

a section of land from the company instead of a quarter section, as originally provided.

Senator Hamlin left for Chicago to-day. He is not a delegate but goes as a sort of guide, philosopher and friend to Blaine. Hamlin is very much interested in the contest and believes that Blaine will be nominated.

The House committee on military affairs adopted a report favorable to the bill authorizing the Secretary of War to allow San Francisco to use part of Goat Island, in the harbor, for quarantine purposes.

The Secretary of the Treasury is dissatisfied with the prices of government bonds lately, and writes Hillhouse to extend the call to 4s and 4½s, which at market rates will pay better interest.

The Treasury Department to-day purchased 495,000 ounces of fine silver for delivery at the Philadelphia, San Francisco and Carson mints.

MINNEAPOLIS, 27.—Forty-five men met to-day in the so-called Greenback Convention, and appointed delegates to Chicago. A resolution was adopted declaring the imprisonment of Kearney a blow to free speech and a gross violation of the inalienable rights of every American citizen. The preference of the delegates for President is not known, but the majority are believed to be for Solon Chase, of Maine.

MILWAUKEE, 27.—The Wisconsin State Greenback Convention assembled at Watertown to-day and elected delegates to the National Greenback Convention and electors. Resolutions were adopted demanding the Government to issue all money, and equal taxation for the establishment of income tax. The Convention unanimously declared in favor of E. P. Ellis, of Wisconsin, for President.

CHICAGO, 27.—George C. Gorham, ex-Secretary of the United States Senate, and representing California in the National Convention, secured quarters at the Palmer House last evening. He does not believe the unit rule will be broken, but even if such should be the case, a fair share of the California delegation would vote for Grant.

ST. LOUIS, 27.—The Post-Dispatch gives the following result of a careful canvass of delegates from the Moberly democratic State convention to Cincinnati: Tilden, 9; anti-Tilden, 21; divided among Morrison, Seymour and Hancock, nearly half for Morrison. The Times gives Tilden, 12; anti-Tilden, 18.

NEW YORK, 27.—The veteran Thurlow Weed writes to-morrow's Tribune declaring that Grant must not be nominated. He appeals to the convention to respect a precedent as old as the country and declares that Grant's nomination would be the ruin of the republican party.

BOSTON, 27.—The Blaine train which left Portland this afternoon, reached Boston at 5 o'clock, and after receiving an accession of about 40 passengers from this city, proceeded on the way to Chicago.

DENVER, 27.—The Times' Leadville special says: There is great excitement this morning. The expected parade is drawing everybody into the streets. The procession, consisting of about 2,000 men, marched through the principal streets, headed by a band, and was occasionally cheered by the observers. After parading, the miners held a meeting on Fryer Hill, and passed resolutions expressing a determination to maintain their demand for \$4 per day of eight hours. Many mine owners have expressed a determination not to accede to the demands under any circumstances. The smelters were not interfered with, and are running as usual.

READING, Pa., 27.—Edward Hall, Mike Walsh and Robert White, three notorious New York forgers, were arrested here this afternoon, charged with counterfeiting scrip issued by the Philadelphia and Reading Railroad Company. Seven thousand dollars worth of bogus certificates were found upon them.

SAN FRANCISCO, 27.—The Supreme Court this morning sustained the general demurrer of Kallach against the impeachment proceedings by the Board of Supervisors and dismissed the case.

CHARLESTON, S. C., 27.—There was great excitement in the court of general sessions at King Street, in this State yesterday. A man named Ward was found guilty of being a forger, and as soon as the verdict was announced, he rose from his seat within the bar, drew a pistol and fired twice deliberately at two men, named Harper and Lane, the principal witnesses against him. Harper was unhurt, but the second shot

wounded Lane in both hands. Ward is in jail.

NEW YORK, 28.—The Commercial Bulletin thinks the course of the Pacific Coast merchants who are urging the licensing of commercial travelers narrow and short sighted. The whole thing is the incarnation of selfishness and provincialism, and unworthy the free air and freemen of the Pacific. It savors of the narrow spirit of the Louisiana and Carolina sugar and rice planters, in opposing the California demand for a Sandwich Island reciprocity treaty. We stood by the Californian in that fight in the interests of unfettered commerce, and to-day they are reaping the fruits of it in a greatly increased trade, home as well as foreign. California having thus signally benefited by the freedom of trade, in other words, healthful competition, ought not now to be putting herself in a false position with reference to eastern commercial travelers, whose function it is to supply her people with goods at the lowest prices. How would San Francisco like if New York were to impose, say, a prohibitory tax upon every Californian who comes here to sell Pacific Coast wines in competition with our dock exchange. A legitimate mode of meeting this eastern competition would be the encouragement of such home manufactures in California as the Atlantic States cannot produce.

