OGDEN, UTAH, Feb. 8, 1904.

## SAD SUICIDE OF YOUNG WOMAN.

Mrs. William C. Camp in Fit of Despondency Takes Her Own Life.

## GRIEVANCES OF BEET CROWERS.

Funeral of Mrs. Johanna Neuteboom—Gus Johnson Arrested—To Have Bull Fight.

Mrs. Mary Camp, wife of William C. Camp, manager of the Union Pacific telegraph service in Ogden, committed suicide Saturday night by drinking carbolic acid.

The cause for Mrs. Camp's rash act is not known, but it is supposed that she was affected in her mind at times, and that it was while under the stress of one of her depressed moments she drank the fatal drug. Her husband was started to find her cold in death's embrace, with the empty bottle that had contained the drug near by.

Mr. and Mrs. Camp had rooms in the St. Lawrence terrace, corner of Grant and Twenty-seventh street, where they had resided for some time, the husband being employed in the Union Pacific telegraph office at Ogden.

Mr. Camp was only 42 years of age, and no other cause for her rash act can be found, except that her mind must have been deranged. She has a number of friends in Ogden who greatly deplore the grief-stricken husband.

The remains will be shipped to Colorado Springs for interment.

## BETTER MEN WANT BETTER TERMS.

The beet growers of the western and northwestern parts of Weber and Boxelder counties met Saturday afternoon at the county court house in this city to discuss plans by which they may be able to secure better and more advantageous terms for the delivery of beets.

Mr. Cragun was chairman of the meeting, and James Bidwell, secretary. A general discussion was had, most of the farmers taking the view that they were not receiving as much for their beets as they should.

The particular point for which they contend is that they shall receive the same price for beets delivered on the cars as they now receive for beets delivered at the factory.

Under the present arrangement the freight is deducted from the farmer. They claim that the Lehi factory has established crushing stations all over their territory and that the farmers receive as much for beets delivered at these stations as they do for beets delivered at the factory, and that they have further advantages in that they do not have so far to haul pulp.

Letters were produced at the meeting by farmers from Willard to the effect that the Logan factory is paying the same price for beets delivered on cars as is paid for beets at the factory.

It was finally voted that a committee be appointed to meet with the officers and directors of the Ogden sugar factory to see if the matter cannot be adjusted. The committee is composed of: Thomas England, A. Zundell, George Munson, N. Montgomery and Joshua Horne.

## FUNERAL OF MRS. NEUTEBOOM.

The fifth ward meetinghouse was filled to overflowing yesterday afternoon with sympathizing friends who gathered to pay a last tribute to the memory of Mrs. Johanna Neuteboom, who died suddenly Tuesday.

The large attendance and many beautiful floral offerings were evidences of the love and esteem in which the deceased was held in the community. A large gazebo alar was especially beautiful, the tribute of the Netherlands Saints of the Weber stake. The funeral services were presided over by Bishop John Watson.

Ward choir furnished some sweet musical selections. Mrs. Mary Farley sang a sweet solo entitled, "Some Time We'll Understand." President Charles F. Middleton, Patriarch George W. Leitch, Elders J. V. Foye, Herman B. Dent, H. H. Thomas and Bishop John Watson were the speakers, each eulogizing the life of the deceased, her noble traits of character and lovable nature, which won for her so many friends. They all dwelt on the hope of a glorious resurrection for the just. A large funeral cortege followed the remains to their last resting place in the Ogden city cemetery. The grave was dedicated by Elder Thomas A. Shreve.

## GUS JOHNSON ARRESTED.

An employee of the Ogden-Luella cut-off named Gus Johnson is in the toils on a charge of obtaining money under false pretenses. Johnson's scheme to get the coin was a new one, but worked with the railroad people. Johnson, it is claimed, came to Ogden a few days ago with a check for \$100, which he presented to the cut-off. He received his identification check for \$100, which he pawned at Stein's second hand store, receiving therefor \$30. He spent the money and then went to the cut-off office and claimed he had lost his "iden-

tiy," and received a duplicate, which he cashed. When the pay came in Stein presented the check he had, but was informed Johnson had obtained his money on the duplicate. The police were notified and soon arrested Johnson, who claims he was intoxicated and knows nothing of the transaction.

