This great remedy was discovered of an eminent English physician of great experience, and who has never lost a patient to whom this medicine was ad-ministered. Britannia is not a lotion; no external application can permanent-ly care rheumatism, which is a desease of the blood. Britannia is prepared with the greatest skill, and a teaspoon-full being taken in a wineglass of cold water immediately finds its way to the bloood, where it corrects the pain-causing element, removes it immedi-ately by purifying the life-giving find and gradually builds up the entire sys-tem. Persons who have used this valuable preparation in Utah, tell us that nothing ever helped them as Britannia has done. Many references in Salt Lake City and elsewhere can be given.