The Herald's latest tables gives the following details at Chicago: Grant, 400; Blaine, 217; Sherman, 81; Washburne, 14; Edmunds, 34; Windom, 10. At Cincinnati Morrison, 8; Tilden, 184; Bayard, 37; Seymour, 40; Hancock, 84; Thurman, 49; Randolph, 18; Field, 5; English, 2; Hendricks, 7.

The Herald says: San Francisco has indulged in another somersault. Kallach's demurrer is sustained and Kearney is out on a habeas corpus writ. What was the bargain?

Senator Jones, of Nevada, who has been detained here by the Hudson River Tunnel interest, goes to the Chicago convention to-morrow. He is for Blaine, as his State is, but believes that Windom is the dark horse; because his State will hang on to him as Ohio did to Hayes, four years ago, and thus secured his nomination.

The erratic Sun has the following as the first article this morning: No third term; no Caesarism; for President, Benjamin Bristow, of New York; for Vice-President, John B. Henderson, of Missouri.

The Herald's special from Jewett City, Connecticut, says: Miss Katie O'Day, a sparkling and vivacious young lady of this place, literally the belle of Jewett City, and a general favorite, was stricken in one of her legs five months ago, with a disease which the local physicians term dry gangrene. The limb has gradually assumed a saffron hue and become much swollen and is now powerless. A darning needle can be run into the flesh its entire length without being felt. The affliction has caused the young lady to become nearly insane with grief and despair. Miss O'Day is the adopted daughter of James O'Day, recently of San Francisco, a wealthy resident of this place. The disease has thus far baffled medical experts from far and near, as none of them have ever seen anything like it. It was decided on Monday to amputate the limb, but the patient was so prostrated it was feared the operation would be at once fatal. Surgeon Carleton, of Norwich, assisted by several doctors, will cut it off to-morrow. Amputation is supposed to be the only hope of saving the young lady's life, and in fact she is not expected to survive that method of treatment.

CHICAGO, 28.—A dispatch dated Canada, Alamoga, 25th, from Col. Hatch, received by Gen. Sheridan, arrived yesterday, and contains news of a battle with the hostiles at the head of Pollomas River, in which 31 to 55 hostiles were killed. There are reports that Major Morrow had joined him with four companies. He was arranging for an active campaign, and a later dispatch from him reports more fighting, but gives no particulars.

The board of trade directors will make a searching investigation into the bogus reports circulated on charge to the effect that James R. Keene had failed. Keene's principal broker here has brought charges against a commission from alleging that they started the story to bear the market.

A Fort Buford, Mont., special says: The redskins now at Poplar Creek agency have repeatedly sent word to Gen. Hazan desiring to surrender, and three councils have been held with these hostile Sioux. They

are very hungry, but fear treachery and dread being put in irons, preferring even death by starvation. Sitting Bull himself has sent a special envoy, but Hazen told him the terms of surrender were the same as heretofore expressed.

SAN FRANCISCO, 28.—The Democratic State Convention of Nevada met at Winnemucca yesterday afternoon, effected a permanent organization and in an evening session nominated delegates to Cincinnati. Three prefer Tilden, two Thurman and one Field, but the convention, by a vote of 58 to 33 declared Tilden the preference of the party. George W. Cassidy was nominated as member of Congress, C. H. Belknap, Supreme Judge, J. H. Dennis, W. E. F. Deal and J. C. McFarahan were nominated presidential electors. Adjourned sine die.

## FOREIGN.

LONDON, 27.—The Times' correspondent at Rome says: The Italian Parliament opened yesterday with the usual pomp. The public and other tribunes were crammed to excess. The attendance of senators and deputies was unusually large, but a chill atmosphere of depression prevailed in consequence of the political uncertainty and possibility of an immediate crisis. Only for a few moments when the Queen entered was the gloom dispelled. The whole house greeted her with an outburst of the warmest enthusiasm. The King was received with deafening cheers. The royal speech, however, was received with even greater coldness than that delivered by King Humbert last February. The Extreme Left refrained from joining in the applause, even when the sovereign left the house.