## OGDEN TO HAVE BULL FIGHT.

The people of Ogden will have an opportunity Monday, Feb. 22, to witness a real bull fight at the Glenwood Park grounds. The exhibition will be given by Senor Enrique Robles, a real Spanish bull fighter, from Mexico. Senor Robles is touring the west, giving exhibitions. His manager, S. A. Mann, has obtained permission from the city officials to have the fight, providing no serious injury would be done to the animals. It is also understood they were given to understand that if there is any fake about the proposition the fight will be compelled to refund their money to the people who attend.

## NORTH OGDEN.

### OUTBREAK OF DIPHTHERIA.

For Improvement in Fruit Culture—Flourishing School.

Special Correspondence. North Ogden, Weber Co., Feb. 3.—A number of cases of diphtheria have suddenly developed in the Pleasant View portion of this health district. Edith, the 11-year-old daughter of S. Silver, was taken down with the disease last night, and she was released on the 1st inst. Yesterday five more cases were quarantined in the family of Charles Barnett, viz: Thomas, aged 12; Edna, aged 9; Arnold, aged 7; Andrew, aged 3, and Albert, aged 1½, and a number of other supposed cases are reported awaiting professional diagnosis. Until these developments came to the surface, the health of this district has been remarkably good since the typhoid epidemic of last summer.

### FOR IMPROVEMENT OF FRUIT CULTURE.

Mr. and Mrs. E. G. McGriff have just returned from a two weeks' visit in California, where the Pacific coast. Mr. McGriff, who owns perhaps the largest fruit farm in this county, was naturally wide awake to improve on any suggestion offered in the methods of the leading fruit growers of the Golden State in culture, pruning, harvesting and marketing, and returns with many new ideas, which when added to his already advanced methods, will no doubt fully repay him for the time and means expended. A very instructive feature of his trip was his attendance at the Pacific States Fruit Growers' convention at Portland, at which many important papers were read and much valuable information imparted. Mr. McGriff is fully aware of the necessity of Utah fruit growers being thoroughly organized for the improvement, classifying and marketing of our fruits, that better prices may prevail.

B. F. Zimmerman and family expect to change their present location with us for a new home in Idaho. Our local school board now report the liquidation of the \$3,000 debt incurred in the erection of the new South Washington school building, also that the teachers' fund justifies continuing school to the end of the school year, with a large list of prospective graduates.

The minstrel show presented Wednesday by the local troupe, was well received by a large and enthusiastic audience. The sum of \$447.25 was spent during the past year under the direction of the board of directors for the betterment of our highways.

## RICHFIELD.

### DEATH OF P. D. SCHOEBER.

Special Correspondence. Richfield, Sevier Co., Feb. 4.—Beginning March 20, Sunday train service will be resumed on the Sevier branch of the D. & R. G. railway. This is welcome news to the people of Sevier and Piute counties.

### DEATH OF P. D. SCHOEBER.

News reached here today from Salina that county surveyor P. D. Schoeber of that place died last night from mental collapse. He has been sick since December last. In his denise Sevier county loses a competent and painstaking official. He had recently undertaken the job to map and plat the southern half of the county, but left the work only partially completed. His family will find it difficult to secure a person among his own citizens who can fill his place and complete his work. Why not more of our college bred young men choose civil engineering as a profession?

### MORE DIPHTHERIA.

Another case of diphtheria is reported in town at the home of L. P. Jensen, his 13-year-old daughter has the disease. It is feared that others have been exposed as other members of the family have been going to school.

### STOCKGROWERS' MEETING.

The stockgrowers of Sevier county will hold a meeting here on the 13th inst., at which the stockcrowing are requested to be present.

### RELIEF SOCIETY REUNION.

The Relief society of Richfield ward holds its annual reunion here this evening. The program will be games, dancing and lunch.

Elder Andrew Jensen of the historical office, Salt Lake City, addressed the Scandinavian Saints of this ward last evening.

# DISCUSS UTAH LAKE RESERVOIR.

Utah County People Hear Report of Committee and Talk on Big Irrigation Project.

## SUBJECT FULLY VENTILATED.

District Court Business—Logan Wins Basketball Game—Thomas-Prestwich Nuptials.

Special Correspondence. Provo, Utah Co., Feb. 8.—A large meeting of Utah county people interested in the Utah lake reservoir project was held in the meetinghouse, Saturday afternoon, to hear the report of the committee appointed at a similar meeting of a year ago. Roger Farrer was elected chairman and Jos. H. Keeler, secretary of the committee, acted as secretary.

