of insurance now existing.

Mr. Scheid makes a stab incidentally at the Ogden Waterworks company by declaring that the system is inefficient and unreliable for the needs of the city. He also believes that the fire fighting force should be increased to 25 men. That some one should be empowered and directed by the city to require all rubbish which may be the means of starting fires, removed from the rear of stores and business places in the heart of the city.

His communication was referred to the fire committee and the committee on public buildings and grounds. Payrolls amounting to \$1,796.92 were approved.

Clark David Jensen of the municipal court reported that he had turned over \$2,678.55 to the city treasurer during the month of May in fines and forfeitures.

The report of the sanitary inspector showed that the following contagious diseases had been reported to his office during the month of May: 6 scarlet fever, 12 small pox, 5 diphtheria, 12 measles, 2 pneumonia. The matter was referred to the police committee.

Because he is unable to give his time to the work, Joseph S. Peery sent his resignation as a member of the board of directors of the Carnegie free library.

Extensive Meetinghouse Improvements—Close of Successful School Year.

Special Correspondence.

North Ogden, Weber Co., June 1.—The district schools of this place have just closed a very successful school year under the principalship of Prof. John Wheeler, assisted by the Misses Pearl Swift, Pearl Jones, Florence Lloyd, Elsie Halverson. Eight pupils were graduated from the eighth grade. The closing exercises were rendered in Jones hall in a very creditable manner.

As soon as the school building was vacated a force of men commenced pulling it down, to be replaced with a modern eight-room building, to be completed by Sept. 1 for the opening of the new school year. The structure is to be a two-story with half basement for play rooms and heating furnaces.

Over \$12,000 is being expended on the ward meetinghouse in the erection of a three-story annex on the north for class rooms on the first floor, and amusement hall on the second floor. A lobby and tower to grace the front of the meetinghouse and a spacious gallery in the south end will greatly increase the facilities for accommodating large audiences.

Ward conference of the Primary association will be held in this ward next Friday.

The Utah stake academy is just closing a most successful school year. Principal William J. Shaw and his associate teachers, A. Theodore Johnson, J. Robert Robinson, H. K. Porter and Mrs. Anna Smart, may well be proud of the results. With the next year a change of teachers takes place with the exception of A. T. Johnson.

The district and Congregational schools are also holding class and closing exercises and judging from the freshness and vigor of the exercises and the well developed and thoroughly executed parts of the program, they have had a very successful school year.
