THE EVENING NEWS. GEORGE Q. CANNON, EDITOR AND PUBLISHER. - - - July 25, 1871. Tuesday, CELEBRATION TWENTY-FOURTH AT OGDEN Grand Procession ! ORATION, ADDRESSES, ETC.

And these Pioneers of 1847 planned for i themselves and the people who should come after them; they drove the stakes at the four corners of the Temple Block; sur-veyed and hid off the city of Salt Lake, partly constructed a fort for the safety of

our emigrating companies and families, who were closely following upon the trail which they had made, and who had the most implicit and undying faith that their leaders, the Pioneers, would find a suitable place where they could dwell in peace. The Pioneers did not remain until the emi-

To this place the chief portion of the Pioneers returned the same season, singing

These scenes have all passed, and yet we live. We do not care to dwell upon the route, of the procession, a little alread. After this, and at the head of the long, connected train, came the veterans of the Mormon Battalion, bearing a banner, on which was in-scribed "Herces of '46." Then came the advance guard of the weatward the advance guard of the weatward the advance guard of the weatward the banner, the place "sought out," "a city not forsaken." I well remember being invited to take a slimpes of the valley by President Brig-ham Young, in whose organized company, in the year 1848, I first travelled to this country. I shall not undertake to depic the many emotions which perveded the full heart while thus viewing the perveded the remination of the long and wearisome jour-mey, the antisipated joys of meeting with ney, the antisipated joys of meeting with long separated iriends, the hopes, peradven-ture the fears, of the future which involun tarily arose and agitated the human breast.

In after years many a weary pilgrim balted there a brief moment to reat his tired limbs after walking up the sicep ascent; for in those days we all walked up and down the those days we all walked up and down the souri River, as the place now called Flor-ence, where they had left their families with the moving camps of Israel; I say moving camps, for all were on the move, and at Winter Quarters they allowed the move, in order to lighten the burden of our still more weary teams. You can better im-agine than I can describe, how the first gieam of that long-looked-for, promised rest would stir the immost soul, awaken rapid thought, and evoke overflowing sen-sations and feelings. Pardon the digression I must no longer linger here. The traveler does not pass this world, who, ostensibly aiming to improve society, ignore its divinity and triffe with its sacred truths ! Reforms established on such a basis, would, if successful, dissolve overy tie and obliterate all that is dear to the heart of a virtuous, high-aiming wo-man. We pro-pose to still travel these roads which we have made over those lower passes and down those caster grades; and they are for all to travel thereon who choose to do so, upon the same and equal terms; but no one must be allowed to break up the bridges or jostle us off over the banks.
