

Pro tunnel for the week ending 22nd, is 2,625 feet. There yet remains 8,000 feet, which will be almost completely completed by the middle of June, and the boxes will be in place by the end of June, ready to receive water from the mines.

The total loss by the fire at Dal-Oregon is estimated at \$200,000. Started in the Pioneer Hotel and swept all the buildings on Front street, from the bridge to Riverley's store, with the exception of Edwin & Moody's stone building. The buildings on the river side of Second Street are also burned for some distance. The Oregon Steam Navigation Company's office and engine house, the Umatilla House, and a number of the principal business houses are destroyed. The amount of insurance and individual losses are not yet ascertained.

NEW YORK, 26.—A dispatch from Atlanta says: The Tilden movement gaining strength in Georgia. Several county papers which have been opposed to Tilden, have recently gone over to his support. Every few days sheets of extracts from papers in all parts of the country are received by the Georgia papers, and it is rumored their insertion is paid for. All these are said to come from Albany.

BOSTON, 26.—The wool market has been very excited during the past week. Buyers were quite numerous and every available lot of wool was sought after. Transactions foot up 3,987,900 pounds of all kinds, but it is also understood that about 2,000,000 pounds of California have been placed to arrive, which will make the total sales of the week about 6,000,000 pounds, and the sales would have been larger if the assortment had been better. The new clip should be forwarded as early as possible, as all early arrivals are likely to meet a ready sale at full prices. In fine wools there was very little done owing to the reduced stock. Activity in pulled wools continues unabated. Sales have been largely in California wools, comprising 612,000 pounds of spring at 16 1/2 @ 30, and 153,000 pounds of fall at 13 @ 18; sales also comprise choice No. 1, X, YX and above at 37 @ 40; Michigan 33 1/2; New Hampshire and Vermont 32 @ 4; fine New York at 31 @ 5; unwashed and Kentucky combings at 27 @ 30; washed combing and delaine at 38 @ 40; unwashed and unnumberable at 20 @ 29; tub washed 35 @ 7 1/2; Texas 18 @ 26; Missouri 28; scoured 23 1/2 @ 69; superfine and X pulled 25 @ 42 1/2. Total sales of pulled wools amounted to 283,500 pounds.

COLUMBUS, O., 26.—A special to the State Journal says: A shooting affray occurred at the Reform School near Lancaster, yesterday, which may result seriously. Just as the school carriage was starting from the main building with a party of ladies for Lancaster, Frank Shugart, telegraph operator at the institution, attempted to get in the carriage, when he was told by Mr. Carr, superintendent of the stables, not to do so, as the carriage was already sufficiently loaded. Shugart became enraged, and drawing a revolver, fired at Carr, the ball taking effect in the right shoulder, and as it cannot be found, it is supposed it buried itself in the lungs. Carr is in a dangerous condition tonight. Shugart was arrested, but no steps have as yet been taken to prosecute him.

LAKE CHARLES, La., 26.—Yesterday, in Calcasieu River, a little below Lake Charles, during a thunder storm, a whirlwind struck the small mail propeller Ramos, capsizing it, causing it to sink instantly in about 30 feet of water. There were on board besides the captain and engineer, six passengers. The captain and engineer swam ashore but all the passengers were drowned. The bodies were recovered.

ERIE, Pa., 26.—At 4 this morning a fire occurred near the Union Depot in this city, which destroyed four loaded freight cars, together with the contents, which consisted of furniture, barrel hoops and merchandise. The fire caught in one corner of the freight house platform and was caused by sparks from a passing engine. The loss is heavy, but the figures cannot yet be obtained. The cars burned within 10 feet of the freight house, which, however, being fireproof, was not injured.

BALTIMORE, 26.—The farewell session of the international convention of the Young Men's Christian Association was held, last night, at the Mount Vernon Methodist Episcopal Church, which was crowded

in every part. The session was spent in brief addresses, prayer and singing.

The Times has reason to believe that France is framing proposals to which the adhesion of England will be invited for the establishment of strict European control over Egypt. If the Khedive accepts them France will consent to his continuing his reign. If he rejects them France, unlike England, would not shrink from accepting the proffered intervention of the sublime porte. The Times editorially opposes the French plan, and says: A reasonable compromise on the Greek question will probably soon be made.

MORGAN STAKE CONFERENCE.