Chairman Farrer and Secy. Keeler presented reports of the labors of the committee, citing their meetings with Salt Lake people, interest in the Utah lake reservoir project, government officials, etc. President Farrer called attention to the notice of appropriation of the surplus water of Utah lake and its tributaries, made by Salt Lake City in 1900, by which it was proposed to raise the lake five feet, as an evidence of the necessity for some action being taken by Utah county people at the time the committee was appointed.

By request, explained the project of lowering the outlet of the lake and using it as a reservoir as recommended by the government officials. Thomas Dallin made an earnest speech against permitting the lake to be drained, referring to the benefits resulting from evaporation and advancing the theory that by draining the lake the humidity of the atmosphere would be greatly decreased. He was of the opinion that the lake was drained Utah county would be a good place to move away from. Mr. Dallin had read an article by Marcus E. Jones, which partially supported his views, and offered a resolution to the effect that Utah county should resist any encroachment on the lake.

John Dallin also expressed himself as greatly opposed to having water drawn from the lake, and presented figures to show that in five years of pumping and draining the lake would be entirely destroyed.

John B. Milner gave measurements taken in 1902 and 1903, which showed that the lake had only been lowered about two inches by the pumping at the mouth of the Jordan.

M. P. Madsen was opposed to permitting the lake to be drained, and leaving in its place nothing but mud puddles and saleratus beds. He contended that while it was no doubt true that the lake had only been lowered two inches, as compared with the level of 1902, by the pumping in 1903, it had really been lowered about a foot, as the large precipitation of 1903 would have raised it a foot, if no pumping had been done.

Judge Milner read from the agreement entered into by Salt Lake and Utah county people, which agreement gives Salt Lake City and the canal companies the right to lower the outlet.

J. B. Keeler was of the opinion that the lowering of the lake would not be fraught with such dire consequences to the people of this county as he had expressed by some of the speakers. He favored the reservoir project, and advised that Utah and Salt Lake county people confer together and agree upon some plan that would be beneficial to all.

A. M. Carter favored the reservoir project, but advised that the right to reservoir water in the mountains and to use it on lands that would be drained by the receding of the lake should be reserved.

Mayor Roylance, Caleb Tanner and Walter Scott also expressed themselves along the same line.

Andrew Knudsen thought the time had arrived when the question regarding Utah lake, which had vexed the people of the two counties for many years could be settled in a manner that would prove advantageous to all parties.

C. A. Glazier read a portion of a letter from Senator Smoot in which the senator expressed pleasure that the meeting held in the courthouse here, about two weeks ago, when Prof. Newell was present, had been so favorable to the government being in charge of the project, and that he was urging a plan which would bring more water into the valleys of Salt Lake, Cache and Utah. This would provide water for the arid lands of Utah county.

E. B. Hinckley spoke in favor of the reservoir project believing it would prove beneficial to all concerned. Thomas Dallin again spoke in favor of the resolution, which he had introduced early in the meeting. A vote was taken and the resolution was adopted.

Mayor Roylance moved that the committee, which had reported today be reinstated, and that it continue its labors; that an expression of the desires of the people of this county be obtained, and that the committee confer with the committee appointed at the South Jordan meeting of last month. This motion carried.

C. A. Glazier presented a resolution to the effect that it be the sense of the meeting that it endorse the plan of reserving the lake, provided the water be not raised above compromise point, favored high land reservoirs and the bringing of water in from the Duchesne river and Struckwater creek.

This resolution provoked considerable discussion, the speakers being Andrew N. Holdaway, M. P. Madsen, Judge Milner, George T. Pay and others. The meeting adjourned without any action being taken on the resolution.

Prior to adjournment James A. Lovelless was appointed a member of the committee, which will look after Utah county people's interests in place of Theodor Farley, who has moved to Arizona. The committee now stands: Roger Farrer, president; Joseph B. Keeler, secretary and treasurer; H. T. Reynolds, E. S. Huckleby, M. E. Snell, A. B. Walker and James A. Lovelless.

