The Stave company went to the United States district court and se-cured an injunction against the de-fendants restricting them from push-ing the boycott. The defendants ap-pealed to the United States circuit court of appeals, which now affirms the

court of appeals, which now affirms the decision o fthe lower court. Washington, Nov. 15.—On motion of Assistant Attorney-General Anderson, the Supreme court today decided to issue immediately the mandate in the Durrant murder case. No representa-tive of Durrant was in court when the motion was made. The court, after a hurried consultation on the bench, an-nounced through Chief Justice Fuller that the mandate should issue forth-with with.

with. Mr. Anderson thinks this will settle the matter and hasten Durrant's exe-sution. He said he would have made the motion sooner but for the necessity af giving notice to Durrant's counsel. Omaha, Neb., Nov. 15.—A special to the Bee from Chadron, Neb., says: An eastboud passenger train and a reight train collided at Borden sta-tion this morning at 4 o'clock. No pas-sengers were seriousiv injured but a great amount of rolling stock was damaged. Engineer Charles Conners, of the freight, had his spine hurt. The trains met on a curve during a show storn.

snow storn. Indianapolis, Ind., Nov. 15.—Cecil Robinson, 14 years old, shot and killed his 11-year-old sister, Mattie, last night at the Robinson home on Jefferson, avenue. The boy pointed the revolver in the force of his clater not knowing that

avenue. The boy pointed the revolver in the face of his sister not knowing that it was loaded. When he pulled the irigger, the weapon discharged a bullet into the girl's head. London, Nov. 15.—The temperature which was high all last week in many places, the thermometer registering 60 to 70 degrees, due, it has been chimed, to the proximity of meteors, suddenly became colder yesterday evening, and this morning snow has fallen in many parts of Scotland and north England. The coast is swept by a severe gale, enusing the shipping to seek shelter at nearby ports.

ters at the Indian school. The first alarm was sounded while the girls were at supper. The blaze was in the reading room and was quickly extinguished. Perfect disci-pline was maintained by the teachers and any fears of the pupils were quick-by calmed

and any fears of the pupils were duck-ly calmed. Two hours later, after many had re-tired for the night, the second cry of fire arose. The room of one of the pupils was seen to be in flames, and the Indian fire brigade had to be called out before the blaze was extinguished. The damage was slight, but the two fires, mysterious in their origin and following so closely upon each other. oreated so much uneasiness that many of the pupils staved awake all night.

ereated so much uneasiness that many of the pupils staved awake all night. Boise, Idaho, Nov. 15.—Suits have been begun in the United States court by the United States to recover some 3,300 acres of land located in the Black-foot land district which the govern-ment chaims was illegally proved upon the those antering if. This is the first by those entering it. This is the first step towards gaining possession of sev-eral large tracts of land in that district which are alleged to have been proved upon under the grossest misrepresenta-

tions. It is claimed that parties, residents of other states, many of Colorado and Utah, took up the land under the desert land act of 1877. In the year 1890 and the following year it is claimed that the partles represented to the receiver of the Blackfoot land office that water had been supplied the land in sufficient quantities to irrigate the whole of it. The complaint in the case asserts that the land has never had water upon it and that it is yet unreclaimed.

There are seven suits already begun

gun. Cologne. Nov. 15.—A dispatch to the Cologne Gazette from Berlin says the sailors and marines belonging to the German cruiser Division of the coast of China have made a landing in force at Kiaochan Bay, the nearest port to Yen Chu Fu, in the southern part of the Chinese province of Shan Tun, where the German missionaries were recently murdered, with the view of forcing the government of China to completely satisfy the demands of Ger-many.

completely satisfy the achieved was many. New York, Nov. 14.—Mrs. Nack was taken from the Queens county jall early this morning and driven to Jackson avenue and through Wood-side, but not near the cottage where the murder occurred. She went to corroborate a part of her confession, and tomorrow the authorities hope to be able to locate the saw with which it is claimed Thorn dismembered the body Guldensuppe. of

