The Osages Declare War.

WASHINGTON, 22.—The following telegram was received here to-day, from Governor Osborne of Kansas:

"I have information, through Indian agent Stubbe and other sources, that the Osage tribe of Indians, in a recent council, declared war against the State; depredations have already been committed by them on our southern border. The State has but few arms, and the U. S. troops heretofore guarding the line being now in Indian Territory, at a great distance from the Osage reservation, exposes the frontier settlements to great danger. With arms we can defend our border; can you furnish me 2,000 carbines and accoutrements, and 100,000 cartridges on account of the State of Kansas?" The telegram has been referred to the War Department.

Negroes and Whites Fighting.

LOUISVILLE, 22.—Governor Leslie has called out four companies of militia to quell the disturbance occasioned by whites and blacks in Lancaster. A dispatch says that spasmodic fighting has been going on since Wednesday.

Just Retribution.

BROOKHAVEN, Miss., 22.—The three negroes, Dick Cooper, Anthony Grant, and Silas Johnson, who, at three o'clock on Sunday morning last, forced an entrance into the dwelling of Mrs. Burnely, and violated her person, were taken from jail this evening and hung by citizens, about 1000 of whom were present. Johnson was captured on Sunday, the other two were captured at Canton, and brought here this morning and lodged in jail. All confessed their guilt on the gallows.

Dispatch from Custer.

ST. PAUL, 22.—The report of General Custer to the department commander, dated Bear's Butte, Black Hills, was received this morning at General Terry's headquarters. The General says, "I propose to return by a different, although perhaps not a shorter route than the one adopted in coming to the Black Hills. I am induced to make this change in order to embrace a large extent of unexplored country, and particularly to follow and locate as much as possible, that portion of the Little Missouri of which nothing is now known. I expect to reach Fort Lincoln on the 21st of August. The health of the command is most excellent. This expedition entered the Black Hills on the West side, and penetrated through the eastern and most southern range, explored the major portions in the lower part, passed out at the most eastern ranges, which form the boundary of the Black Hills. The Black Hills are not impenetrable, as heretofore reported, though the appearance from the exterior indicates the interior to be full of obstacles and barriers. In regard to the character of the country enclosed by the Black Hills, I can only repeat what I have stated in previous dispatches, that no portion can boast of richer and better pasturage, purer water, of a natural temperature, which, in the summer, as it flows from the earth, is but twelve degrees above freezing point, and of greater advantages generally to the farmer and stock raiser than are to be found in the Black Hills. Building stone of the best quality is found in inexhaustible quantities, wood for fuel and lumber in abundance. Rains are frequent with no evidence in the country of either drouth or freshets. The season, perhaps, is too short, and the nights too cool for corn, but I believe all other grain could be produced here in wonderful abundance, wheat would particularly yield largely. There is no doubt as to the existence of various minerals throughout the hills. As this subject has received the special attention of experts who accompanied the expedition, and will be reported upon in detail, I will only mention the fact that iron and plumbago have been found, and beds of gypsum apparently inexhaustible in quantity. I referred in a former dispatch to the discovery of gold; subsequent examinations at numerous points confirm and strengthen the fact of the existence of gold in the Black Hills. On some of the water courses almost every panful of earth produced gold in small yet paying quantities. Our brief halts and rapid marchings have prevented anything but a very hasty examination of the country in this respect, but in one place, the only one within my knowledge where so great a depth was reached, a hole was dug eight feet deep, and the miners report that they found gold among the roots and moss, and from that point to the lowest point reached gold was found in paying quantities. It has not required an expert to find gold in the Black Hills, as men without former experience, in mining discovered, at an expense of little time or labor. As an evidence of the rich pasturage to be found in this region I can state that our beef herd, after marching upwards of 600 miles, is in better condition than when I started, being now fat as is consistent with a marching condition; the same may be said of the mules and horses."

Custer's Expedition.

ST. PAUL, 22.—A telegram from Bismarck conveys a dispatch from the special correspondent of the *Daily Press* with the Custer expedition as follows:

"Camp Custer, Black Hills Expedition, Bear's Butte, D. T., Aug. 15.—The command reached here yesterday in good health and spirits. We left Custer Valley on the 6th, and have had short marches and good camps. Gold and silver found in several places in quantities, and game in abundance, bear, elk and deer. Several bears have been killed. The command leaves here tomorrow for Little Missouri, and from there home to Lincoln.

"Another dispatch says that the expedition has completed the exploration of the Black Hills, which proves even richer than was before reported. Gold and silver are found in numerous places, and in quantities so great that miners estimate that with a pick and pan a single miner may take $100 per day. The distance from Bismarck to the gold regions is about 250 miles, over a practicable route. The citizens of Bismarck are greatly excited, and expeditions are organizing."

Last Night's Dispatches.

EASTERN.

Affairs in Kentucky.

LANCASTER, Ky., 23.—Two hundred of the State militia arrived this morning. All is quiet, the negroes and whites having ceased hostilities and disbanded. It was in the house of Mr. Fellers, where fighting occurred on account of the shooting of a white man, but the negroes who were intrenched in it escaped with one exception; two white men were killed. U. S. troops interfered in time to save the negroes from further injury. The blacks are demoralized. Two or three whites who were wounded in the fight are recovering. The citizens who left the town are returning.

A later account says that four negroes were killed and two burned to death in Fellers' house, 350 negroes have been captured and placed under arrest, many of them ringleaders in the riots. It is believed that no further trouble will be experienced.

FRANKFORT, Ky., 23. — This morning County attorney Parry, of Owen county, sent a dispatch to Governor Leslie, detailing the following facts: On election day Willis Russell, Jas. Russell, and others attacking Greenebar, shooting at him several times; they were subsequently arrested by the county authorities, and the time for their preliminary examination fixed for the 22nd, at Monterey, Owen Co. Threats having been made against the life of the county attorney if he should go there to prosecute them, deputy sheriff Summer, with a guard, was sent to protect him. on their arrival they were attacked by the Russells and their friends, and Geo. Mofford, one of the guards, was killed. Perry and the remainder of the guard escaped narrowly. Perry closes with an urgent request for troops. Governor Leslie has ordered a company of the State militia to proceed to Sparta from Louisville, by special train.

Treachery—Filibustering.

MADRID, 23.—Leo de Urgel has been surrendered to the Carlists through the treachery of parties within the city who are friends of the Bishop of Urgel, chaplain of Don Carlos. Gen. Turtary captured the entire garrison of 480 men and thirty-two guns, and the commandant of the citadel.

The government has information that a filibustering expedition is preparing against Porto Rico and has taken measures to put a stop to it.