In the House of Commons to-day, Sir Charles Dilke said the Government was well aware of the injury to trade caused by the war between Chili and Peru and was desirous of offering its friendly services in the matter; that such friendly overtures have hitherto been ineffectual, and the Government has been and is in communication with other governments on the subject, and if a favorable opportunity for mediation should offer, they would avail of it. The Under Secretary also said the British Minister at Madrid had several times protested against the claims of Spain to the northern part of Borneo.

Earl Cowper, Lord Lieutenant of Ireland, and the Countess made state entry into Dublin to-day and were enthusiastically received. The streets were crowded with people.

In the House of Lords, to-night, Earl Granville stated that arrangements for the first step of the Powers to press upon the Porte the performance of its obligations were so nearly concluded that he hoped shortly to lay papers before the House. Until then, he said, it was inconvenient to give further information.

At the annual meeting of the National Rifle Association the Duke of Cambridge announced that a match had been arranged for between America and the United Kingdom, under the auspices of the Association, the match to take place the last day of the Wimbledon meeting, at 800, 900, and 1,000 yards.

A private telegram from Ragoon reports a rebellion among the natives of Burmah. Fighting is in progress between Minlah and the British frontier, supposed to be between the adherents of Burmese Princes at Calcutta, and the Burmese Government troops.

Lorillard's Iraqis won the two-year-old stakes at Epsom, to-day, beating Count Lagrange's Elcitr easily by four lengths.

On the 20th of April, Bismarck sent a confidential dispatch to the German ambassador at Vienna, remarking on the retrogression of the negotiations with the Vatican and intimating that it was due to the easily over-wrought expectations of Catholic prelates through their faulty acquaintance with the real situation of affairs. The Prussian government only intended to disarm and not destroy the weapons they command by legislation. The dispatch proceeds to mention the continued opposition of the Centre party, though a single word from the Pope or bishops would terminate the unnatural alliance of the Catholic aristocracy and priesthood with the Socialists.

Bismarck declares that he never uttered a syllable which could be interpreted as indicating a willingness on the part of the government to abolish the May laws in conformity with the demands of the cleri-

cals. The peaceful practice of an endurable modus vivendi on the basis of mutual tolerance was the most that ever could be obtained.

The North German Gazette says: Of late, the confidence previously felt in the satisfactory result of negotiations between Prussia and the Vatican has been shaken, and the Prussian government has consequently resolved to make to its Catholic subjects, spontaneously and without regard to any return on the part of the Vatican, such concessions as are possible without prejudice to the interests of the State and also to obtain from the Diet discretionary powers relative to the application of the May laws. The same journal contains the statement that it will depend upon the attitude of the Curio to what extent the government avails itself of those powers.

LONDON, 27.—A Rome dispatch says: The speech from the throne was very well received.

The International Rifle match between Ireland and America takes place at Dublin on the 29th of June.

The strike at Roubaix has ended, the masters promising to increase the wages.

The Daily Telegraph says: We have received from an authoritative source a document containing a resume of the Albanian difficulty, embodying as we have reason to believe, the view of the German Government respecting the most desirable solution. The document states the feasible solution to be to sanction the autonomy of Albania under a native prince doing homage to the Sultan. The Porte does not regard this unfavorably, and the British Cabinet might rejoice in the conviction that it had assisted another Balkan people to achieve emancipation.

Count Orloff visited President Grevy and informed him he was instructed by the Czar to express a desire for cordial relations. President Grevy expressed his gratification at seeing Russia represented by a diplomatist who had won so much sympathy and good will.

Tribal disturbances at Bassora continues. Four battalions of Turkish troops are on the way there. Ilha has been surrounded by the Arabs. The telegraph wires between Bassora and Samava have been cut.

## The Test of Experiment.

Let those, if any such there be who question the efficacy of "GLENN'S SULPHUR SOAP," as a means of preventing and obliterating complexional blemishes, give this harmless cosmetic a fair and honest trial. There is no test like experiment to convince the judgment, and to that test Glenn fearlessly appeals. Remember that "GLENN'S SULPHUR SOAP" differs entirely from the dangerous cosmetics, and contains no deleterious substance. See that "C. N. CRITTENTON, Proprietor," is printed on each packet, without which none is genuine. Sold by druggists at 25 cents, three cakes 60 cents. Coupled with this appointment of the toilet "HILL'S INSTANTANEOUS HAIR DYE," finds its place in the dressing rooms of fashion. Time is inexorable, and damages must be repaired; but with these two articles he may long be held at bay. Depot, 7 Sixth Avenue, New York.