The seventh quarterly conference of Morgan Stake of Zion, convened in the Bowery in South Morgan, Saturday and Sunday, the 17th and 18th insts. There were present of the Twelve Apostles, Moses Thatcher; of the Presidency of the Morgan Stake of Zion, Willard G. Smith and Richard Fry; Samuel Francis, 2d Counselor to the President having been suffering for a few days from a severe cold, was unable to attend. A majority of the High Council were present also, with the Bishops and their counselors of the various wards in the Stake, and a good representation of the people. Each ward was represented by its Bishop, and from the representation it was elicited that there is an increase of faith and a renewal of spirit existing among the Saints, and a determination to roll forth the work with greater zeal.

On Sunday afternoon the general authorities of the Church were presented to the conference for their approval or disapproval, as they were presented at the last Annual Conference, when the vote was unanimous to sustain them in their positions. The local authorities of the Stake were presented, who were also unanimously sustained; one change having been made: James R. Stuart was ordained a High Priest by Apostle Moses Thatcher, and set apart as 1st Counselor to Bishop Charles Turner, of the South Morgan Ward; vacancy occasioned by Thomas Lerwill, who has been lately excommunicated from the Church.

Elder Thatcher favored us during the conference with three truly timely sermons, and notwithstanding the people had been feeling somewhat discouraged with the gloomy prospects ahead of them on account of the grasshoppers, their minds were drawn out in another direction, and they forgot the mischief the hoppers were doing, and appeared as though they would like a quarterly conference once a month. Brother Thatcher also met in conference with the Y. M. M. I. Associations Saturday evening, when he spoke for one hour in a kindly manner to them, giving them some excellent advice. The young men here think they have got a good young man to preside over them; one full of zeal and fully competent for the position. Conference adjourned for three months. Respectfully,

JOS. S. BARRETT,
Clerk of Conference.

How a Toad Undresses.

"About the middle of July I found a toad on a hill of melons, and not wanting him to leave, I heeded around him. He appeared sluggish and not inclined to move. Presently I observed him pressing his elbows against his sides and rubbing downward. He appeared so singular that I watched to see what he was up to. After a few smart rubs his skin began to burst open straight along his back. Now, said I, old fellow, you have done it; but he appeared to be unconcerned, and kept on rubbing until he had worked all his skin into folds on his sides and hips; then grasping one hind leg with both his hands, he hauled off one leg of his pants, the same as anybody would, then stripped the other hind leg in the same way. He then took his cast-off cuticle forward between his forelegs into his mouth and swallowed it; then by raising and lowering his head, swallowing as his head came down, he stripped off the skin underneath until it came to his fore legs, and then grasping one of these with the opposite hand, by considerable pulling, stripped of the skin; changing hands, he stripped the other, and by a slight motion of the head, and all the while swallowing, he drew it from the neck and swallowed the whole. The operation seemed an agreeable one and occupied but a short time."—New York Graphic.

How to Be Beautiful.

Many hundred thousand dollars are annually expended by ladies for "artificial" appliances to hide the shrunken and wasted form, or the sallow skin, blotches or liver spots, which are due to female weakness, dyspepsia, torpid liver and constipation. If a small percent of this sum were invested in Dr. Pierce's Favorite Prescription, ladies would soon really be what they now seem to be. It readily corrects those weaknesses and diseases upon which debility and emaciation depend. It cures dyspepsia by toning up the system, and when used in connection with Dr. Pierce's Pleasant Purgative Pellets, speedily overcomes all irregularities of the liver and bowels. No "bloom of youth," no "beautifier of the complexion" can impart such permanent beauty of face and form as Dr. Pierce's health-giving Favorite Prescription. dsw

THE scarcity of Diamonds, Gold and Silver, and the difficulties met with in securing them, is a sure indication of their value.

Thus it is with a valuable medicine: Dr. Aug. Kaiser's Celebrated German Pulmonic Elixir, through the jealousy of rivals, has met with the most bitter opposition, and apparently almost insurmountable obstacles have been thrown in its way; but its opponents might as well try to change the course of the sun, sweep back the ocean with a broom or put out a prairie fire with a tear.

For the cure of Throat and Lung diseases, such as Coughs, Colds, Consumption and Bronchial Affections, it is unequalled. Its cures are truly magical. Ask your Druggist for it. The genuine bears the Prussian Coat of Arms, the facsimile signature of Dr. Aug. Kaiser, and has his name blown on every 75 cent bottle. Trial bottle, 25 cents.

Important to Wool Growers!

I take pleasure in announcing that I am making a pure "TOBACCO SHEEP DIP" from the best Kentucky Leaf, which makes an article of uniform strength and purity, without the addition of poisonous substances, and should be diluted 100 parts to one (although safe to use at any degree of strength) for dipping sheep.

This dip is convenient for use, as it only requires water to dilute it. As tobacco is so well known to wool growers who have used the same, I can only add that I have it in this convenient form for them—put up in one and five gallon tin packages, sealed tightly.