### DISTRICT COURT.

In the district court Saturday Max Rehe, a native of Germany, residing in Lehi, was admitted to citizenship. A large number of probate cases were heard and disposed of. *Thomas E. White vs. Joseph M. White*, order to show cause why defendant should not pay alimony; evidence heard and the matter taken under advisement. *Peter J. Blisk vs. Martha Blisk*, divorce granted on the grounds of desertion. The parties are from Santaquin and were married in 1891. The desertion is charged from 1900.

*Thomas E. White vs. Joseph M. White*, divorce granted on the grounds of desertion and failure to provide. Plaintiff was given the custody of five minor children. The parties were married in Utah county, Tennessee, Dec. 14, 1891.

### BASKET BALL GAME.

The basket ball game played Saturday evening in the B. Y. A. gymnasium

# The Best Japan Produces—Tree Tea.

SALEM. FAMILY REUNION.

Gardner and Cloward Clans Meet and Make Merry.

Special Correspondence. Salem, Utah Co., Feb. 4.—The inhabitants of our little town are becoming wise to the fact that the life of the spirit of sociability which has been asieep within our borders so long. The family reunion of the Gardner and Cloward clans make an epoch in the town's social history. It was the most unique party of the season. Friends and relatives met from far and near for the sole purpose of spreading happiness and merriment and were entirely satisfied with themselves for having come. The occasion brought joy to all present, reflected honor upon the community, and was pleasing to the aged parents.

## SALINA.

### RETIRING BISHOP HONORED.

Open Winter With Little Snow—Irrigating Water Will be Scarce.

Special Correspondence. Salina, Sevier Co., Feb. 5.—Salina has had an open winter, very little snow has fallen, yet it has been continually cold; streets have been dusty most of the winter.

The price of wheat has been good, and the farmers have received good returns for the grain. Little rain has been in demand for cattle and those who depend on stock sales for ready means are hard run.

From present appearances water for irrigation will be a scarce thing the coming season. The reservoir, located about a mile above here, about the old Rocky Ford on the Sevier river, is practically completed and filled with water, so that the people will have water to irrigate their crops next spring under that system.

There are rumors of prospective activity in grading the Salina cut-off branch of the R. G. W. Ry. It is to be hoped they will materialize as it would open up, perhaps, the greatest coal field in the United States.

### RETIRING BISHOP HONORED.

The good people of Salina, of all creeds and classes, united in the most beautiful and quiet to the retiring bishopric last night. J. S. Jensen has been the Bishop of this diocese for the past five years. His resignation has been accepted and Carl A. Madsen has been chosen Bishop. An excellent report was prepared for the guests that had assembled at the home of the retiring bishopric, to whom a silver set was presented in response to the presentation of the bishopric. The bishopric was presented for Madsen each made feeling addresses. An excellent program was rendered and a most enjoyable time was had.

## GUNNISON.

### HAPPY WEDDING BELLS.

Mild and Open Winter—Leap Year Ball and Other Socials.

Special Correspondence. Gunnison, Sanpete Co., Feb. 4.—Last evening the first leap-year ball of the season was given under the auspices of the Gunnison Social Club. The ball was a success in every respect. The ladies paid for the tickets, while their male companions treated them to a most delicious dinner.

### Cures Colds in Great Britain.

Laxative Bromo Quinine. To get the genuine, call for the full name. 25 cents.

## SMITHFIELD.

### OLD FOLKS' REUNION.

Feasting and General Festivity the Order of the Day.

Special Correspondence. Smithfield, Cache Co., Feb. 5.—The old folks' reunion of this ward was held at the tabernacle last Wednesday. Three hundred persons assembled to show honor to all over 60 years of age. An excellent program was rendered in the morning, and about noon scores of persons sat down to tables spread with the best the town could produce, after which another fine program was rendered, consisting of songs, instrumental music, step-dancing, recitations, and speeches. The Rev. Mr. Hamilton gave an excellent speech. After the afternoon program the old folks were taken to their homes. The evening an old-fashioned opera house, where many of the guests of the day participated.

To see the harmony that prevailed in all creeds mingled together, and in a cellar spirit, was indeed a treat and a time long to be remembered.

## INVERURY.

### FINE SCHOOL BUILDING.

No Snow in Valley, Little in Mountains—Musical Director Surprised.

Special Correspondence. Inverury, Sevier Co., Feb. 2.—A fine brick schoolhouse is being built here, which, when completed, will be a great credit to the people of this school district. It is 60x80 feet, two stories high. We have three schools running here now under the able management of Mr. Oscar Anderson of Salina with Miss Ada Nielson in charge of the intermediate and Mrs. Asa Staples of the primary grade.

