COLONIA MORELOS.

SERIOUS GUN ACCIDENT.

Moroni Fenn Shot in the Leg — M. I. A. Banquet Abundant Crops.

Special Correspondence. Colonia Morelos, Sonora, Mexico, Oct. 10.—There was some excitement created in our colony this morning by the report that Moroni Fenn, the 17-year-old son of John and Matilda Fenn, had started out with a gun the evening before to hunt a saddle poney, and had not returned during the night, though his poney was found but a short distance from home soon after the boy had left. A searching party had just started out to search for the boy when Orin Bomey, a brother-in-law, who had begun a search at the dawn of day, arrived with the boy, who was badly wounded. While climbing the mountain side some two miles distant, he fell and dropped his gun, a 44 caliber, and while in the act of picking it up it went off, the ball passing through his leg below the knee, shattering his bone. In this wounded condition he had spent the night crawling through the underbrush to a warm home, and when found he was still one mile distant and completely exhausted. He was given the best skill obtainable in the colony and at a late hour today there is hopes that he will recover and the leg will be saved. His father, mother and infant brother are expected home within a day or two from Nicotari, whether they have been to obtain medical treatment for the latter two.

ABUNDANT CROPS.

The first harvest of the season was bounteous and the second crop of the season, which will soon be ready for harvest, bids fair to be equally as good. Water has been plentiful and rain abundant, and as a result the ranges are covered with a luxuriant growth of grass, cattle are fat and stockmen are happy.

SUBSTANTIAL HOMES.

Building is still going on in our colony and a very pleasing feature of the building is that most all dwellings are being built of good brick and lime, a great contrast to the many adobe villages of the republic.

Some sickness abounds, two cases of typhoid fever.

THE DEMOCRATIC PLATFORM.

The committee on platform and resolutions met in Judge King's office and formulated the following report:

The people demand that Salt Lake City, in convention assembled, declare its entire confidence in the integrity of the people of Salt Lake City, and submit to their candid judgment the candidates of this convention and the precinct conventions.

The time when this city will be the great commercial and social metropolis of the inter-mountain region is close at hand. New railroads are building and new enterprises are being projected. The population is increasing and will continue to increase. These conditions require that Salt Lake City should have a business administration and this the Democratic party proposes to give.

To the end that capital may be attracted for investment; that the better class of mechanics, artisans and laborers may be induced to cast their lot in this community; that all desirable citizens may see the advantage which accrues in a municipality well governed and well regulated, we declare that men chosen to fill the offices and perform the duties prescribed by law should be selected with a view to their special fitness and qualification and not because of their preference for this or that person for United States senators.

We arraign the Republican party for its absolute abandonment of all questions affecting public and municipal government and the subordination of everything pertaining thereto to the one question as to what particular faction of that party shall control in the selection of candidates for office.

The people demand that the city demand an increased water supply, so that every citizen and every enterprise may have at all times an ample amount of pure water for domestic and other purposes. We pledge our candidates for mayor and the council to immediate steps looking toward an extension of the system sufficient to provide for all those now residing within the corporate limits and those who will be added to the population.

We declare in favor of improved sanitary conditions and the selection of competent men in the city government, to the end that the epidemics of typhoid fever and kindred diseases which have prevailed during the last two years may be eliminated.

We favor public improvements of all kinds, especially do we favor the improvement of the streets and we demand the prompt and rigid enforcement of all contracts made with the city.

The present fire department is not adequate to the needs of a city of this size. We are in favor of improved apparatus and increased force, to the end that property may be protected and insurance rates reduced.

We pledge our candidates for mayor and council to the immediate selection of a permanent chief of police and we favor increase in the department for the protection of lives and property of the citizens.

With the history of four years of Republican misrule before them, we ask the citizens of this city to decide if it is not high time for a change of measures and of men. We recognize the fact that the Republican primaries and city convention fresh in their minds we ask the independent voters if they believe in the endorsement of ring methods.

Believing that it is the duty of itself and the people in the past and pledging its united support to the welfare of the city in the future the Democratic party submits its case to the candid judgment of all the voters. It urges every man and woman in the city, irrespective of politics, to register and vote, reminding each and every one of them that the story of a condition and does nothing to remedy it has no just cause for expressing dissatisfaction.

We especially call attention to the policy of obstruction pursued by the present Republican administration, through its mayor, to every attempt to increase the water supply of this city and to the entire lack of any comprehensive or statesmanlike plans for dealing with the water question as a whole.

land, Ohio, in 1821. She passed through the persecutions and mobbings of the Saints in early days, her father being one of those who suffered martyrdom at Haun's Mill, for the Gospel's sake. After her venerable sire was chopped to pieces with a corn-cutter, the child Dorcas, as a true child of God, bore testimony that she would again see him in heaven. This faith has ever been the guiding star of her life, and she ever remained a faithful member of the Church. ADVERTISEMENTS.

THE REPUBLICAN PLATFORM.

The Republicans of Salt Lake City, rejoicing in the progress, prosperity and pre-eminence of the United States and its people under Republican policies, believe that those policies, good and eminent as they have been for the country at large, are quite as good for this city and its inhabitants. And, as the regeneration of the industries and business of the country was brought about by Republicanism, so the surest means of securing prosperity and growth in this city is by the application of Republican principles in our local affairs.

The Republicans of this city emphatically endorse the course and commend the acts of Mayor Ezra Thompson. He has done his full part in striving for the upbuilding of the city, the energetic development of its natural resources and the addition of the needed reinforcement of its water supply. They recognize him as a stalwart Republican, a progressive citizen, a competent official and a man faithful to all his obligations.

The progressive Republicans of this city see a glorious future opening out before Salt Lake, a growth and progress which demand the fostering care and friendly aid of the only progressive party there is. They see the things that should be done and are prepared to do them. They know that an increase of the city's water supply is imperative if we would have the growth for which we hope and which is plainly in view; that more streets must be paved, more general improvements made and a well-coming hand extended to investors and prospective settlers among us. They congratulate the people in the prospect of added railroad facilities, the new railroads being built and the added trackage and splendid new depots which the companies under their recent franchise have agreed to build.

Salt Lake City, founded by the foresight and energy of its first settlers, adorned and embellished by the later comers, who opened the mines and have turned rich and boundless streams of silver, gold and other minerals from Utah's mines into the marts of commerce, making princely returns year by year, is already the metropolis of the basin and western mountain country and is destined to be one of the greatest and most famous cities of the earth. In Republican hands this glory will be speeded and in the hands of progressive Republicans the pace of development will be laid so firm and sure that there will be no turning back.
