SALLY SLY AND JANE MCKEAN.

HUMOROUS REPORT ON BUTTER.-The benificence of the Creator is manifest, in so disposing sine qua non in a wife that she makes prime butour tastes, and so adapting these to the varieties ter, and the young ladies who aspire to be farwith which we are surrounded, as to make life a scene of enjoyment instead of a burden.

It might have been that necessary food would have been nauseous as it is sometimes to the not only the sharp corners of crust and crackers, ter that time, will be thankfully received by his diseased stomach had it not have pleased the Creator to have ordered it otherwise. Bread is per. the staff of life, but butter is given to make it slip down easier, and with a better relish.

But it depends something on who makes the butter, whether it answers this purpose. Butter Stifft Marienberg, describing the devastations of made in Joe Bunker's house, needs to be eaten in the floods, which have recently laid waste the the dark; then to make it pass well, one or two upper part of the village of the Adige, or Etsch, other senses should be laid aside-while that from which we translate the following passages: made by his brother Jonathan may be eaten in the full blaze of noon; you would wish that your neck was as long again, that you might have the pleasurable sensation of swallowing prolonged, its appearance, which was not before the begin-Perhaps a bit of the history of their better halves will explain the whole matter.

Joe's wife was Sally Sly-when a small girl she was sly-she would not half wash the milk pail, but sly it away and let it sour. She was sly at school and did not half get her lessons, but would have her book in sight when reciting-but as she grew older she learned that to get well married, she must appear well, and so she bent all her cunning to get a superficial education in destructive fury. everything, from roasting a polato to playing the has no eyes," so he married her.

But soon after she entered on housekeeping, his flood amongst the villages on the banks of the eye sight came, and he saw his fix, that it was Adige. Like a true philosopher, he concluded rible visitation; but I may state to you that, at to endure what he could not avoid or cure, and got along tolerably well, only when he came to her butter, for his mother was a real butter maker. Every time he saw or tasted of Sally's butter he felt the horrors. Her manner of making butter, is somewhat as follows: She thinks it of tinually. no consequence whether the milk pail is sweet or sour-sets the milk in a warm room, because it is easier than to go into the cellar, and if some dirt should blow into the pans she thinks every man must "eat a peck of dirt," and in no place will it slip down easier than in butter-she lets rushing forward to another scene of destruction. the cream pots be open, and when she churns forgets the poke; leaves the cream at blood heat that it may come quick. When she takes it out of the churn she picks out the bodies of all flies and spiders-the legs and fertile corn fields. and wings are so small they can be swallowed. She works out half the buitermilk and sets it away in a warm place for use. Poor Joe has seen so much of this kind that he declares butter being swept away by the flood. does not agree with his health and will not taste it. Yet his wife wonders why he does not try banks, and lay waste the neighboring fields. it, and marvels that he does not keep a dairy, and make butter for market. Jonathan was a younger brother of Joe, and he had occasion to eat at his brother's enough to in the waters. know why he did not eat butter; and he declared he never would marry without knowing what his bread would be buttered with. Following the bent of his fancy he made several attempts at matrimony, and Julia Jumper almost caught him -for there was always good butter on the table for tea, but he was determined to know who made it. The old lady said her health was feeble-she could do but little, and Jenny had the whole management. He made some round-about inquiries concerning Jenny; and heard that she was a hearty, black eyed lass of about two and twenty; had never seen a piano or attended a ball, but knew the assembly's catechism, and could sing Old Hundred to a charm, spin flax and darn stockings, and was then gone ing torrent, but can only communicate by to town with butter. Now the main difference between these two women arises from the manner of training, tho? there is no difference in natural disposition. Old Madam Sally never looked on to see that Sally did up her work right, but suffered her to sly off her work as she chose, and though a good housekeeper herself, was altogether too indulgent, and like some other mothers, thought more of getting Sally well married than of making her fit for a wife-while Old Madam McKean was determined -[Sacramento Weekly Union.
