

LOCAL ITEMS.

CACHE Co.—Bro. Wm. Hendricks of Richmond, Cache Valley, has bought out the partners in the Grist Mill situated on High Creek, thoroughly overhauled the machinery, supplying new bolts and otherwise greatly improving its facility for turning out a quality and quantity of flour second to no other mill in the North.

Persons from a distance can have their grists and rolls by stopping over night.

COMING.—Another storm may be expected tomorrow, as the walking around town is again passably good. Our experience the last month is the basis for this prediction.

The ——. The *Keepapitchin* is again out with some spicy pictorial embellishments. Among other calamities it contains the following sensational, unreliable item:

MARRIED.—In this city, on the 32d inst., after a tedious courtship of over 3 months, Mr. Joseph C. Saxey, aged 31 years, 13 months and 25 days. He was generally considered a well-meaning young man, tho' he had his failings. His weakness was running, wrestling and writing 'goaks.' But that was not what carried him off. Oh no! Well! well! we're here to-day and gone tomorrow!

We have conversed with said J. C. S. on that subject, who flat-footedly denies the charge and says he is as innocent as Prest. Johnson is of high crimes and misdemeanors. Nothing will ever compose the *Keepapitchin* but a set of female compositors.

The following was found posted up down town—no doubt many will patronize the institution. It's a branch line of "Walker and Wades."

Special Notices.

On and after 1st. April, 1868, where letters and papers for more than one person are put in the same box, fifty cents will be charged for each person, in addition to the regular box rent, except when such persons belong to the same family or to the same firm.

I am reluctantly compelled to make this charge, because of the smallness of the revenue of this office.

A. W. STREET, P.M.

Mrs. White has arranged to prolong her stay in the city for a little time longer, and those who desire to rapidly obtain an acquaintance with music should see her, for she communicates a knowledge of the science, by "Robbins American Method," so quickly as to astonish those unacquainted with it. We think our musicians who wish to fully understand Harmony or Thorough Bass, applied to the piano, organ, &c., ought to make themselves acquainted with the system soon, as she will remain here but a short time. She can be found at the Townsend House.

President Heber C. Kimball understands that there are many in this city and in other places adjacent, who have wool to card. He has put up a stove and has the place where his two double carding machines work, in the 19th Ward, near Pugsley's mill and the Ward Meeting House, fitted up so that carding can be done occasionally when the weather moderates. He also has David Le Baron to work them—a man whom the people know to be honest, for he has been well known among them for many years. He can cheerfully recommend Br. Le Baron as an honorable man, who has always given satisfaction to his customers when running machines for him. People bringing wool can have it done when they bring it, if there is enough at the machines to run a day. Bring grease as usual, say one pound to seven.

If the people will not bring wool along to be carded, the place will be closed.