In her confession Mrs. Nack had in-dicated the locality in which the saw dicated the locality in which the saw was buried. She was not sure of the exact place where the saw was in-terred, but was sure she could tell within a few feet. When the spot was located as nearly as possible the wo-man and officers re-entered the coach and it was driven back to Long Island City and Mrs. Nack returned to her cell. Digging will be commenced to-MOLLOM

cell. Digging will be commenced to-morrow. The identification of Martin Thorn as a former convict by a keeper of Moyamensing prison, Philadelphia, Saturday, caused District Attorney Young to make a sudden journey to Philadelphia. It was also announced that Detective Melvin has left to join Mr. Young and work out the new feat-ure of the case. None of the officials would say in the absence of Mr. Young, what the developments were that induced the district attorney to give the matter his personal attention. It was believed that Thorn's record as a convict, as revealed by the Moy-amensing keeper, consisted merely of a short term for the theft of a diamond shop. He was known as Thorninski. Hastings, Mich., Nov. 15.—Hon. John F. Norrish dropped dead Sunday at the door of his residence of heart dis-ease. Mr. Norrish, at the time of his death, was a member of the state prison board, and held the "osition of surveyor-general of the state during death, was a member of the state prison board, and held the rosition of surveyor-general of the state during

the Cleveland administration. He was one of the best known Democrats in Minnesota. Iron Mountain, Mich., Nov. 15.—Fred Cawling, 26 years old, manager of Wright Bros. extensive cigar business. was shot dead Saturday four miles from Canning. He was mistaken for a deer by an old hunter named Wal-lasley and shot in the back, the ball passing through his heart. This makes the fifth fatality since the deer season onened a week ago Minnesota.

enormous increase of population have confirmed her in the just confidence that with the mother country at her back she needs no American assist-ance in the work of carving out for herself an honorable and prosperous CHITCHI

Denver, Colo., Nov. 16.—A special to the Times from Aspen Colo., says: The situation here grows hourly more

alarming and unless the seat of the Smuggler fire is soon reached there is every reason to believe that the entire district will have to be temporarily district will have to be temporary abandoned. Today every property on Smuggler mountain had to be aban-

doned on account of the gas. Some narrow escapes are reported from the Cowenhaven tunnel. About 10 o'clock one of the mules that hauls the ore trains fell just as it reached open air, overcome by gas. The driver was found unconscious in the bottom of the car. Engineer Irwin on the Park Regent was brought out

the bottom of the car. Engineer Irwin on the Park Regent was brought out insensible and several other men were found wholly or partially unconscious and brought out. The exact number of men driven out this morning is esti-mated at 200. This makes a total of about 600 now thrown out of work by the gas. Between forty and fifty miles of workings have been abandoned on Sthuggler mountain, eight of which are in the Smuggler mine. The gas seems to be penetrating through the seams in the contact to the south, and is plainly noticeable in the Argentum Junita workings. Last night it was thought the bulkheads put in between the burning mine and this property would prevent the latter from being affected, but indications this morning are that the gas cannot be stopped in this manner. Some are inclined to the belief that the gas in the Argentum Junita is that which which found its way into the Mollie Gibson Sunday morning before the bulkheads were put in. If this is the correct theory no permanent evil re-suits will follow.

bulkheads were put in. If this is the correct theory no permanent evil re-sults will follow. The Mollie Gibson people are doing but little more than running their pumps and watching the situation. The gas does not seem to be penetrat-ing this property to any alarming de-gree and the hope is strengthening that it is secure. The "lead stope" of the Smuggler, which is worked through the Smuggler tunnel, had to be aban-doned this morning after two trips with the mule train. This virtually means the closing down of the Smug-gler mill within a day or so.

means the closing down of the Smug-gler mill within a day or so. Manager Hallett was seen as he stepped from the Free Silver cage this morning. He had just come up from an examination of the fire situation. He stated that the men were making most satisfactory progress toward reaching the fire but that water could not be got on it before 4 or 5 o'clock. "We have recovered the 8th and 7th levels," he said. "We have a steam, air and water line to the crib on the 7th, a few feet above the level of the fire. The 8th has been bulkheaded, also the 7th, and the gas and smoke are now finding vent through the 5th and

the 7th, and the gas and smoke are now finding vent through the 5th and 6th. The relief pumps on the 5th have not been recovered but the danger to the gas going down and driving out our pumpmen on the 9th is much less than yesterday. We will, next force air in the 6th and drive the gas out of the 5th and up the shaft. This will enable us to know how to tackle the seat of the trouble. The pumps are lifting 2,the fifth fatality since the deer season opened a week ago. London, Nov. 15.—The afternoon papers devote editorial articles loday to the visit of Sir Wilfred Laurier, pre-mier of Canada, to Washington. The Globe declares: The statesmen at Washington have played their cards badly, and they know it. Canada has learned the lesson of patriotic inde-pendence and self reliance, and the promise her in the near future an planet. The fifth fatality since the deer season to the trouble. The pumps are lifting 2,-500 gallons of water to the 5th and 1,800 sallons to the surface. At the 5th we are taking out 700 gallons per minute and running it down over the crib think we now have the fire confined to that particuar stope. We will cut hope to announce some satisfactory played which promise her in the near future an
