the BERS COLONI.

lingens Deby, as has been aunousced in the discatches, has for some time been engaged in a scheme, for for the seablishment of a conjectative colony on socialistic principles, and Utah has been mentioned as the Sitze in which the experiment would be likely to meet with success. Temperary, june 15, a meeting it to be issue in Chicago, for the premotion of the invessment. It appears that the lexical results of the Middle of the Rand Papallet in Tease flut that the excess of the Middle of the Rand Papallet on Tease flut that the terms pensibly can be utilized for pullflest purposes, and Mr. Hersicy, challrand or the Twas Papallet committies, will therefore columns to execute the colony for his state.

endamon to secure the colony for the state.

This idea is, as is well known, not new. But it might reasonably the expected that the many satisface of such colonies would deser far there experient to the many satisface of such colonies would deser for their experiments until these can be made on some handsomental principles militarit not thoroughly put to test. With the scelar training at pre-sut available to the individual municipes of society, it would seem that the only co-speration practical is that which in some extent regulates the prices of commodities, and if this could be still further extended on the prices of commodities, and if the could be still further extended over the result of his own labor, and at the same time place him on the social level that tellongs to him properly, there would be no need of the wild schemes that exem to be donound to satisface.

There are many reasons way the colonies we are established have halled, and the principle ions is perhaps lack.

There are many research way the colonies or far established have falled, and the principal one is perhaps less of pravious training. It has become to natural to individuals to hack cut for their own Justerski first, that when they are put in a position where it is necessary to take nearly mes of the common interest as the principal size, they less less. They are to do thus element, help-less as one in the water who common interest as the principal size, they less less. They are to do thus element, help-less as one in the water who common source to the state of the most wind a source set in the proper proporation for successful co-speration, such as that on which some lesiers bim have span more necessary to means, would be the first deferminant of the individual to help with the summer of the more described as the masse and in their midst taught account through sacrifies of set. Not till the fundamental principles of Christianity are preparly understood and crists into cheek can co-operative modonies be mocessed. In the bottoling of a structure the quality of the material is as mean that with searches of contact a faint on long commandations and to told the sonial faints on long commandations and with materials.

### THE SABBATH AND PLEASURE.

THE NABURATI AND PLEASURE.

The sesson for summer accutations is tairly insagnated, and there is no objection to a reasonable amount of divertion to that line. The people of the people of the line o

is near at hand that their value is not mily recognized.

While these native advantages should be utilized by the people in considering to their health and pleasure, it is much service times and pleasure, it is much serviced times and constitute the supported times and constitute as examples of Sunday sumesampts or examples of Sunday sumesampts or examples. No outside a normal coordinate. No outside so normal coordinate is also for bothing at lake exacts to winter or for compage to law anowed the daypons at late example to the same diffield only one and tourself is such proceedings they would be decidedly injurious to abysion results, man would not be assurable under any artifacty cursuitation. The Subday suite-sensite uncert and spritting health; no most relate this and touting in the investment of the subday of the Submitter, facility in the same relate this and touting in the investment of the Submitter, and the substantiant, facility the same pools, in their supposed Desmitty, facily the Subbath respirates whice of pleasure-seeking the same processes.

Some of the agriculturiate of the S. ate are looking a fittle that you now even the crop prospects. There has been a not, org spell here that he uncant for the clinking sleep of May and the first intif of Jone, and are result there has been much parching of crops, which has been sought to be warned of hy Prigation to start growth. There he call from one part for rain, and from accident for the showers to be deferred, lest the hours crop, which has been out and he now down in the fields, thall be rained suiterly. But from all only may be a seller for the second of the second of the control tonly a buttless will do heavier yet. While there is no notice for siarm as to any serious results, it looks now as it the failing off in the grait yield will be sufficient to make thrilly persons vary carfail about disposing of any supply on mand, and in avoid anything like as altravagant outlay of funds less there to be a missequent contraction in revenue. It is no be begat that the crop propects will brighten up considerably to not they still are sufficiently good to these area feeding at gloom, though they suggest that a careful distinguishment of means is one thing every householder should have an eye to.

CALLIMS FOR CO-OFERATION.

New Oucesions, the Chicago magnitus of scotial progrew, has an article discousing conjugates, has an article discousing conjugates that the strong institutions it recognizes that the strong institution is the strong institution in the secondary spirit in all ranks of rockety. Yet it is shown that the middle or labering classes are present by a burdensome industril system that they are now looking with experience for any opportunity that will offer a change or the better. They know that the individualism referred to does not individualism referred to does not straight the wears sought; and the docurse of cooperation is being urged at the wears of wears, and being received with favor to lise business in part of the processing of the strong of cooperation in the singuistic in various to do so the plan of operation for this own of the support of the country. The form he suggested to be under an arrangement similar to that by which in which is must be thought from that country. The form he suggested to be under an arrangement similar to that by which the statutes of some other scales. As to cooperative investment operations, in such that statutes of some other scales. As to cooperative investment may be regarded as the select

under the statute of some other states. As in comparitive in resident, in says.

The prime research with resident, in says.

It is prime research with the management of all investments is that the management of the institutions is more compared by democratic than any other form towards in the world is the power of public optimize. No law tend any value with his motivation, the world is the power of public optimize. No law tend any value with his motivation of the public of public optimizes, and optimizes of the public of public optimizes, and optimizes of the public of public optimizes of the public of public optimizes of the public optimizes of

ts, which after may be better name unfeatures, stands in the way so that go-perative surpose. In coneral form seems a long ways of to small bewices in the country. Great combinations of supplies succeed because they are for complete to be followed but the discussion that therefore from a same-rouse body of charactives to be as a tone country in the of-operation of smaller lovesings, are so many as in greatly impell settle the three pulses of the solution of the same and a supplies of the solution of the solution of the most are sufficiently educated in the solventage of 1 rating to the minuted weight control to the solution of the solution of the same and weight of the solution of the solution of the same of the same

### CATTFORNIA'S WIDE THE LAW.

inquiry has been made for the provisions of the recent California statute names in the finers in the good mass movement to that state, and make in the finers in the good mass movement to that state, and movement to which the provision of the state, and the state of the state, and the public rosus of the state, since the use of write trees for vehicles prevent the public rosus of the state, since the use of write trees for vehicles prevent the state, and the control of the state, and the control of the state, and the vehicles are with a great of the state, and the vehicles are with a first for wheals upon wagons or other vehicles may buy no public high ways to the state abail to, for the following styles of wagon, as follows: Two and three-lowths inch steel or thinks the state of the following styles of wagon, as follows: Two and three-lowths inch steel or thinks the state of the following styles of wagon, as follows: Two and three-lowths inch steel or thinks inch state or the state of the st