There is no snow here in the valley and but little in the mountains.

### MUSICAL INSTRUCTOR SURPRISED.

Last night D. W. Jackman, the musical instructor of the choir, was very happily surprised by a social call made upon him by the Bishop, the choir and leading members of the ward. The evening was spent in felicitous addresses, songs, and recitations, followed by a bounteous repast. As it was his daughter Gertrude's 11th birthday, the surprise was a genuine one on the instructor.

## OWES LIFE TO REXALL.

Stomach Trouble Affected Heart—Cured By Dyspepsia Tablets.

Many cases of heart trouble are due to dyspepsia. Gases formed in the stomach cause it to become distended and to push the lungs against the heart. Sharp pains and palpitation are the result while in some cases where the heart is weakest the pressure is sufficient to stop its action altogether.

### A WONDERFUL CURE.

I had dyspepsia so badly that it affected my heart and I was nearly dead. I saw Rexall Dyspepsia Tablets advertised, procured a box and used them according to directions. I am now completely cured. I feel that I owe my life to Rexall Dyspepsia Tablets.—Mrs. Ella Willis, 235 N. Tupper St. Buffalo, N. Y.

Rexall Dyspepsia Tablets cure stomach trouble by supplying the stomach with the element of which in the gastric juices causes indigestion and dyspepsia. They enable the stomach to digest all kinds of food and to quickly convert it into rich, red blood.

We know what Rexall Dyspepsia Tablets are and we guarantee them to cure all stomach troubles. They are sold in all drug stores, or by mail.

## THURBER.

### CREAMERY FOR WAYNE CO.

No Snow Yet—Cattle Doing Well—Horses For Canada.

Special Correspondence. Thurber, Wayne Co., Feb. 4.—Jas. McKee recently left for Canada with a carload of horses, in company with Geo. Perry of Lehi.

We have had no snow yet, but cold and some wind. The ground is dry and dusty, cattle and sheep on the range are doing better generally than when fed. The school district is holding a fair Saturday with a fair attendance.

There is some pretty strong talk of building a creamery in this section of Wayne county.

## LEIGH, IDAHO.

### OUTBREAK OF DIPHTHERIA.

Alarming Situation at Medicine Lodge—M. A. Conference.

Special Correspondence. Leigh, Fremont Co., Ida., Feb. 2.—Dr. O. C. Armbryst of Rexburg, arrived here this evening to investigate the disease that is troubling the children of G. W. Hendrickson. The doctor pronounces it diphtheria.

A telephone message was waiting for the doctor at the Leigh office to the effect that a terrible disease was prevailing at Medicine Lodge, in the western part of this county; that one child died last night and several more were lying at the point of death from its effects. The message said it seems to be fatal to all who are attacked. The doctor will leave here early in the morning for the above named place.

The M. A. conference held at Driggs last Saturday and Sunday was very well attended and many valuable instructions were given by Elder Todd and Sister Bixen of the general board from Salt Lake, and also by the local brethren and sisters. A general good time was had by all.

### THATCHER, ARIZONA.

#### HOMICIDE AT SAFFORD.

Strong Opposition to Arizona-New Mexico Merger—Temperance Crusade.

Special Correspondence. Thatcher, Graham Co., Ariz., Feb. 1.—Perietta, the 11-year-old daughter of Thomas S. Merrill died here Friday and was buried yesterday. Funeral services being conducted by the Methodist church. Inside of three years this good family has lost by death a grown son and grown daughter and last the daughter now called.

Little Perietta was playing with the school children but just before she died, complaint of the throat was the immediate cause of her death.

#### HOMICIDE AT SAFFORD.

The town of Safford has been the scene of a most sensational case. Dr. L. W. Smith of that place, was shot and killed a week ago last Friday afternoon by his stepson, Eugene Wick. The doctor was a great favorite in the valley, having successfully practiced his profession for many years. The doctor was shot high in the back, the bullet passing through the lungs, and the doctor died before the wound was fatal. The doctor was a great favorite in the valley, having successfully practiced his profession for many years. The doctor was shot high in the back, the bullet passing through the lungs, and the doctor died before the wound was fatal.
