NEWS OF THE WEST.

1 Baby Drowned in an Irrigation Ditch.

BIG RIVER EXHIBITED AT GATES

Editor, *Deseret News*:—I have seen the Big River Bridge at Gates as it stands now.

At the time of the flood of 1889, the bridge was 100 feet long, 10 feet wide, and 10 feet high above the water. It was built of logs and stones.

When temporarily raised for the passage of the Chicago & Milwaukee, the bridge was 100 feet long, 10 feet wide, and 10 feet high above the water. It was built of logs and stones.

The men of review asked to inspect the bridge were told that it was the strongest bridge in the state.

The Southern Pacific company is making a number of bridges between Salt Lake City and Ogallala, Neb., about 100 miles west of the mountains. They are made of timber and stone. The cost of these bridges is \$10,000 each.

Editor, *Deseret News*:—Producing leather by the gallon is a new industry here.

Deputy Sheriff John Clegg of Ogallala, Neb., was accidentally shot while riding his horse.
