WASHINGTON, NOV. 5. Sir-I desire in this formal way to call your attention to the facts and circumstances connected with my appointment to and summary suspension from the high and honorable office of Chief Justice of the Supreme Court of the Territory of New Mexico and Judge of the First Judicial District thereof. I did not solicit my appointment to the office of Chief Justice, but while I was on a business trip to Europe last spring, the entire bar of my judicial district, the Delegate in Congress and many leading citizens of New Mexico joined in the request for my appointment, and after careful examination into my antecedents and my standing as a lawyer, you saw fit to tender me the position. I immediately returned to the United States and held court every day until summarily and without hearing, suspended by you. On receiving the telegram of October 14th, which informed me that I had been suspended, I sent you a dis-patch asking the cause of my suspension, and that I be given a hearing as there would be no courts for ten weeks, and there was no necessity for immediate action. You have never replied to that telegram or others making he same request, and it has been neclearn the cause of my suspension and why I was not, before final action was taken, furnished with the statement of the charges against me, and permitted to answer whether guilty or not guilty. Although I could not learn what had been charged against me, I know there was no act in either my public or private life which would not bear the light of a searching investigation. My effort has been, as it now is, to secure an investigation of all official acts and and doings. I telegraphed you on the

17th, asking for a hearing, but no reply was received. On the 20th and 21st of October, I had the following telegraphic correspondence, with you and the Attorney-General: SANTA FE, N. M., 20. To Hon. A. H. Garland, Attorney General, Washington, D. C.:

Can I have your permission to start for Washington Wednesday afternoon. Please answer immediately.

I can reach Washington in four days and refute any charge against me. Will you not suspend any further action until my arrival? The business cannot suffer as there are no courts for en weeks. Please answer to-day.

sured me that it has not been even in-timated that I am not honest as a man, that I was not honest as a judge and that my legal capacity for the position had never been questioned. Attorney General Garland and Secretary Lamar have assured me of this in yet stronger terms. Since it is not charged that I

attempted to release him from jail and in the riot that followed, three men were killed. Remarkable as it may seem a large number of prominent and influential citizens sustained the parties who had made the attack upon the jail and it was necessary to call in the United States regular troops from Fort Union to quell the riot and preserve the peace. This trouble renewed the old feuds created some years ago, whenf on account of similar trouble, it was necessary to annex Colfax County

to Taos County for judicial purposes, and the feeling between all classes of people was more bitter that I can describe or you can imagine. In addition to this there is a continual war in New Mexico between the sheep and cattlemen in regard to the range and water rights. When the court convened in Colfax County last September, there were 168 criminal cases on the docket, and during that term over 100 more indictments were found, many, if not most of them, growing out of the trouble to which I have referred. Where there had been so much feeling it was of course difficult to obtain a fair jury and I realized that the task of selecting jury commis-sioners was a delicate one. As you doubtless know the New Mexico statdoubtiess know the New Mexico stat-utes provide that the commission to select jurors shall consist of the Dis-trict Judge, Probate Judge of the County and three commissioners ap-pointed by the District Judge, the lat-ter having the right to reject any one

proposed by the commissioner. I have always had a republican on the commission to prevent the possibility of having a political jury and have di-Mexicans and Americans so that race feeling might be avoided. The Pro-bate Judge was a Mexican and a republican. I had never met him, but it was represented to me that his sympathies were inclined toward the sheep owners. Juan Garillo, the other Mexlcan on the commission, was selected because he was a democrat and a Mexican, and had been identified with mining interests. A. E. Burnham had impressed me fa-

vorably on account of his intelligence, and was selected because he was a democrat and one of the few who had no sympathy with any of the contending factions. Ex-Senator Dor-sey had taken no part in the troubles referred to, was the leading republican of the county and probably the largest individual cattle owner. He had been active in his efforts to harmonize the conflicts between the sheep and cattle men, and was in reality a representa-tive cattle man and peace-maker in the county in addition to being a man of wealth and in consequence interested in the good order of the county. I considered all these matters very carefully and it seemed to me, after consideration, that it would be a wise thing to appoint him. I did not do so, however, until after consultation with Colonel Wm. Breeder, Attorney-general of the Territory, who had charge of the criminal cases; Mr. Frank Springer, a prominet lawyer of the Territory and, Colonel Richard W. Webb, clerk of my court. They all agreed that his ap-pointment was the best that could be inade, and I determined upon it for the reason that we could not think of another resident of the county, a republican in politics, so free from local complications or whose judgment would be so valuable in selecting jurors to try the many criminal cases on the docket. The same day I decided to appoint Mr. Dorsey, he happened to be in the court room.

called him and administered the oath and the commissioners selected the jury for the next term. This did not occupy an hour and I am prepared to prove that the juries for the next term are the best that Colfax County has ever had. In regard to my personal relations with Dorsey, I can say that I had never met Mr. Dorsey but once before going to Springer to hold court and then but for a moment. Some time afterward some members of the bar invited me to join them in a trip to Mr. Dorsey's ranch. I joined them, but as Mr. Dorsey was ill all the time we were there, I had no conversation with lim. In the appointment of Mr. Dorsey, it did not occur to me that the els, while fact would have any effect upon national politics or the general policies of your Administration. This view of the case never entered my mind. The preservation of the peace and good order of the community was alone considered. Fishback of Iudiana, who preferred the charge of appointing

Mr. Dorsey against me, may be a very reputable man, but he is a brother-in-law of a very dangerous, violent incendiary, named O. P. Mc-Mains, who resides in New Mexico and who has been convicted of murder there, although he escaped punishment upon a technicality. I have filed with the Attorney-General a certified trans-cript of his trial and conviction, together with all the evidence given at the trial and from which you can see that the murder was not only cowardly, out cruel in the extreme. During the September term of the court decided two causes against McMains, at which

he was much incensed. Doubtless he caused his brother-in-law, Fishback, to prefer the charge which resulted in my suspension. In conclusion, Mr. President, I carnestly request that you will cause, through the agents of your own choosing, a most searching investigation into my whole conduct in New Mexico, whether as a citizen or judge, and that, should you hereafter be satis-fied, as you must be when fully in-formed, that I have been faithful to the sacred trust confided to me, and up-right in all things, you will do me that

justice which you alone can do, and which your high sense of honor and fairness will dictate. I have the honor to be, very respectfully your obedient servant. WM. A. VINCENT. (Signed)

But, however this may be, we n Utah, dependent as we are on the railroads, have no business to be raising wheat for export while we are importing so many things that this country can produce just as well as not. The object that the Lord had in view in opening up to this people the principle of dry farming, [which threw luto culful to every trust.
